Opinions

2014 Opinions of the Property Tax Administrator for Pierce County

My opinions and recommendations are stated as a conclusion based on all of the factors known to me regarding the assessment practices and statistical analysis for this county. See, Neb. Rev. Stat. § 77-5027 (2011). While the median assessment sales ratio from the Qualified Statistical Reports for each class of real property is considered, my opinion of the level of value for a class of real property may be determined from other evidence contained within these Reports and Opinions of the Property Tax Administrator. My opinion of quality of assessment for a class of real property may be influenced by the assessment practices of the county assessor.

| Class | Level of Value | Quality of Assessment | Non-binding recommendation |
|------------------------------|----------------|----------------------------------------------------|----------------------------|
| Residential Real Property | 95 | Meets generally accepted mass appraisal practices. | No recommendation. |
| | | | |
| Commercial Real Property | 100 | Meets generally accepted mass appraisal practices. | No recommendation. |
| | | | |
| Agricultural Land | 71 | Meets generally accepted mass appraisal practices. | No recommendation. |
| | | | |

**A level of value displayed as NEI (not enough information) represents a class of property with insufficient information to determine a level of value.

Dated this 7th day of April, 2014.

County Overview

Pierce County is located north of Madison County and is considered an extension of the economic conditions related to the city of Norfolk. The city of Pierce (Valuation Group 1) is northwest of Norfolk approximately 15 miles. There are several other communities in Pierce County. Three of the communities have a population of less than 100 persons. The community of Osmond (Valuation Group 10) has a population of over 750 and the community of Plainview (Valuation Group 5) has a population of over 1200.

Description of Analysis

Residential parcels are valued utilizing nine valuation groupings that closely follow the assessor locations or towns in the county. The largest in the valuation grouping is Pierce, the county seat, followed by Plainview. The residential sales file for Pierce County consists of 163 qualified arm's length sales. The sample is considered adequate and reliable for the measurement of the residential class of property. Two of the measures of central tendency are within the acceptable range and demonstrate support for each other with only the weighted mean one point below the range. All of the valuation groups are considered adequate and represent the population of the group.

Sales Qualification

Pierce County has a consistent process in place for the verification of sales of the residential class of property. The Division has reviewed each county's sales verification and documentation. Approximately 67% of the improved residential sales were considered arm-length sales as determined by the county. The conclusion is that there was no bias in the sales verification and that the Pierce County Assessor utilized all arm's length transactions available.

Equalization and Quality of Assessment

All of the valuation groups with an adequate sample of sales fall within the acceptable range for the calculated median, it has been confirmed that the assessment practices are reliable and applied consistently. It is believed that the residential property is treated in a uniform and proportionate manner.

Level of Value

Based on the analysis of all available information the level of value is determined to be 95% of market value for the residential class of property.

2014 Commercial Assessment Actions for Pierce County

The pickup work was completed of the new and omitted construction for the commercial class.

County Overview

Pierce County is north of Norfolk Nebraska on highway 81 and then westerly on highway 13 approximately 15 miles. Norfolk, located in Madison County is a large economically based city with numerous active commercial properties. The villages of Plainview and Osmond are north of Pierce approximately 13 to 18 miles and located on Hwy. 20. Each of those towns has a small hospital, mini marts, and other commercial properties typical of the small towns. The commercial base for the remainder of the villages is limited. The commercial improved parcel count in Pierce County consists of 267 parcels as reported by the County Assessor.

Description of Analysis

Pierce County completed a commercial reappraisal in 2010. Since that time the county monitors the sales activity and considers all characteristics of the market when determining adjustments.

The statistical profile consists of 18 sales distributed amongst seven occupancy codes and will not be relied on to determine a level of value for Pierce County. The limited representation of the occupancy codes does not reflect the entire population of the commercial class of property.

Sales Qualifcation

The Division implemented a review of the sales verification and documentation of all counties in 2013. All non-qualified sales were reviewed to ensure that the reasons for disqualification were sufficient and documented. The measurement of the commercial class was completed utilizing all available information. The conclusion is that there is no bias in the sales verification and that Pierce County has utilized all arm's length transactions available.

The six year inspection and review cycle for the commercial class has been met with the completion of a reappraisal of the commercial class of property in 2010.

Equalization and Quality of Assessment

For measurement purposes the commercial sample is unreliable and does not represent the commercial class as a whole or by substratum.

Level of Value

Based on the consideration of all available information and assessment practices, the level of value is determined to be at the statutory level of 100% of market value for the commercial class of property.

2014 Agricultural Assessment Actions for Pierce County

A market analysis was completed using the qualified sales required for the study period and increases were made in response of the analysis.

Source: 2014 Abstract of Assessment, Form 45, Schedule IX

County Overview

Pierce County is located in the northeastern portion of the state and is currently defined as one market area. A large portion of the county is identified with excessively drained sandy soils. The land use is represented by 44% irrigated acres, 34% dry acres and 19% grass acres. The adjoining counties around Pierce County represent similar soil characteristics and the sandy soils tend to extend through the adjacent counties. Pierce County is bordered on the north by Knox County, on the east by Cedar and Wayne Counties on the south by Madison County and on the west by Antelope County.

Description of Analysis

An analysis was completed of the three year sample. The sample was expanded with comparable sales from Pierce's neighboring counties to ensure time proportionality while maintaining representativeness by Majority Land use.

The total of 91 sales were used in the agricultural analysis of the County, the Assessor's actions included increasing the irrigated land 41%, dry land 47% and grass 14%. The current values are comparable with the adjoining county values. Two of the measures of central tendency are within the acceptable range. The statistical profile also breaks down subclasses of 95% and 80% majority land use. The majority land use of 80% irrigated with 30 sales is slightly below the acceptable range. When reviewing the per acre value in the irrigated class for Pierce County the values are comparable if not slightly higher than the values in neighboring counties. Therefore, it is believed that the county has achieved an acceptable level for the irrigated land.

Sales Qualification

A sales qualification review was completed by the Department for all counties in 2013. This involved reviewing the non-qualified sales roster to ensure that reasons for disqualifying sales were adequate and documented. The review revealed that no apparent bias existed in the qualification determinations, and that all arm's length sales were made available for the measurement of real property in the county.

Equalization and Quality of Assessment

The values established by the assessor have created intra-county and inter-county equalization. The calculated statistics also indicate that the values are acceptable.

Level of Value

2014 Agricultural Correlation Section for Pierce County

Based on the analysis of all available information, the level of value is determined to be 71% of market value for the agricultural class of property, and all subclasses with sufficient representation are determined to be valued within the acceptable range.

CONTRACT APPRAISER

The contract appraiser's responsibilities are to inspect the properties assigned, verify the property record to determine if it is accurate (size, quality, condition, type of siding and roof, basement finish, etc.), take new pictures and place in the property record card, and review the sales of like properties and make recommendations of the values assigned to properties.

For 2010 the assessor and deputy attended County Assessor's Spring Workshop at Grand Island in April; the assessor, deputy and three office clerks took New Sales File Training online in July; the assessor attended the County Assessor's Fall Workshop at North Platte in September; the assessor and three office clerks attended Advanced GIS Seminar at Norfolk and Lincoln in October; and the assessor, deputy and three office clerks took PAD Governmental – Permissive Exemptions online in October. For 2011 the assessor attended County Board of Equalization Workshop at Kearney in May, and the County Assessor's Fall Workshop at Lincoln in August. The deputy attended Mathematics for Assessors at Kearney in October. For 2012 two full –time office clerks and one part-time office clerk attended Real Property Data Collection at Norfolk in May, the assessor and deputy attended County Assessor's Workshop at Kearney in August, and the assessor and deputy attended Excel 1 Training at Norfolk in November.

2013 R&O STATISTICS

| PROPERTY CLASS | MEDIAN | COD | <u>PRD</u> |
|-------------------------|--------|-------|------------|
| Residential | 94.00 | 21.29 | 109.98 |
| Commercial | 93.00 | 29.21 | 117.95 |
| Agricultural Unimproved | 73.00 | 37.54 | 125.30 |

3 YEAR APPRAISAL PLAN

<u>2014</u>

Residential

Complete the review and reappraise all agricultural homes and outbuildings (1,100 + parcels). They were last reviewed 2006-2008, and revalued for 2009. Market analysis and pick up work will be scheduled for this year as well.

Commercial

Only pick up work and sales reviews are planned for this property class for 2014.

Agricultural

The only tasks required should be market analysis of land and pick up work.

<u>2015</u>

Residential

The county plans to reappraise the town of Osmond (330+ parcels) for implementation in 2015. They were last appraised in 2008. Market analysis and pick up work will be scheduled for this year as well.

Commercial

Only pick up work and sales reviews are planned for this property class for 2015.

Agricultural

The only tasks required should be a market analysis of land and pick up work.

2016 Residential

The county plans to reappraise the towns of Plainview, Foster, McLean, Breslau and West Randolph (690 parcels) for implementation in 2016. They were last appraised in 2009. Market analysis and pick up work will be scheduled for this year as well.

Commercial

Only pick up work and sales reviews are planned for this property class for 2016.

Agricultural

The only tasks required should be a market analysis of land and pick up work.

The following is a time line table to give and overview of accomplishments and the next three-year plan schedule.

| CLASS | 2006 | 2007 | 2008 | 2009 | 2010 |

E. Appraisal /Listing Services

| 1. | Does the county employ outside help for appraisal or listing services? |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Yes |
| 2. | If so, is the appraisal or listing service performed under contract? |
| | Yes |
| 3. | What appraisal certifications or qualifications does the County require? |
| | That the appraiser is currently certified and has experience in the valuation grouping that we are reappraising. |
| 4. | Have the existing contracts been approved by the PTA? |
| | Yes |
| 5. | Does the appraisal or listing service providers establish assessed values for the county? |
| | The appraisal service develops a model using the current sales data for each valuation grouping for our office staff to use to establish assessed values. |
