# 2014 Opinions of the Property Tax Administrator for Cheyenne County

My opinions and recommendations are stated as a conclusion based on all of the factors known to me regarding the assessment practices and statistical analysis for this county. See, Neb. Rev. Stat. § 77-5027 (2011). While the median assessment sales ratio from the Qualified Statistical Reports for each class of real property is considered, my opinion of the level of value for a class of real property may be determined from other evidence contained within these Reports and Opinions of the Property Tax Administrator. My opinion of quality of assessment for a class of real property may be influenced by the assessment practices of the county assessor.

| Class                        | Level of Value | Quality of Assessment                              | Non-binding recommendation |
|------------------------------|----------------|--|----------------------------|
| Residential Real<br>Property | 98             | Meets generally accepted mass appraisal practices. | No recommendation.         |

### **2014** Residential Assessment Actions for Cheyenne County

For assessment year 2014, a new cost index (dated June 2013) was implemented and a new depreciation schedule based on market was implemented. All residential lots in the County were revalued as well.

## **2014** Residential Assessment Survey for Cheyenne County

| 1. | Valuation dat           | ta collection done by:   |
|----|-------------------------|--|
|    | Stanard Appra           | aisal, as well as by the Assessor and her staff.   |
| 2. | List the characteristic |  |
|    | Valuation<br>Grouping   | Description of unique characteristics  |
|    | 10                      | Sidney is the Cheyenne County seat and the main center for services. It also has the most viable residential market (due in large part to Cabela's World Headquarters located there).  |
|    | 11                      | Sky Manor, Indian Hills, Valley View and sixteen other similar properties with these Sidney subdivisions that are quite similar in nature (year built, style, quality, etc.). Developed after World War II, they all look alike and have a market substantially different from the other residential subdivisions within the city of Sidney. |
|    | 20                      | Unimprovedbasically all of the vacant residential lots within Cheyenne County.   |
|    | 40                      | Small townsconsists of Brownson, Dalton, Lodgepole, Lorenzo, Potter and Sunol. These are small towns and villages (both incorporated and unincorporated) that are scattered throughout the County and exhibit a similar residential market as a whole.   |
|    | 80                      | Rural residentialthese are properties that lie outside of city/village limits. This valuation grouping includes all of the rural residential acreages and those parcels that would be classified traditionally as "suburban,"small platted subdivisions, usually with lots that are larger than those typical in town.                       |

# 2014 Residential Correlation Section for Cheyenne County

#### **County Overview**

Cheyenne County, located in the southwest portion of the Panhandle, as of 2012 had a population of 10,068 and is bordered to the North by Morrill County, to the east by Deuel and Garden Counties, to the west by Kimball and a small portion of Banner County. Its southern border is adjacent to the State of Colorado. Cheyenne County's economy is based on retail trade, education, transportation and agriculture. Sidney, the County seat lies just north of I-80 and probably has the most viable residential market due in very large part to its being home of Cabela's world headquarters. Although the Assessor has this city divided into two valuation groups (10 and 11), for measurement purposes, the Department considers these as one group. There are three other valuation groups used by the Assessor and they include 20 (unimproved residential lots); 40 (small towns consisting of both incorporated and unincorporated villages that includes Brownson, Dalton, Lodgepole, Lorenzo, Potter and Sunol)—these would have very limited residential activity but a similar market, and 80 (Rural, or all residential properties outside of the city/village limits).

#### **Description of Analysis**

The sample contains 371 sales, with the two Sidney valuation groups comprising the majority of the sample, thus confirming that Sidney has the most active, viable residential market in Cheyenne County. The overall measures of central tendency are all within acceptable range and the qualitative measures are within their prescribed parameters as well. The extremely low coefficient of dispersion can partly be explained by the Assessor implementing new cost index and market depreciation for the current assessment year (2014). Further, all valuation groupings have at least two of three measures of central tendency within acceptable range.

#### **Sales Qualification**

Cheyenne County utilizes a consistent procedure for both residential sales qualification and verification. A Department review of the non-qualified sales demonstrates a sufficient explanation in the County notes section to substantiate the reason for the exclusion from the qualified sales sample. There is no evidence of excessive trimming in the file.

#### **Equalization and Quality of Assessment**

The Department utilizes a yearly analysis of one-third of the counties within the state to systematically review assessment practices. Cheyenne County was selected for review in assessment year 2011. It has been confirmed that the assessment practices are reliable and applied consistently. Further, it is believed that residential property is treated in a uniform and proportionate manner.

The Cheyenne County Assessor completed the six-year review cycle in assessment year 2011, and is continuing to follow the three-year plan of assessment.

# 2014 Residential Correlation Section for Cheyenne County

#### Level of Value

Based on analysis of all available information, the level of value of the residential class of real property in Cheyenne County is 98%.

### **2014** Commercial Assessment Actions for Cheyenne County

For assessment year 2014, the remaining physical review of Sidney and the small towns was completed. Rural commercial was also started. All low-income housing was revalued using the income approach. All pick-up work was completed.

## **2014** Commercial Assessment Survey for Cheyenne County

| 1.  | Valuation da   | ata collection done by:  |  |
|-----|--|--|--|
|     | Stanard Appraisal, the Assessor and her office staff.  |  |  |
| 2.  | List the va  | duation groupings recognized in the County and describe the unique characteristics   |  |
|     | <u>Valuation</u><br><u>Grouping</u>  | Description of unique characteristics  |  |
|     | 10   | This valuation grouping includes both the city of Sidney and rural commercialthe primary commercial areas for Cheyenne County.   |  |
|     | 20   | Unimproved commercialconsists of all vacant commercial lots.   |  |
|     | 30   | Sioux Meadowsa unique valuation group that consists of old Army buildings (some of these have been updated, and others have seen no change). A railroad track runs across the Sioux Meadows lots, and each lost is assessed for part of the track (depending on how much and what type of track crosses the property). |  |
|     | 40   | Small towns/villagesa much smaller non-competitive commercial market in the smaller communities that is largely unorganized (i.e., there is not a viable commercial market).   |  |
| 3.  | List and describe the approach(es) used to estimate the market value of commercial properties.   |  |  |
|     | Cost approa  | ach minus depreciation. The income approach is used, however, for apartments and nousing.  |  |
| 3a. | Describe the process used to determine the value of unique commercial properties.  |  |  |
|     | The Assessor obtains building permits for any new property, and any unique commercial property would be discussed with other Panhandle Assessors to determine if similar properties exist to aid in valuation. |  |  |
| 4.  | I  | approach is used, does the County develop the depreciation study(ies) based on tinformation or does the county use the tables provided by the CAMA vendor?   |  |
|     | The Assessor   | or reviews the CAMA depreciation and further develops this by utilizing information rent market.   |  |
| 5.  | Are individu   | al depreciation tables developed for each valuation grouping?  |  |
|     | Yes.   |  |  |
| 6.  | Describe the   | methodology used to determine the commercial lot values.   |  |
|     | A study of the   | e market is utilized to establish lot values, via a cost per square foot.  |  |

## 2014 Commercial Correlation Section for Cheyenne County

#### **County Overview**

Cheyenne County's commercial economy is based mainly on retail and some industrial activity (with Cabela's representing a large portion of the retail trade and the Pennington Seed Company representing part of the industrial activity). Agriculture also contributes to the commercial economy of the County. Sidney, the County seat has the most active, viable commercial market within the County—perhaps in part to its proximity to Interstate 80—but the various small villages (Dalton, Gurley, Lodgepole and Potter) appear to have extremely limited commercial activity.

#### **Description of Analysis**

Forty sales were deemed qualified for the commercial sample during the three-year time period of the study. Of these, thirty-six or 90% occurred in valuation group 10 (Sidney). This valuation group has a commercial population comprised of fifty-eight occupancy codes, and only two codes within the sample did not have a similar commercial parcel sell in Sidney. Four valuation groups are identified by the Assessor to represent the commercial property class: 10 (Sidney), 20 (unimproved commercial property), 30 (Sioux Meadows) and 40 (small towns/villages). Only valuation group ten has a sufficient number of sales in the sample.

The aforementioned would confirm that valuation group 10 has the only viable commercial market within Cheyenne County and will be used in the determination of the commercial level of value. All three measures of central tendency are within acceptable range and both qualitative statistics are within their respective ranges.

#### **Sales Qualification**

The Cheyenne County Assessor has a consistent procedure for both sales qualification and verification. A Department review of the non-qualified sales demonstrates a sufficient explanation in the County comments section to substantiate the reason for exclusion from the sales file. It is believed that all truly qualified commercial sales are available for analysis, and there is no evidence of excessive trimming in the sales file.

Cheyenne County completed its six-year physical inspection cycle (all commercial property was physically reviewed in 2009) and is currently following the three-year plan.

#### **Equalization and Quality of Assessment**

The Department utilizes a yearly analysis of one-third of the counties within the state to systematically review assessment practices. Cheyenne County was selected for review in assessment year 2011. It has been confirmed that the assessment practices are reliable and applied consistently. Further, it is believed that commercial property is treated in a uniform and proportionate manner.

# 2014 Commercial Correlation Section for Cheyenne County

#### Level of Value

Based on analysis of all available information, the level of value of the commercial class of real property in Cheyenne County is 97%.

### 2014 Agricultural Assessment Actions for Cheyenne County

For assessment year 2014, the agricultural market areas were reviewed and as a result market areas three and four were combined. While individual values were set for the three active agricultural market areas, in general the Assessor raised her irrigated land class by about 25%, dry land received a 27% increase and the grass land class received a 25% increase.

#### 2014 Agricultural Assessment Survey for Cheyenne County

| 1. | Valuation dat  | a collection done by:   |  |
|----|--|---|--|
|    | The Assessor   | and her staff.  |  |
| 2. | List each market area, and describe the location and the specific characteristics that make each unique. |   |  |
|    | Market<br>Area   | Description of unique characteristics   |  |
|    | 1  | The soils in this market area are generally thin and rocky, with an abundance of hills. This area historically receives less rainfall overall than the remainder of the County. The majority of the land is classified as grass, dry, or is enrolled in CRP.  |  |
|    | 2  | This agricultural market area is loccated south of Lodgepole Creek and iss geographically an extension of the Colorado High Plains. This area is comprised of roughly 35% grass land and about 58% dry.   |  |
|    | 3  | For assessment year 2014, the Cheyenne County Assessor combined the two northern market areas (three and four) into one area, due to both similar soil and topography characteristics and data from the market. This new combination market area has an array of soils that range from marginal in places to very deep and rich soils. The majority land use is dry cropland and the remaining irrigated and grass land are roughly similar in percentage contribution. |  |
|    | 5  | This is an area found within the city limits of Sidney. When it was annexed into the city limits, the zoning remained agricultural. However, when a parcel in this area sells, it almost always changes use to commercial or residential.   |  |
| 3. | Describe the 1   | process used to determine and monitor market areas.   |  |
|    |  | reviews the geography, topography, soil production capability, annual rainfall and determine the unique agricultural market areas.  |  |
| 1. |  | e process used to identify rural residential land and recreational land in the from agricultural land.  |  |
|    | all acreages<br>residential, re<br>current agric<br>residential rat                                      | is described in a written policy document that states, "Cheyenne County is zoned and and subdivisions containing less than forty acres will be classified as rural cereational or commercial property. Exceptions will be made for contiguous land to cultural/horticultural operations." Whether the parcel is to be classifed as rural ther than recreational use would be determined by the stated use by the taxpayer and ales verification questionnaire.          |  |
| 5. | Do farm ho   | me sites carry the same value as rural residential home sites? If not, what are fferences?  |  |
|    |  | me sites carry the same value, because the Assessor believes there are very minimal nees between them.  |  |
| 5. | Describe the characteristic  | e process used to identify and monitor the influence of non-agriculturales.   |  |
|    | 1  | icator might be an inordinate price paid for typical agricultural land. Any changes in land re-platting could also act as indicators of other possible non-agricultural   |  |
| 7. | 1  | l valuation applications been filed in the county? If a value difference is escribe the process used to develop the uninfluenced value.   |  |

|    | No.  |
|----|--|
| 8. | If applicable, describe the process used to develop assessed values for parcels enrolled in the Wetland Reserve Program. |
|    | The Assessor has no knowledge of land in Cheyenne County enrolled in the Wetland Reserve Program.                        |

## 2014 Agricultural Correlation Section for Cheyenne County

#### **County Overview**

Cheyenne County has a total land area of 1196 square miles and agricultural land within the County is comprised of approximately 36% grass, 55% dry land and about 8% irrigated. The remaining less than one percent is classified as waste and other. The County currently has three clearly defined agricultural market areas based on topography, soil type and availability of water (area four was merged with area three; area five surrounds the city of Sidney, contains no qualified agricultural sales and is comprised of only 1366 acres).

Cheyenne County lies within the South Platte NRD (SPNRD), part of the Platte River Basin, and this NRD, like others within the Platte River Basin, "use regulation such as moratoriums on new well drilling in fully appropriated areas or require well metering and limit ground water pumping as part of their long-term ground water management plans for protecting the basin's stream flows." (Platte River Basin web site). Further, "allocations of ground water used for irrigation will change in some areas beginning in the 2013 growing season...Continuing low ground water levels in portions of the SPNRD, particularly the tablelands of Kimball and Cheyenne Counties, remained among the top concerns throughout the process." (material is taken from the South Platte NRD web site).

#### **Description of Analysis**

Analysis of the three-year sample of Cheyenne County sales indicated that it was time disproportionate in the three market areas. The sample was expanded with comparable sales from Cheyenne's neighboring counties to ensure time proportionality while maintaining representativeness by Majority Land Use.

A total of 112 sales were used in the agricultural analysis of the County, and the Assessor's actions included increasing irrigated land (overall) by 25%, dry land by 27% and the grass land class was raised by 25%. These current values reflect the general agricultural economic conditions in the region. All three measures of central tendency are with acceptable range and all three market areas are also within acceptable range. It may appear that dry land in area two is in the range of 69-81% (when both the 95% and 80% MLU's are reviewed), but the dry values established by the Assessor for Market Area 2 are determined to be acceptable and certainly not above the range based on the eight relatively pure dry sales (95% MLU) at 69%, and also by comparing Cheyenne's average abstract dry values per acre with its neighbors: Cheyenne Area 2 \$502; Deuel \$665; Garden \$684.

#### **Sales Qualification**

Cheyenne County has consistent procedures that are utilized for sales verification. A Department review of the non-qualified sales demonstrates a sufficient explanation in the County comments section to substantiate the reason for the exclusion from the qualified sales sample. All qualified agricultural sales are available for analysis and review. There is no evidence of excessive trimming in the file.

# 2014 Agricultural Correlation Section for Cheyenne County

#### **Equalization and Quality of Assessment**

With the review of Cheyenne County's assessment practices in 2011, it has been confirmed that these are reliable and applied consistently. All three agricultural market areas are equalized and have median measures of central tendency within acceptable range. Therefore, it is believed that agricultural land is treated in a uniform and proportionate manner.

#### **Level of Value**

Based on analysis of all available information, the level of value for agricultural land is 73% of market value.

### 2014 Plan of Assessment for Cheyenne County, Nebraska Assessment Years 2014, 2015, and 2016 Date: June 15, 2013

### Plan of Assessment Requirements

Pursuant to Neb.Laws 2005, LB263, Section 9, on or before June 15 each year, the assessor shall prepare a plan of assessment, (herein after referred to as the "plan"), which describes the assessment actions planned for the next assessment year and two years thereafter. The plan shall indicate the classes or subclasses of real property that the county assessor plans to examine during the years contained in the plan of assessment. The plan shall describe all the assessment actions necessary to achieve the levels of value and quality of assessment practices required by law, and the resources necessary to complete those actions. On or before July 31 each year, the assessor shall present the plan to the County Board of Equalization and the assessor may amend the plan, if necessary, after the budget is approved by the county board. A copy of the plan and any amendments thereto shall be mailed to the Property Assessment Division of the Nebraska Department of Revenue on or before October 31 each year.

### Real Property Assessment Requirements:

All property in the State of Nebraska is subject to property tax unless expressly exempt by Nebraska Constitution, Article VIII, or is permitted by the constitution and enabling legislation adopted by the legislature. The uniform standard for the assessed value of real property for tax purposes is actual value, which is defined by law as "the market value of real property in the ordinary course of trade." Neb. Rev. Stat.77-112 (Reissue 2003).

Assessment levels required for real property are as follows:

- 1) 100% of actual value for all classes of real property excluding agricultural and horticultural land
- 2) 75% of actual value for agricultural land and horticultural land; and
- 3) 75% of special value for agricultural and horticultural land, which meets the qualifications for special valuation under 77-1344, and 75% of its recapture value as defined in 77-1343 when the land is disqualified for special valuation under 77-1347.

Reference, Neb. Rev.Stat. 77-201 (R.S. Supp 2004).

#### General Description of Real Property in Cheyenne County:

Per the 2013 County Abstract, Cheyenne County consists of the following real property types:

|                   | Parcels            | % of Total Parcels | % of Taxa | able Value Base |
|-------------------|--------------------|--------------------|-----------|-----------------|
| Residential       | 4467               | 47.57              |           | 38.97           |
| Commercial        | 735                | 7.82               |           | 14.73           |
| Industrial        | 84                 | .894               |           | 1.45            |
| Agricultural      | 3370               | 35.89              |           | 41.66           |
| Mineral           | 733                | 7.81               |           | 3.17            |
| Agricultural land | -taxable acres 729 | ,769.40            |           |                 |
| Irrigation        | Dry land           | Grassland          | Waste     | Other           |
| 8.22%             | 54.79%             | 36.39%             | .0038%    | .002233%        |

New Property: For assessment year 2013, 1035 building and/or information statements were filed for new property construction/additions & roofs in the city and county, changes in CRP and new EQUIP programs and general information to update parcels.

#### **Current Resources**

- A. Staff- 4 Clerks
- B. **Budget**-\$196,550
- C. **Training**-Workshops and required continuing education for certification for assessor.
- D. Cadastral Maps accuracy/condition, other land use maps, aerial photos-Our cadastral map is continually updated per Neb statutes. It is dated 1968 and is worn out. Our aerial maps are updated on a continual basis and they are dated about 1989-1991.
- E. **Property Record cards**-On file in the assessor's office are property record cards for each parcel of real property including improvements on leased land and exempt properties. These are updated every time a valuation year has been done and before the valuation notices are sent out June 1. We have both a hard copy and electronic version of the property. Each card or electronic copy contains a worksheet of the property, picture, sketch of the improvement, school district codes, four or more years of valuation history including the nature of the change and an indication of assessment body or official ordering the change. The cost approach is most generally used in valuing the residential and commercial properties. We have also used the income and cost approach for some of our low-income housing. Sales comparisons are used for our agricultural land.
- F. **Software for CAMA, Assessment Administration, GIS**-The Cheyenne County Assessor's office has a contract with Terra Scan( Manatron) for support to July 1, 2013. The data used for cost calculations is supplied by Marshall & Swift. The Assessor's office has contracted with GIS Workshop in Lincoln, NE for our GIS system.
- G. Web-based-our parcels are now online at http://cheyenne.assessor.gisworkshop.com

.

#### Current Assessment Procedures for Real Property

- A. **Discover, list & inventory all property**-After all Real Estate transfers are transferred to the new owner all corresponding changes are made to the record card, computer, and cadastral map. The transfer is reviewed by the assessor to ascertain if it is a good sale. If the property is a commercial or agricultural parcel, we try to contact the buyer or seller, either by letter or telephone to verify the sale. All sale verifications are kept in a notebook in the office. If the sale is over or under 50% of the assessed value, we do a drive by or visit the property to confirm our information. Cheyenne County is zoned as well as Sidney, Potter and Lodgepole. Building permits for Sidney and the County are handled through the City of Sidney and are received in the assessor's office at month's end. Potter, Lodgepole, Dalton and Gurley provide the office with new building permits as they occur. We also go out physically to review areas of the county as well as the towns to pick up additional building projects that owners failed to apply for permits. Real estate listings also provide us with information if we have been unable to review the interior of a home.
- B. **Data Collection**-For 2013, we physically measured and reviewed all new residential, commercial and agricultural improvements.
- C. Review assessment sales ratio studies before assessment actions-Ratio studies are done on all classes of property. The assessor's office contacts either the buyer or seller by phone, in person or by a letter to qualify the agricultural and commercial sales. Agricultural sales were studied by processing all agricultural lands with improvements and without improvements. Each market area was defined and ratio studies were done. Each individual class of land was defined and ratio studies were done for them. The ideal was for each land class to come in between 69-75% of value so that all land classes were equalized. GIS is being utilized to update all agricultural parcels and to double check all soils, dry land, irrigation, grass and CRP. Ratio studies on all residential parcels were done to double check the median, aggregate mean and weighted mean, price related differential, the coefficient of dispersion and standard deviation. These studies included Sidney, rural residential as well as Potter, Dalton, Lodgepole, Gurley, Lorenzo, Sunol & Brownson. All sales were analyzed to make sure Cheyenne County was in compliance with respect to equalization procedures. All pickup work and new construction were added to the assessment rolls. Low-income housing was reviewed and an income approach to value was developed.

#### D. Approaches to value

1.) Market Value- For 2013, depreciation studies and statistics were reviewed to make sure our values were still within the 92% to 100% of market values for residential and commercial properties. All residential homes and improvements and agricultural homes and improvements are using the Marshall & Swift 2010 cost table. Commercial properties were analyzed, and were within the 92% & 100% of market value and were not changed unless pickup work or a new building was added. We studied our agricultural sales and values

- for agricultural properties in Cheyenne County came in at 74% of market value.
- 2.) Cost Approach-Residential properties, both urban and rural, are using the 2010 Marshall & Swift cost index. Commercial properties were put in a new 2008 cost index in 2009.
- 3.) Income Approach-The income approach was used for low income housing parcels and apartment rental properties. Information timely provided by management for the low income housing was used.
- 4.) Land Valuation-Statistical Studies were conducted for all agricultural properties in Cheyenne County as a whole as well as each individual market grouping and contiguous counties. Contacts were made to the buyers and sellers of the land as well as visiting the sale parcels. Each land class was tested so that every class (irrigation, grass, and dry land) came in within the 69-75% of value.
- E. **Reconciliation of final value and documentation**-Each parcel shows how we arrived at the value using the Marshall and Swift costs for the cost indices we used for 2013. New agricultural values are shown on the agricultural record as well as the soil type with the final value.
- F. **Review assessment sales ratio studies after assessment actions**-Ratios were run for all residential and commercial properties (vacant and improved) as well as all rural residential parcels to check to see if we were within market value. Ratios were run in each agricultural area as well as for each land class to check our new values.
- G. Notices and public relations-Valuation notices were sent out May 31, 2013. Along with the notice was a letter explaining why valuations changed along with a listing of the agricultural, residential and commercial sales. A legal notice certifying the completion of the real property assessment roll was published in the Sidney Sun-Telegraph. By June 6 of each year, the assessor mailed assessment/sales ratio statistics (as determined by TERC) to the media (KSID and Sidney Sun-Telegraph) and posted the level of value in the assessor's office.

#### Level of Value, Quality and Uniformity for assessment year 2013:

| Property Class | Median | COD   | PRD    |
|----------------|--------|-------|--------|
| Residential    | 97.00  | 8.22  | 101.37 |
| Commercial     | 97.00  | 15.46 | 101.45 |
| Agricultural   | 74.00  | 20.48 | 107.64 |

(COD means coefficient of dispersion and PRD means price related differential.) For more information regarding statistical measures see 2013 Reports and Opinions of the Property Tax Administrator and the Nebraska Tax Equalization and Review Commission Findings and Orders.

#### Assessment actions planned for Assessment Year 2014

**Residential-**We will do statistics on all residential and rural residential homes in Cheyenne County. All new residential homes, additions, etc will be physically measured and inspected and put on the tax rolls. All sales 50% above or 50% below the sale price will be physically inspected or looked at with a drive by to check our current record card

to make sure all information is correct. All permits will be inspected. Statistics for all residential property and subclasses will be studied. Review residential sale rosters for any changes or corrections. Mobile homes will be physically reviewed and again checked in January of 2014 to make sure they are still there for assessment purposes and to double check mobile home reports. We are reviewing homes in the rural areas for new construction, condition, etc. We should finish up this year. Rural Residential right now is sitting at 91% of market value. If the trend continues, we will need to revalue rural residential homes. In Sidney, homes built in 2000 to 2010 will be reviewed as well as the Parkland Addition. They are statistically coming in at 91%.

Commercial-Commercial properties will be physically reviewed. New construction and vacant land sales will be measured and evaluated. We will review low-income housing and do an income and cost approach. All permits and pickup work will be appraised. All sales 50% above and 50% below the sales price will be physically checked to verify our records. Commercial sale rosters will be reviewed for any changes or corrections. Statistics will be run to show the level of value. As of June, we are statistically in for commercial properties.

Agricultural-All five market areas will be looked at for changes in value for dry land, irrigation and grass as well as any use changes. All market areas will be reviewed to see if the market areas are still viable or if we need to make changes in them. We have 89 sales as of June 15. We will try to contact either the buyer or seller to determine whether the sale is an arms length sale or not and if there are any adjustments to the sale price because of personal property or any other indication pertinent to the sale. Physically inspect different areas of agricultural land for any land change uses and contact agricultural owners for any updates. Agricultural sale rosters will be reviewed for any changes or corrections. Develop criteria to be used in making the determination of primary use of a parcel of land including a field review of the property. The criteria will be used to determine if the parcel is eligible for assessment as agricultural or horticultural land. GIS will be used to double check soils and land use.

#### **Assessment Actions Planned For Assessment Year 2015**

**Residential**-Statistics will be run on each class and subclass of residential properties to check to see if we are in compliance. If the statistics show that we are overvalued or under valued, we will take steps to rectify the valuations. Review vacant land sales in the country and in the urban areas. Review all sales 50% above and 50% below sales price to verify property record card. All permits and pickup work to be reviewed and put on the assessment rolls. Residential sale rosters will be reviewed and corrected. Review homes in the Sidney market area.

**Commercial**-Commercial parcels will be evaluated and statistics will be run to make sure we are still within the 92% to 100 % of market value. All permits and pickup work will be assessed and put on the tax rolls. Commercial sale rosters will be reviewed and corrected.

Agricultural Land- Letters will be sent out to all agricultural owners about their expired CRP contracts. Statistics will be run for all market areas and as a whole. All land classes will be looked at statistically to see if they are in at market value and adjusted accordingly. Buyers or sellers will be contacted to verify sales. Land classes will need to be double checked for any use changes. Contiguous counties may also be used to determine agricultural land values.

#### **Assessment Actions Planned for Assessment Year 2016**

**Residential**-Statistics will be run to determine the median, COD and PRD. It may be necessary to move up or down a class, subclass, subdivision or town. Mobile homes and rural residential will be checked for any significant changes. Review the cost index and make changes if necessary. Residential sale rosters will be reviewed and corrected. Put on the assessment roll all new residential permits-new construction, additions, alterations, etc.

**Commercial-**Review all sales and statistics for compliance. All pickup work and permits will be appraised and put on the assessment roll. The buyer or seller will be contacted to verify sales. If applicable, use income approach with cost approach on properties. Commercial sale rosters will be reviewed and corrected.

**Agriculture**-Double-check all market areas. Run statistics on all markets areas and subclasses. Contact buyers or sellers to verify sales. Check dry land, irrigation and grass for any change of use. Check on expiring or new CRP contracts. Agricultural sale rosters will be reviewed and corrected. Contiguous counties may also be used to determine agricultural land values.

#### Other functions performed by the assessor's office, but not limited to:

- 1. The assessor's office maintains over 10,300 real property parcels. Each card is continually updated with new values and data sheets as well as an explanation on what we did that valuation year with that parcel. We continually update our cadastral, GIS and aerial maps with split outs and new ownership changes.
  - a. Annually prepare and file Assessor Administrative Reports required by law/regulation:
  - b. **Real Property Abstract-**This is a summary of all the agricultural, residential and commercial parcels in Cheyenne County broken down into classes and subclasses and their valuations. The real estate abstract is due on or before March 19 of each year. The abstract for real property shall include a report of the current assessed value for properties that sold and are listed in the state's sales file.

- c. **Assessor's survey**-Each year on or before June 15, each assessor must outline what they are planning to focus on for the following valuation year. This plan of action must be presented before the Board of Equalization before July 31 of each year. The Department of Revenue Property Assessment Division, receives a copy of this report on or before October 31 of each year. This survey is a report of information regarding each assessor's office.
- d. Sales information to PAD rosters & annual Assessed Value Update w/abstract-Sales information is reviewed and qualified as either a good sale or not. For commercial and agricultural sales, we try to verify prices and personal property. Electronic rosters of all sales are reviewed and checked on the Assessor Assistant and the final roster in January is used as our preliminary statistics for the new year. After all new values are put on the parcels, an abstract of all real property is filed on or before March 19
- e. Certification of value to political Subdivision-By August 20 of each year, current valuations of all personal property, central assessed and real property by class or subclass for all political entities must be certified. These certified values are used in determining tax levies.
- f. **School District Taxable Report**-The report of each school district's current valuations of all personal property, central assessed and real property by class or subclass as required by the Property Tax Administrator.
- g. **Homestead Exemption Tax Loss Report (in conjunction** w/treasurer)-File on or before November 30 of each year with the County Treasurer to the Department of Revenue, the total tax revenue that will be lost to the taxing agencies within the county from taxes levied and assessed in that year because of exemptions allowed under Chapter 77 article 35.
- h. Certificate of Taxes Levied Report-This report is the current year's valuations, tax rates, and taxes levied for each political subdivision levying a tax in a county. Taxes levied for bonds shall be identified separately from other taxes levied. The CTL report shall include each political subdivision's property tax loss due to homestead exemptions, taxes collected for public power districts, other in-lieu of taxes, valuation and taxes for community redevelopment projects, consolidated tax districts descriptions and rates, tax rate or levy sheets and any other information required by the Property Tax Administrator.
- i. **Annual plan of assessment report**-A report that addresses the level, quality and uniformity of assessment, and shall propose actions to be taken for the following years to assure uniform and proportionate assessments and is within the constitutional,

statutory, and administrative guidelines as set forth in Nebraska law.

- 2. **Personal Property**-Approximately 1600 personal property schedules are processed each year. We mail out of state schedules during the first week of January. Subsequently we send out the rest of the schedules during the middle of March if the people haven't filed yet. After May 1 we go through all of the schedules that aren't in and send out a failure to file notice and penalties applied as required. If a schedule is timely filed, but without a signature, an unsigned notice is sent out. In 2014, July 1 will be the deadline for a penalty of 25% for all personal property not timely filed.
- 3. **Permissive exemptions**-Approximately 100 permissive exemptions are administered each year. Each application is reviewed and a recommendation is made to the Board of Equalization.
- 4. **Taxable government owned property**-Each year before March 1 the county assessor shall send a notice to the state or to any governmental subdivision if it has property not being used for a public purpose upon which a payment in lieu of taxes is not made. The notice shall inform the state or governmental subdivision that the property will be subject to taxation for property tax purposes.
- 5. Homestead Exemptions-Approximately 400 homestead exemptions are processed each year. Applications received from the Department of Revenue are mailed to the prior year recipients on February 1 of each year. Every application is examined by the assessor, and except for the income requirements, it is determined whether or not such application should be approved or rejected. If it is approved, the county assessor marks the same approved and signs the application. If the application is not allowed by reason of not being in conformity to law, the assessor marks the application rejected and states thereon the reason for such rejection and signs the application. All application rejections are notified of such action by mailing a written notice to the applicant at the address shown in the application, which notice is mailed not later than July 31 of each year except in cases of a change in ownership or occupancy from January 1 through August 15 or a late application authorized by the county board, the notice is sent within a reasonable time.
- 6. **Centrally assessed**-All valuations certified by PAD for railroads and public service entities are reviewed, and assessment and tax billing records are established. If any new tax districts or sanitary tax districts have been established, new boundary maps are sent to the central assessed companies. PAD is also informed if there are new tax districts, sanitary improvement districts, etc. Any new towers, railroad tracks, etc., are also reported to PAD.
- 7. **Tax increment financing**-This report includes a copy of the redevelopment plan and any amendments, if not already filed, including the date of the approval of the plan and its boundaries and the total valuation of the real property in the redevelopment project subject to allocation before the project began. In subsequent years, the report

- indicates by tax year, the total consolidated tax on the property in the redevelopment project and the total amount of ad valorem taxes on property in the redevelopment project paid into a special fund for the payment of principal and interest. Sidney has seven (7) Tax Increment Financing projects. We also fill out reports sent to us from the City of Sidney for new valuations on TIF projects.
- 8. **Tax districts and tax rates**-The assessor is responsible for maintaining all real and personal property in the correct tax district. Any tax or school district change requires us to make sure all real and personal property is classified in such. For taxing purposes, we are responsible for making sure all tax rates are correct when we do the billing for taxes at the end of November. Also our grand values in each taxing entity are used to figure tax rates on.
- 9. **Tax lists-**On or before November 22 of each year, the county assessor prepares and certifies the tax list to the county treasurer for real property, personal property and centrally assessed properties.
- 10. **Tax list corrections-**The county assessor prepares tax list correction documents for county board approval. It includes the date, name, address, year corrected, school district, tax district, description of the property and the original tax, the corrected tax, added tax or deducted tax and the reason for the correction.
- 11. **County Board of Equalization-**The county assessor attends all county board of equalization meetings for valuation protests and assembles and provides information for the board so that they may make an informed decision about the protest.
- 12. **TERC appeals-**The assessor prepares information to defend their valuation and attends taxpayer appeal hearings before TERC.
- 13. **TERC statewide equalization-**The assessor attends hearings if it is applicable to the county, defending values, and/or implementing orders of the TERC. If a county has to raise or lower a class or subclass, an abstract has to be re-certified by June 5 of that year.
- 14. **Education-**The assessor and his/her deputy must have 60 hours of approved continuing education to be eligible to receive approval by the Property Tax Administrator for re-certification. These hours are obtained through workshops, educational classes, and assessor meetings.

#### Conclusion

The 2013-2014 budget request for the assessor's office is \$200,730. The appraisal budget out of the inheritance fund will include GIS (\$400 for ESRI software, \$6200 for support and \$2800 for online availability). It also will include the approximate budgets for Pritchard & Abbott for the oil appraisals (\$12,900).

Respectfully submitted,

| Assessor signature | Date: June 15, 2013 |
|--------------------|---------------------|
|                    |                     |

Residential properties will be put into a new cost index for 2014. Commercial properties are still in the process of review. Stanard Appraisal Services has been enlisted to help with the appraisal of commercial and residential properties in Cheyenne County.

# **2014** Assessment Survey for Cheyenne County

# A. Staffing and Funding Information

| 1.  | Deputy(ies) on staff:   |
|-----|---|
|     | One   |
| 2.  | Appraiser(s) on staff:  |
|     | None  |
| 3.  | Other full-time employees:  |
|     | Three   |
| 4.  | Other part-time employees:  |
|     | None  |
| 5.  | Number of shared employees:   |
|     | None  |
| 6.  | Assessor's requested budget for current fiscal year:                            |
|     | \$203,230   |
| 7.  | Adopted budget, or granted budget if different from above:                      |
|     | \$207,030   |
| 8.  | Amount of the total assessor's budget set aside for appraisal work:             |
|     | \$2,500   |
| 9.  | If appraisal/reappraisal budget is a separate levied fund, what is that amount: |
|     | \$50,000 and this comes from the inheritance fund.                              |
| 10. | Part of the assessor's budget that is dedicated to the computer system:         |
|     | \$2,800and basically, this is a computer system replacement fund.               |
| 11. | Amount of the assessor's budget set aside for education/workshops:              |
|     | \$4,500   |
| 12. | Other miscellaneous funds:  |
|     | \$11,400  |
| 13. | Amount of last year's assessor's budget not used:                               |
|     | \$44,260consisted of staff wages, since County was short one person.            |

# **B.** Computer, Automation Information and GIS

| 1. | Administrative software:   |
|----|--|
|    | Thomson Reuters/Terra Scan                                       |
| 2. | CAMA software:   |
|    | Terra Scan   |
| 3. | Are cadastral maps currently being used?                         |
|    | Yes  |
| 4. | If so, who maintains the Cadastral Maps?                         |
|    | The Assessor and her office staff.                               |
| 5. | Does the county have GIS software?                               |
|    | Yes.   |
| 6. | Is GIS available to the public? If so, what is the web address?  |
|    | Yes, the web address is http://cheyenne.assessor.gisworkshop.com |
| 7. | Who maintains the GIS software and maps?                         |
|    | GIS Workshop   |
| 8. | Personal Property software:                                      |
|    | Thomson Reuters  |

# **C. Zoning Information**

| 1. | Does the county have zoning?                 |
|----|--|
|    | Yes.   |
| 2. | If so, is the zoning countywide?             |
|    | Yes.   |
| 3. | What municipalities in the county are zoned? |
|    | Sidney, Lodgepole and Potter                 |
| 4. | When was zoning implemented?                 |
|    | 1980   |

## **D. Contracted Services**

| 1. | Appraisal Services:   |
|----|---|
|    | Stanard Appraisal; Pritchard & Abbott for oil, gas and minerals.                    |
| 2. | GIS Services:   |
|    | GIS Workshop  |
| 3. | Other services:   |
|    | Thomson Reuters/Terra Scan for CAMA, administrative and personal property software. |

# E. Appraisal /Listing Services

| 1. | Does the county employ outside help for appraisal or listing services?  |
|----|---|
|    | Yes, Stanard Appraisal for listing services. Pritchard & Abbott for oil, mineral and gas appraisal.   |
| 2. | If so, is the appraisal or listing service performed under contract?  |
|    | Yes, for both.  |
| 3. | What appraisal certifications or qualifications does the County require?  |
|    | All contracts for appraisal are reviewed by the Cheyenne County Attorney for legal compliance before being approved by the Cheyenne County Board.                           |
| 4. | Have the existing contracts been approved by the PTA?   |
|    | If the County Clerk has sent these to the PTA.  |
| 5. | Does the appraisal or listing service providers establish assessed values for the county?   |
|    | The Assessor is ultimately responsible for all real property values and the contracted appraisal services of Pritchard & Abbott establish values for oil, gas and minerals. |
