SUMMARY

The Tax Equalization and Review Commission, as part of its equalization proceedings held pursuant to Neb. Const. Art. IV, §28, and Neb. Rev. Stat. §77-5022 *et. seq.*, (Reissue 2003, Cum Supp 2004, Supp. 2005), finds that the level of assessment of certain real property in Cuming County for tax year 2006, fails to satisfy the requirements of Neb. Const. Art. VIII, §1, and Neb. Rev. Stat. §77-5023 (Cum. Supp. 2004). The Commission therefore orders an adjustment to the value of certain real property within Cuming County.

**I.
REPORT AND OPINION
OF THE PROPERTY TAX ADMINISTRATOR**

Cuming County ("County"), as required by Neb. Rev. Stat. §77-1514 (Supp. 2005), timely filed its Abstract of Assessment for 2006. The Property Tax Administrator ("Administrator"), based on that abstract and other information available to the Administrator, has filed certain statistical and narrative reports with the Nebraska Tax Equalization and Review Commission ("Commission") and further has certified the Administrator's opinion regarding the

level of value and the quality of assessment of real property in Cuming County for tax year 2006. Neb. Rev. Stat. §77-5027 (Supp. 2005).

II. REVIEW OF ASSESSMENT PRACTICES

The level of value or assessment for any class or subclass of real property is generally indicated by its median assessment-sales ratio unless that statistic is deemed unreliable, the sample from which it is drawn is not representative of the class or subclass, or the level of value or assessment has been determined based on other generally accepted mass appraisal techniques. The acceptable ratio range for the median of the "Assessment-Sales Ratio" is from 74% to 80% of actual or fair market value for the class and subclasses of agricultural and horticultural land not receiving special valuation pursuant to Neb. Rev. Stat. §77-1344; 74% to 80% of special valuation and recapture valuation, for the class and subclasses of agricultural and horticultural land receiving special valuation pursuant to Neb. Rev. Stat. §77-1344; and 92% to 100% of actual or fair market value for all other classes and subclasses of real property.

Neb. Rev. Stat. §77-5023(2) (Cum. Supp. 2004). Whether or not the level of assessment indicated by the median falls within the acceptable range may be determined to a reasonable degree of certainty relying upon generally accepted mass appraisal techniques. Neb. Rev. Stat. § 77-5023(5) (Cum. Supp. 2004).

For purposes of determining the level of value of agricultural and horticultural land subject to special valuation under sections 77-1343 to 77-1348 of Nebraska Statutes, the Property Tax Administrator is required to make and issue a comprehensive study developed in compliance

with professionally accepted mass appraisal techniques to establish the level of value if in his or her opinion the level of value cannot be developed through the use of the comprehensive assessment ratio studies. Neb. Rev. Stat. §77-1327(4) (Supp. 2005).

The uniformity and proportionality of assessments (the “quality” of assessments), under professionally accepted mass appraisal methods, are measured through the use of the Coefficient of Dispersion (“COD”) and the Price Related Differential (“PRD”). The appropriate COD range for the residential class and subclasses of real property is between 0 and 15 and the appropriate COD range for all other classes and subclasses of real property is between 0 and 20. 442 Neb. Admin. Code, ch 9, §008.06C (01/05). The appropriate PRD range for all classes and subclasses of real property is between .98 and 1.03. 442 Neb. Admin. Code, ch 9, §008.06B (01/05).

III. DUTIES OF THE COMMISSION

“. . . if the commission finds that the level of assessment of a class or subclass of real property fails to satisfy the requirements of section 77-5023, the commission shall issue a notice to the counties which it deems either undervalued or overvalued” Neb. Rev. Stat. §77-5026 (Supp. 2005).

“The Commission shall pursuant to 77-5026 raise or lower the valuation of any class or subclass of property in a county when it is necessary to achieve equalization.” Neb. Rev. Stat. §77-5027 (Supp. 2005).

“After a hearing conducted pursuant to section 77-5024 or 77-5026, the commission shall enter an order based on the information presented to it at the hearing . . . the order shall specify

the percentage increase or decrease and the class or subclass of real property affected or the corrections or adjustments to be made to the class or subclass of real property affected.”

Neb. Rev. Stat. §77-5028 (Supp. 2005).

“Any increase or decrease shall cause the indicator of central tendency of assessment utilized by the commission to be at the midpoint of the acceptable range.” Neb. Rev. Stat. §77-5023 (3) (Cum. Supp. 2004). “Any decrease or increase to a subclass of property shall also cause the indicator of central tendency utilized by the commission for the class from which the subclass is drawn to be within the applicable acceptable range.” Neb. Rev. Stat. §77-5023(4) (Cum. Supp. 2004). “Whether or not an established indicator of central tendency falls within an acceptable range or at the midpoint of an acceptable range may be determined to a reasonable degree of certainty relying upon generally accepted mass appraisal techniques.” Neb. Rev. Stat. §77-5023(5) (Cum. Supp. 2004).

IV. EVIDENCE BEFORE THE COMMISSION

The Commission may consider and utilize the provisions of the Constitution of the United States, the Constitution of Nebraska, the laws of the United States, the laws of Nebraska, the Code of Federal Regulations, the Nebraska Administrative Code, any decision of the several courts of the United States or the State of Nebraska, and the legislative history of any law, rule, or regulation, without making the document a part of the record. The Commission may without inclusion in the record consider and utilize published treatises, periodicals, and reference works pertaining to the valuation or assessment of real or personal property or the meaning of words and phrases if the document is identified in the Commission's rules and regulations.

Neb. Rev. Stat. §77-5016(3) (Supp. 2005), 442 Neb. Admin. Code, ch 5, (01/05). No information or evidence, except that permitted by law, may be considered. Neb. Rev. Stat. §77-5016(3) (Supp. 2005). The Commission may evaluate the evidence presented utilizing its experience, technical competence, and specialized knowledge. Neb. Rev. Stat. §77-5016(5) (Supp. 2005).

**V.
FINDINGS OF FACT**

The Commission finds and determines the following concerning classes and subclasses of real property in Cuming County:

PROCEDURAL

1. A statistical and narrative report informing the Commission of the level of value and the quality of assessments of the classes and subclasses of real property for Cuming County and certifying the opinion of the Property Tax Administrator regarding the level of value and the quality of assessment of real property in Cuming County, for the tax year 2006 was timely received by the Commission. (E20).

The level of assessment for each class or subclass is the level of value indicated by its median assessment to sales ratio unless the statistic is deemed unreliable, the sample from which it is drawn is not representative of the class or subclass, or the level of value or assessment has been determined based on other generally accepted mass appraisal techniques.
3. The level of assessment for special value of the agricultural land and horticultural land class of real property subject to special valuation and its subclasses was determined

through an income based methodology developed by the Property Tax Administrator pursuant to Neb. Rev. Stat. 77-1327 (4) (Supp. 2005).

4. The Commission's Order to Show Cause and Notice of Hearing dated April 25, 2006, proposing an adjustment to the level of value of real property in Cuming County was mailed to the County Clerk, County Assessor, and Chairperson of the County Board for Cuming County on April 25, 2006.
