# 2015 Opinions of the Property Tax Administrator for Dundy County

My opinions and recommendations are stated as a conclusion based on all of the factors known to me regarding the assessment practices and statistical analysis for this county. See, Neb. Rev. Stat. § 77-5027 (2011). While the median assessment sales ratio from the Qualified Statistical Reports for each class of real property is considered, my opinion of the level of value for a class of real property may be determined from other evidence contained within these Reports and Opinions of the Property Tax Administrator. My opinion of quality of assessment for a class of real property may be influenced by the assessment practices of the county assessor.

Class	Level of Value	Quality of Assessment	Non-binding recommendation
Residential Real Property	96	Meets generally accepted mass appraisal practices.	No recommendation.
Commercial Real Property 100		Meets generally accepted mass appraisal practices.	No recommendation.
Agricultural Land	69	Meets generally accepted mass appraisal practices.	No recommendation.

<sup>\*\*</sup>A level of value displayed as NEI (not enough information) represents a class of property with insufficient information to determine a level of value.

Dated this 7th day of April, 2015.

PROPERTY TAX ADMINISTRATOR ADMINISTRATOR

Ruth A. Sorensen

Ruch a. Sorensen

Property Tax Administrator

## **2015** Residential Assessment Actions for Dundy County

Assessment actions for improved Residential property in 2015 included:

- June 30, 2013 Marshall Swift costs imported.
- Depreciation study, using available sales from 10/01/2010 through 09/30/2014. The results of the study did not improve the level or the quality of assessment of Residential improved properties and was not implemented for 2015. Additional sales and information will be used during 2015 to develop and implement new and improved depreciation tables in 2016.
- Site reviews were conducted for all reported and discovered additions, alterations, and demolitions. Some reviews were requested by property owners and a few became necessary through sales with unidentifiable reasons for extremely low or high purchase prices.

County 29 - Page 9

# 2015 Residential Correlation Section for Dundy County

#### **County Overview**

The population in Dundy County is approximately 2000 residents, 953 of them reside in Benkelman, the county seat. Haigler the only other incorporated village has 158 residents. Agriculture is the driving force of the economy in this county. Benkelman would be considered the hub for primary services, school, bank, and retail business, and grain handling facilities to support the agricultural community.

#### **Description of Analysis**

The assessment actions follow the six year review cycle and the projected three plan of assessment. June 30, 2013 Marshall Swift cost indexes were imported and a depreciation study was conducted. The results of that analysis did not improve the level or the quality of assessment of the residential improved properties and therefore was not implemented for 2015.

Site reviews were conducted for all reported and discovered additions, alterations, and demolitions. Some reviews were requested by property owners and some were the result of questionable verification information.

Three Valuation Groupings have been identified; Valuation Grouping 01 (Benkelman), Valuation Grouping 02 (Haigler) and Valuation Grouping 03 (Rural). However, the entire county relies heavily on the agricultural economics of the area. The towns are small and the residential market is not strong. The overall median demonstrates an acceptable level of value and those subclasses with sufficient sales will show an acceptable level of value.

#### **Sales Qualification**

Dundy County has a consistent procedure that is utilized for residential sales verification. A Department review of the non-qualified sales demonstrated that a sufficient explanation had been noted in the sales files to substantiate the reason for the exclusion from the qualified sales. There is no evidence of excessive trimming in the file.

#### **Equalization and Quality of Assessment**

The Department utilizes a yearly analysis of one-half of the counties within the state to systematically review assessment practices. Dundy County was reviewed in 2014. With the information available it was confirmed that the assessment practices are reliable and applied consistently. It is believed the residential properties are being treated in a uniform and proportionate manner.

The overall level of value will be used as the point estimate in determining the level of value for the residential class of real property.

# 2015 Residential Correlation Section for Dundy County

### **Level of Value**

Based on all available information, the level of value for the residential property in Dundy County is 96%.

## **2015** Commercial Assessment Actions for Dundy County

Assessment actions for improved Commercial property in 2015 included:

- June 30, 2013 Marshall Swift Valuation Service cost imports.
- Depreciation study, using available sales from 2004 through 09/30/2014.
- With limited commercial sales during even a 10-year period, depreciation analysis is difficult to develop with inconclusive results.
- Site reviews were conducted for all reported and discovered additions, alterations, and demolitions.
- Vacant commercial land study revealed only 2 sales from 2004 to 09/30/2014. One sale in 2007 and one in 2011.
- Operating Minerals were revalued. New leaseholds were added and temporarily shutdown wells and permanently plugged and abandoned wells were noted.

# 2015 Commercial Correlation Section for Dundy County

#### **County Overview**

Dundy County is located in the southwest corner of Nebraska; Benkelman is the county seat and the primary provider of goods and services, school and grain handling facilities. Many of the jobs and services support the strong agricultural economy of the area.

#### **Description of Analysis**

The statistical sampling of 5 commercial sales is not considered an adequate and reliable sample for the measurement of the commercial class of real property in Dundy County. The commercial population is spread over 46 different occupancy codes. The primary codes are for office buildings, retail stores, utility buildings and service repair garages. There are not enough sales in the sales file to represent the population as a whole or by substratum.

The assessor stays on target with the three year plan of assessment and the six year physical inspection and review cycle; June 30, 2013 Marshall Swift cost indexes were imported and a depreciation study and lot study were done. With a limited number of sales, even over an extended ten year period, depreciation analysis is difficult to develop with inconclusive results.

Site reviews were conducted for all reported and discovered additions, alterations, and demolitions.

#### **Sales Qualification**

A review of the non-qualified sales by the Department demonstrated that a sufficient explanation had been noted to substantiate the reason for the exclusion from the qualified sales. The assessor has a very thorough documentation process. Measurement was done utilizing all available information and there is no evidence of excessive trimming in the file.

#### **Equalization and Quality of Assessment**

The Department utilizes a yearly analysis of one-half of the counties within the state to systematically review assessment practices. Dundy County was reviewed in 2014. With the information available it was confirmed that the assessment practices are reliable and applied consistently. It is believed the commercial properties are being treated in a uniform and proportionate manner.

For measurement purposes the commercial sample is unreliable and does not represent the commercial class as a whole.

# 2015 Commercial Correlation Section for Dundy County

### **Level of Value**

Based on the consideration of all available information and assessment practices, the level of value is determined to be at the statutory level of 100% of market value for the commercial class of property.

## 2015 Agricultural Assessment Actions for Dundy County

Assessment actions for improved and unimproved Agricultural property in 2015 included:

- June 30, 2013 Marshall Swift costs for residential and outbuilding structures imported.
- Site reviews were conducted for all reported and discovered additions, alterations, and demolitions. Most county roads were driven for the purpose of discovering new structures.
- Known expired CRP fields were reviewed, on site, for use changes. Most fields remain in grass and were reclassified to grass. A few fields were changed from CRP grass to dry crop and reclassified to indicate the change.
- Water transfers (irrigated acre allocations) were processed for 41 parcels.
- Ag land market study was conducted, resulting in the revaluation of all agricultural land classifications.

	Surveys, deeds, viewing, talking to buyers/sellers									
5.	Do farm home sites carry the same value as rural residential home sites? If not, what are the market differences?									
	No. There are no sales for farm home sites, the use is different. Farm home sites are complementary and often necessary to the farm operation, usually with livestock buildings or other ag-related structures. Prevailing odors adjacent to or upon the home site land, equipment traffic, and fuel and chemical storage all on one acre or compact acres would have a negative impact on the market value of the home site land. Residential home sites stand alone as residential property with a distinct market starting with the land only in newer sites. Farm home sites are included in the property "bundle" in the sales of ag property. If the ag home site is split off in ownership from the remainder of the farm, it will most likely become a residential home site, revalued accordingly.									
6.	If applicable, describe the process used to develop assessed values for parc the Wetland Reserve Program.	els enrolled in								
	Identified as Site - valued at 1/2 of recreational land - no market available									
7.	Have special valuation applications been filed in the county? If so, answer the following	g:								
	No

# 2015 Agricultural Correlation Section for Dundy County

#### **County Overview**

Dundy County is situated in the southwest corner of the State. It is bordered by Chase County on the north, Hayes County to the northeast, and Hitchcock County to the east. The topography of the county indicates that the Loam and sand soils allow for pasture and crop production. Dundy County is part of the Upper Republican Natural Resource District that administers well moratoriums and restrictions and monitors the wells. Approximately a fourth of the county comprises irrigated acres.

#### **Description of Analysis**

For 2015, countywide increases amounted to 20% for grass, 27% for dryland and irrigated up 16%. The ability of Dundy County to locate comparable sales is limited and somewhat hindered by its geographical location of being in the far southwest corner of the state and bordered by Colorado on the west and Kansas to the south. In reviewing sales in Chase County there is also concern that Chase is being affected by a somewhat higher market than Dundy County. The assessor has analyzed what information is available and has tried to equalize values within the county as well as across county lines.

Many factors were considered in determining the level of value for the agricultural class of real property within Dundy County. The sales data, as provided by the assessor, in the State's sales file was examined and tested. The resulting statistics were indicators of assessment actions and uniform and proportionated treatment within the class and most subclasses. While certain subclasses may appear to be outside the acceptable range the analysis of the general economics of the area indicates that the use of those calculations would not represent what is really happening with land values. To strengthen the confidence in the data further observations were made of the actions of adjoining counties and the economics across the region.

#### **Sales Qualification**

A review of the non-qualified sales by the Department demonstrated a sufficient explanation in the assessor notes to substantiate the reason for the exclusion from the qualified sales. Measurement was done utilizing all available information is utilized and there is no evidence of excessive trimming in the file.

#### **Equalization and Quality of Assessment**

The calculated statistics indicate that an overall acceptable level of value has been attained. Based on assessment practices in Dundy County and after consideration of surrounding counties' values and researching general market data it is determined that uniform and proportionate

# 2015 Agricultural Correlation Section for Dundy County

treatment exists within and across county lines. The overall median will be used as the point estimate in determining the level of value.

#### **Level of Value**

Based on all available information the level of value of the agricultural land in Dundy County is determined to be 69% of market value.

# Dundy County Plan of Assessment

Prepared by

Joanna Niblack

COUNTY ASSESSOR

June 13, 2014

Presented to

DUNDY COUNTY BOARD of EQUALIZATION

July 21, 2014

# INTRODUCTION

In compliance with Nebraska State Statute 77-1311.02, this plan of assessment is prepared by the county assessor and submitted to the Dundy County Board of Equalization and to the Nebraska Department of Revenue.

The purpose of the plan is to:

- (I) Discuss the duties and responsibilities of the assessor's office;
- (II) Address issues of level, quality and uniformity of assessment;
- (III) Indicate by class or subclass the assessment actions the assessor has planned for the remainder of tax year 2014 and tax years 2015 and 2016, the properties the assessor plans to examine during the 3-year period and the assessment actions necessary to attain required levels of value and quality of assessment; and
- (IV) Anticipate the resources necessary to complete the described assessment actions.

# Section I

# Duties and Responsibilities of the County Assessor

The assessment of real property in Nebraska includes:

DISCOVERY of the NEW

Locate Property - Describe Location & Tax Situs

Identify New & Changed Property through Observation - Owner Information 
Surveys, Permits & Other Public Documents - Grapevine

REVIEW of the OLD

In 6-year cycles, all property must be reviewed again and again...

"I could swear I was just here!"

# **LISTING**

Measurements - Components - Property Details - Sketches - Photos Effective Age - Condition - Economic Influences - Neighborhood Physical & Functional Obsolescence REQUIRES ON-SITE INSPECTION BY QUALIFIED PERSONNEL

"How many miles 'til the next rest stop, Boss?"

# **CLASSIFICATION**

Assigning Property Class by Use to Each Parcel For Appraisal and Statistical Purposes

"...one thousand thirty-two, one thousand thirty-three feet of Accretion."

# **2014 STATISTICS**

# AGRICULTURAL - Land & Structures

SUBCLASS	ACRES	VALUE
IRRIGATED LAND	121,741.05	\$313,586,274
DRY CROPLAND	107,066.41	108,379,438
GRASSLAND	347,412.96	121,678,738
HOME SITE LAND	410.13	1,024,075
FARM SITE LAND	1,628.23	1,019,454
OTHER -Feedlots, Pits, etc.	521.18	252,860
ROADS & DITCHES	4,715.18	
IMPROVEMENTS		28,584,101
Total Agricultural Parcels	2,405	\$574,524,940

# **RESIDENTIAL - Land & Structures**

City, Village, Town Rural Home Sites | 926 Parcels | \$32,504,100

# COMMERCIAL - Land & Structures

City, Village, Town, Rural | 209 Parcels | \$8,282,357

# RECREATIONAL - Land & Structures

For Leisure, Not Income, Purposes 6 Parcels \$266,412

# **MINERALS**

Producing Oil & Gas	190 Parcels	\$54,375,430
Non-Producing Interests	188 Parcels	\$208,058

# **VALUATION**

Determine Value – Based upon Market Indicators -Sales Studies for each Property ClassIncome & Expense Documentation
Replacement Cost New Minus Depreciation for Structures

# STATISTICAL ANALYSIS

Mathematical Measurements of Value and Sale Price
To Determine
Level of Value and Uniformity of Assessment by Property Class

# **CERTIFICATION OF VALUATION**

Certify Taxable Values, Growth Values and TIF Values to Governing Subdivisions
For Levy-Setting Purposes

# PROPERTY TAX CALCULATION

Compile Tax Rates into Combined Districts
Prepare Tax List
Calculate Property Taxes for Each Individual Parcel
Calculate Homestead Exemptions
Calculate Tax Credits

(Assessed Value x Tax Rate = Gross Taxes) (Gross Taxes - Exemptions - Tax Credit = Net Taxes)

> On or Before November 22 Each Year Certify Tax List to County Treasurer With a Warrant Commanding Collection

# The assessment of personal property in Nebraska includes:

# LISTING FROM OWNER-PROVIDED INFORMATION Income-Producing Machinery – Equipment - Furniture

Agricultural

Commercial

# **VALUATION**

X 89.29% = Taxable Value

Original Cost x Recovery Factor (Years in Service) = Net Book Value

Determine Tax Situs

# PROPERTY TAX CALCULATION

# PREPARE TAX LIST CALCULATE PROPERTY TAXES (Net Book Value x Tax Rate = Taxes) FOR EACH OWNER RETURN WITHIN TAXING DISTRICT On or Before November 22 Each Year Certify Tax List to County Treasurer With a Warrant Commanding Collection

The assessment of centrally-assessed property in Nebraska includes:

# APPORTIONMENT OF VALUE TO TAXING SUBDIVISIONS

(VALUE DETERMINED/CERTIFIED BY NEBRASKA DEPARTMENT OF REVENUE)

Real and Personal Railroad Property

Real and Personal Public Service Company Property (Pipelines - Telephone Companies - Fiber Optics - etc.)

# PROPERTY TAX CALCULATION

# PREPARE TAX LIST CALCULATE PROPERTY TAXES

(Fund Value x Fund Tax Rate = Property Taxes)
FOR EACH FUND WITHIN EACH COMPANY

(Each "Fund" is a Taxing Subdivision a/k/a Governmental Entity) (Taxing Subdivisions are County, Schools, Fire Districts, etc.)

On or Before November 22 Each Year Certify Tax List to County Treasurer With a Warrant Commanding Collection

Other assessment, administrative, clerical, peripheral, and incidental duties and responsibilities of the assessor's office include:

- MAINTAIN HARD COPY AND COMPUTER PROPERTY RECORDS
- PROCESS OWNERSHIP CHANGES (MONTHLY)
- UPDATE ELECTRONIC SALES FILE (MONTHLY)
- PROOF & CORRECT SALES ROSTERS (4X± ANNUALLY)
- VERIFY SALES WHENEVER POSSIBLE
- UPDATE OWNER OF RECORD MAILING ADDRESS
- MAINTAIN CADASTRAL MAP BOOKS AND INDEXES
- MONITOR, UPDATE TAXING DISTRICT INFORMATION
- FILE HARD COPY RECORDS
- PROOFREAD (ANNUALLY) REAL PROPERTY & PERSONAL PROPERTY
- PREPARE, MAIL VALUATION CHANGE NOTICES
- ATTEND ALL County Board of Equalization HEARINGS
- ATTEND TERC PROCEEDINGS FOR THE COUNTY
- UPDATE PERSONAL PROPERTY SCHEDULES
- MAIL PERSONAL PROPERTY REPORTING FORMS & INSTRUCTIONS
- RECEIVE PERSONAL PROPERTY FILINGS
- ASSIST WITH COMPLETION OF PERSONAL PROPERTY SCHEDULES
- PREPARE, MAIL HOMESTEAD EXEMPTION FORMS & INSTRUCTIONS
- ASSIST OWNERS WITH COMPLETION OF HOMESTEAD EXEMPTION FORMS
- APPROVE/DISAPPROVE HOMESTEAD EXEMPTION APPLICATIONS
- VALUE HOMESTEADS, MAIL FORMS TO DEPARTMENT OF REVENUE
- PERFORM SALES ANALYSIS/RATIO STUDIES EACH PROPERTY CLASS
- MAIL/PROCESS INTENT TO TAX PUBLIC-OWNED PROEPRTY NOTICES
- PREPARE/MAIL/PROCESS PERMISSIVE EXEMPTION FORMS
- PREPARE/MAIL/POST MANDATORY REPORTS
  - o Real Property Abstract of Assessment
  - o Certification of Completion of Assessment Roll
  - Assessment/Sales Ratio Statistics
  - Personal Property Abstract of Assessment
  - o Plan of Assessment
  - Certify Subdivision Values

- School District Taxable Value Report
- o Average Assessed Value-Residential
- o Homestead Exemption Summary Report
- o Certificate of Taxes Levied
- o Real Property & Personal Property Tax Lists

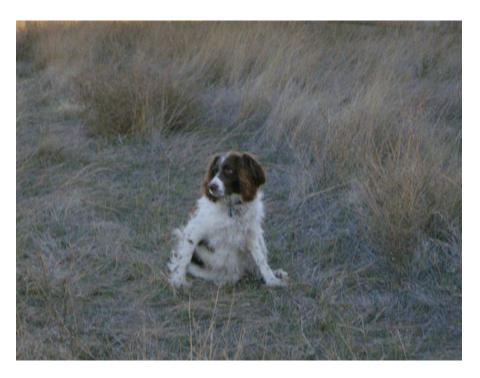

# PERFORM ADMINISTRATIVE FUNCTIONS

- Budget Preparation
- Office Inventory
- o Procedures Manual
- Staff Training
- o Staff Supervision
- o Communications with Vendors and Suppliers
- o Correspondence (Mail, Electronic, Verbal)
- o Continuing Education
- o Public Relations
- CONSTANT INFORMATION TO PUBLIC, APPRAISERS, INSURANCE REPS, REALTORS, ANONYMOUS PERSONS, AND GOVERNMENTAL AGENCIES BY PHONE, BY E-MAIL, BY U.S. MAIL, AND IN PERSON

# AT THE END OF THE DAY

SIT BACK, TAKE A LOOK AROUND, THINK ABOUT STARTING ALL OVER AGAIN

"It's been a long day and I am dog tired!"

# Section II

# Statistical Measures: Level and Quality of Assessment

The level and quality of assessment can be statistically measured for any class or subclass of property within any given jurisdiction or geographic boundary. An adequate number of sales which have occurred within a logical time frame are required for reliable statistical measure.

# LEVEL OF ASSESSMENT

In a sales study, like-property sales, such as Residential Sales within the city of Benkelman which occurred between October 1, 2010 and September 30, 2012, will each have a Transaction Ratio. That ratio is calculated by dividing the assessed value by the (adjusted) selling price.

Transaction ratios are calculated for each sale. The sales are arrayed in either ascending or descending order by transaction ratio and the level of assessment for that property class is measured by the Median Ratio.

The Median Ratio is calculated by simply locating the transaction ratio which occurs in the arrayed sales midway between the highest and the lowest transaction ratio.

# QUALITY OF ASSESSMENT

Measurement of the QUALITY of ASSESSMENT is accomplished through a bevy of complicated calculations. In addition to the Transaction Ratios and the Median Ratios, calculations must be made to determine Aggregate Ratio, Mean (Average) Ratio and Average Deviation from the Mean, to name some.

The Coefficient of Dispersion (COD) and the Price Related Differential (PRD) are the most common quality of assessment statistical measurements expressed in Nebraska property assessment studies and reports.

The COD measures the reliability of the mean. It is computed by dividing the average deviation from the mean by the mean, multiplied by 100 to yield the desired percentage figure. A COD, at or less than the acceptable percentage, indicates that the mean is representative of the total array. A higher COD requires identification of and a plan to remedy the cause of the non-representative mean.

The PRD measures the uniformity of values when studying a property class or subclass. The PRD is calculated by dividing the mean ratio by the aggregate ratio, multiplied by 100 to convert the figure to a percentage.

The Mean Ratio is the average of the Transaction Ratios and the Aggregate Ratio is the sum of all assessed values divided by the sum of all selling prices.

A PRD of more than 100(%) indicates that higher priced properties may be assessed at lower ratios than low priced properties. A PRD of less than 100(%) could mean that lower priced properties are assessed at lower ratios than higher priced properties.

If an adequate number of sales exist, the PRD can be used as an indicator of which price range of property classes or subclasses require examination and valuation updates.

# AN INADEQUATE NUMBER OF SALES CAN RENDER ALL RATIOS UNRELIABLE

The following three charts demonstrate the history of the Level of Assessment and the Quality of Assessment Ratios for Dundy County in all three major property classes. The ratios are presented as county totals. Assessor Location statistics are not represented in these charts.

# Section IV

### Current Resources

# **STAFFING**

Currently, the office is staffed by the assessor and one part-to-full-time office clerk. Adequate staffing would include the addition of a capable, part-time office clerk.

# ASSESSMENT EDUCATION

### **ASSESSOR**

The assessor began "in-training" for the position of county assessor on July 1, 1977, successfully completed the Nebraska County Assessor's Certification Examination in September, 1977, and was appointed to the position of County Assessor on October 17, 1977.

The assessor has completed required continuing education hours for the four-year period ending December 31, 2014 and is within 4.25 hours of meeting required continuing education necessary to renew her assessor's certificate for the next four-year period. (07/18/2014)

The assessor holds certificates in numerous IAAO mass appraisal and mapping courses and Department of Revenue courses in appraisal, assessment administration, agricultural land valuation, residential listing, Marshall & Swift residential, commercial and outbuilding cost programs, and computer assisted mass appraisal.

### ASSESSMENT CLERK

Julie L. Jessee was employed in the assessor's office, in the position of office clerk, from August, 1992 through May, 1993. She returned to that position on a part-time basis in January, 1995 and currently serves from three days to five days per week.

Julie has attended the 8-hour course, "Valuation of Agricultural Land" and the 2012 "Residential Data Collection" 2-day course. She has attended two TerraScan training seminars and is willing to attend other assessment or computer courses. Julie occasionally represents the assessor at district meetings. She has endured intense on-job training, demonstrates interest in assessment matters, participates in most assessment functions, and performs her duties with absolutely no complaining!

# CADASTRAL MAPS

As a resource, the cadastral maps for Dundy County are becoming more and more limited with time.

The three Cadastral Map Books and the Tax Lot Book were completed, printed on both paper and mylar sheets, and loose-bound in hard binders in approximately 1970.

The 1966 flight of ASCS aerial photos were used for the rural areas and existing plat maps were used for cities, villages and towns.

The map pages are heavily marked for ownership boundaries, parcel numbers and surveys and have become ragged, torn and very fragile. They should be replaced with modern photos and plats or upgraded to an electronic GIS system.

The Cadastral Map Book Index was recreated in computer records and stored on diskettes in 2002. They are updated and reprinted with each monthly parcel split and ownership change process. The printed index displays Cadastral Number, Legal Description, Owner Name and Deed Book and Page, in order of cadastral number. The index is efficient and comprehensive. Aerial photos from 2003 have been marked for section and ownership boundaries, one section per page, and bound in 3-ring binders. Those photos are updated with each ownership or boundary change, rather than mark even more on the old, fragile cadastral book pages.

### **RURAL PARCELS**

2003 aerial photos have been marked by section line boundaries and by ownership boundaries and scanned into computer property records. As a part of the individual record, these photos have proven to be time-saving and efficiency-boosting in assessment practices.

# CITY, VILLAGE, TOWN PARCELS

Cadastral photo images of platted blocks, indicating placement and measurement of lots, have been scanned into computer property records. While more effort to identify actual ownership boundaries upon these images must be addressed, this additional tool has been very useful for information and identification purposes.

### NON-PLATTED PARCELS

Survey and Tax Lot images, where available, have been scanned into appropriate computer property records to demonstrate parcel and ownership boundaries. These images are now indispensable when attempting to identify parcels with tax lot or unusual descriptions.

Electronic Cadastral Mapping is an available, costly technology and has been implemented in most Nebraska counties. The technology would enhance assessment performance. It is generally coveted by real estate businesses as a free-to-them tool provided by the county. At this time, the cost to taxpayers is not justifiable

# PROPERTY RECORD CARDS

Property record cards in the Dundy County Assessor's Office are maintained both on hard copy and in electronic files.

# Hardcopy Files

Current hardcopy files for each parcel are enclosed in see-through plastic sleeves with hanging spines. Each parcel file consists of:

- Face Sheets 1999 through 2014 displaying:
  - Deed book and pages
  - Owner names (as they appear on the deed)
  - Legal description
  - Parcel I.D. number
  - Map number
  - Taxing District
  - School District
  - Classification Codes
  - Neighborhood
  - Property Type
  - Cadastral Map number
  - Lot Dimensions
  - Land Area/Acres
  - Four Years' Value Land, Improvements, Outbuildings, Total
  - Reason for Value Change
- Photograph of primary structure most recent
- Current sketch with dimensions and labels
- Active correspondence (if any)

### Flectronic Media Files

Current property record face sheets are recorded on CD's, by legal description. The CD's are updated with ownership transfers, parcel splits and valuation changes as they occur.

The CD files are stored as permanent records at the end of each four-year period with each year displayed on the face sheets. These CD

files are now available for inspection and printing (if anyone would ever want to do that) from 2003 through 2014.

# Personal Property Files

Personal Property Returns and Schedules are also recorded and stored on CD's, by owner name, within assessment year. Assessment year CD's contain scanned images of each Return and Schedule and can be printed, complete with signature, upon request.

These electronic records are sometimes useful to the county sheriff and also help to prove that property was indeed reported by the owner, not invented by the assessor, when such challenges occur.

The personal property CD's are available from assessment year 2000 through 2013. 2014 schedules will all be scanned by late 2014.

### Terra Scan CAMA Files

Dundy County subscribes to Manatron, a Thomson-Reuters company, formerly and still referred to as Terra Scan, a Property Assessment Administration and Computer-Assisted Mass Appraisal (CAMA) system. The system stores and processes property record information as the data is entered by assessment staff. This electronic assessment file system has stored property record and property tax information for real estate parcels in Dundy County since 1999.

The system also processes and stores personal property records and centrally-assessed (railroad and public service companies) records.

# Morgue Files

Historic property record cards, 1978 – 2006, are stored by legal description in vault and outer-office file cabinets.

Many of the "morgue" records were B.C. (before computers), but are typewritten, legible and in good condition. There is an on-going project for "morgue" files to be scanned onto CD's by legal description for years 1978 through 2006 in an attempt to reduce record storage volume. The project is progressing slowly due to lack of personnel.

# Web-Based Property Information

Web-based property information access is not provided by the assessor. GIS and on-line property records is an expensive service requested, expected and sometimes demanded mostly by persons from private businesses.

In spite of the frequent, uncomplimentary remarks being made by those in the private real estate businesses and because on-line records offer little or no benefit to the taxpayers, the county assessor has elected to not burden the county budget with that expense at this time. INTERESTING NOTE: No individual property owner has ever, to this date, asked for, demanded, or fussed about placing Dundy County property records on-line.

### Public Information

Property record information is offered to the public in printed form, handed to or mailed to the person making the request at a cost of 25¢ per record, plus postage and handling when applicable. Large volume requests are charged a set-up fee in addition to the per-record cost.

Property record information is offered to the public via e-mail, if the request is minimal, at no cost. The most common e-mail requests include building sketches and construction information.

The assessor's office began tracking the volume of records transmitted to the public via e-mail in March, 2010. From March, 2010, through June, 2014, the assessor's office has participated in the exchange of about 2,500 various forms of assessment information via e-mail.

Lengthy information is e-mailed by the assessor whenever possible, but pre-payment is required before set-up. Index production, mass parcel

production, or custom requests are provided at a cost of \$25 set-up fee, 25¢ per record, or per page, depending upon the format, postage, and the cost of the paper, diskette or CD. Pre-payment is required for all large volume requests.

The assessor's office does not perform research services for the public, but will provide information that is readily or easily produced. These requests are becoming more and more frequent, with considerable staff time devoted to production. Many requests are for information so customized that it is time-prohibitive or impossible to produce. Therefore, responses to requests are limited to those formats and arrays easily produced through standard report and index design.

Total assessment/appraisal records, requested by some retail vendors of that information, usually for their subscription web site businesses, are referred to Thomson-Reuters (TerraScan, Inc.) for electronic/transmittal production. The fees charged by TerraScan for that service are paid to TerraScan by the persons/companies requesting the information.

Special efforts are made to customize information requested by governmental entities, such as federal, state, county, city, fire district, NRD and so on. Governmental entities are not charged for information in any form and are usually given priority over other requests.

# **BUDGET SUMMARY**

Fiscal Year July 1, 2014 - June 30, 2015

EXPENDITURE DESCRIPTION	BUDGETED 2010 – 2011	BUDGETED 2011 – 2012	BUDGETED 2012 - 2013	BUDGETED 2013 - 2014	BUDGETED 2014- 2015
Official's Salary	38,100	39,700	40,700	41,700	43,600
Staff Salary	22,000	21,300	32,760	30,000	34,840
Postage	2,000	2,000	2,000	1,500	1,500
Telephone	1,500	2,000	2,000	2,500	2,500
Equipment Repair	1,000	1,000	1,000	500	500
Lodging	500	500	500	500	500
Mileage	1,500	1,500	1,500	2,000	2,000
Dues, Registration	500	500	500	500	500
Minerals Contract	5,000	5,000	5,500	5,500	5,500
PTAS/CAMA System	6,500	6,500	5,500	6,500	6,500
System Upgrade					
Continuing Education	500	500	500	500	500
Office Supplies	3,500	3,500	2,500	2,500	3,500
Office Equipment	1,000	1,000	1,000	1,000	2,500
Official's Bond					
Reappraisal					
TOTAL BUDGETED	83,600	85,000	95,960	95,200	104,440
TOTAL EXPENDED	77,871	78,185	83,612	91,450	
FORFEIT TO GENERAL FUND	5,729	6,815	12,348	3,750	

NOTE 1: Unused budget amounts are usually due to an unfulfilled, full-time clerical position. During 2014, 2 new Windows 7 computers with printers and scanners were purchased, but not anticipated at budget time. Also, the assessment clerk has been working more hours. The unused budget funds, at the end of the fiscal year, are transferred to "reserves" or other funding mechanisms and are not carried forward to the ensuing assessor's budget.

NOTE 2: New, unique, or additional-time-demanding requirements are accomplished by extended work hours contributed by the county assessor.

NOTE 3: The assessor cannot receive salary or benefits in excess of those set prior to each election year, no matter how many hours are contributed outside normal office hours.

The 2014-2015 Budget was submitted to the Board July 23, 2014. The Budget page in this report was edited up-to-date on 09/19/2014.

# Transmittal of 3-Year Plan

Joanna Mislaca

The Dundy County Assessor's 2014 3-Year Plan of Assessment was hand-delivered to the Dundy County Board of Equalization on Monday, July 21, 2014.

One copy was handed to each of the three Board members. One copy was handed to the county clerk, for the record.

Signed this  $13^{th}$  day of June, 2014 by the Dundy County Assessor. [Updates, 09/19/2014: jn]

The Budget Summary was not updated within this Plan by delivery date to the County Board. The original Budget Estimation for the ensuing year, 2014-2015, was filed with the County Board on 07/23/2014. The Budget was approved by the Board on 09/15/2014. [09/19/2014: jn]

The Plan was electronically transmitted, in "pdf" format to the Property Tax Administrator on September19, 2014, addressed to:

# Ruth.sorensen@nebraska.gov

The Plan was electronically transmitted, in "pdf" format with no page numbers, to Field Liaison, Patricia Albro, on September 19, 2014, addressed to:

# pat.albro@nebraska.gov

Copies will be printed from the file, upon request, any time after signed copies have been handed to the County Board.

"This report, by its very length, defends itself against the risk of being read."  $\mbox{\ensuremath{\text{--Winston}}}\xspace$  Churchill

13.	Amount of last year's assessor's budget not used:
	\$ 3,750

# **B.** Computer, Automation Information and GIS

1.	Administrative software:
	TerraScan (Thomson Reuters)
2.	CAMA software:
	TerraScan (Thomson Reuters)
3.	Are cadastral maps currently being used?
	Yes
4.	If so, who maintains the Cadastral Maps?
	Assessor and Assessment Clerk
5.	Does the county have GIS software?
	No
6.	Is GIS available to the public? If so, what is the web address?
	Not applicable.
7.	Who maintains the GIS software and maps?
	Not applicable.
8.	Personal Property software:
	TerraScan (Thomson Reuters)

# C. Zoning Information

1.	Does the county have zoning?
	Yes
2.	If so, is the zoning countywide?
	Yes
3.	What municipalities in the county are zoned?
	Benkelman
4.	When was zoning implemented?
	2004 - County, Unknown - Benkelman

# **D. Contracted Services**

1.	Appraisal Services:
	Pritchard & Abbott, Inc Operating Minerals
2.	GIS Services:
	None
3.	

# E. Appraisal /Listing Services

1.	Does the county employ outside help for appraisal or listing services?
	Yes - Operating Minerals Only
2.	If so, is the appraisal or listing service performed under contract?
	Yes
3.	What appraisal certifications or qualifications does the County require?
	Knowledge and experience.
4.	Have the existing contracts been approved by the PTA?
	Yes
5.	Does the appraisal or listing service providers establish assessed values for the county?
	Operating Minerals: Appraisal service recommends values.

# **2015** Certification for Dundy County

This is to certify that the 2015 Reports and Opinions of the Property Tax Administrator have been sent to the following:

One copy by electronic transmission to the Tax Equalization and Review Commission.

One copy by electronic transmission to the Dundy County Assessor.

Dated this 7th day of April, 2015.
