

Good Life. Great Service.

DEPARTMENT OF REVENUE

# 2019 REPORTS AND OPINIONS OF THE PROPERTY TAX ADMINISTRATOR

FRANKLIN COUNTY

April 5, 2019

Commissioner Keetle:

The Property Tax Administrator has compiled the 2019 Reports and Opinions of the Property Tax Administrator for Franklin County pursuant to <u>Neb. Rev. Stat. § 77-5027</u>. This Report and Opinion will inform the Tax Equalization and Review Commission of the level of value and quality of assessment for real property in Franklin County.

The information contained within the County Reports of the Appendices was provided by the county assessor pursuant to <u>Neb. Rev. Stat. § 77-1514</u>.

For the Tax Commissioner

Sincerely,

Kuth a. Sorensen

Ruth A. Sorensen Property Tax Administrator 402-471-5962

cc: Linda Dallman, Franklin County Assessor

Property Assessment Division Ruth A. Sorensen, Administrator revenue.nebraska.gov/PAD PO Box 94818 Lincoln, Nebraska 68509-4818 PHONE 402-471-5984 FAX 402-471-5993

## 2019 Reports and Opinions of the Property Tax Administrator:

- Certification to the Commission
- Introduction
- County Overview
- Residential Correlation
- Commercial Correlation
- Agricultural Land Correlation
- Property Tax Administrator's Opinion

#### **Appendices:**

Commission Summary

#### Statistical Reports and Displays:

- Residential Statistics
- Commercial Statistics
- Chart of Net Sales Compared to Commercial Assessed Value
- Agricultural Land Statistics
- Table-Average Value of Land Capability Groups
- Special Valuation Statistics (if applicable)
- Market Area Map
- Valuation History Charts

#### County Reports:

- County Abstract of Assessment for Real Property, Form 45
- County Abstract of Assessment for Real Property Compared to the Prior Year Certificate of Taxes Levied (CTL).
- Assessor Survey
- Three-Year Plan of Assessment
- Special Value Methodology (if applicable)
- Ad Hoc Reports Submitted by County (if applicable)

## Introduction

<u>Neb. Rev. Stat. § 77-5027</u> provides that the Property Tax Administrator (PTA) shall prepare and deliver an annual Reports and Opinions (R&O) document to each county and to the Tax Equalization and Review Commission (Commission). This will contain statistical and narrative reports informing the Commission of the certified opinion of the PTA regarding the level of value and the quality of assessment of the classes and subclasses of real property within each county. In addition to an opinion of the level of value and quality of assessment in the county, the PTA may make nonbinding recommendations for subclass adjustments for consideration by the Commission.

The statistical and narrative reports contained in the R&O of the PTA provide an analysis of the assessment process implemented by each county to reach the levels of value and quality of assessment required by Nebraska law. The PTA's opinion of the level of value and quality of assessment in each county is a conclusion based upon all the data provided by the county assessor and gathered by the Nebraska Department of Revenue, Property Assessment Division (Division) regarding the assessment activities in the county during the preceding year.

The statistical reports are developed using the statewide sales file that contains all transactions as required by <u>Neb. Rev. Stat. § 77-1327</u>. From this sales file, the Division prepares a statistical analysis comparing assessments to sale prices for arm's-length sales. After analyzing all available information to determine that the sales represent the class or subclass of properties being measured, inferences are drawn regarding the assessment level and quality of assessment of the class or subclass being evaluated. The statistical reports contained in the R&O are developed based on standards developed by the International Association of Assessing Officers (IAAO).

The analysis of assessment practices in each county is necessary to give proper context to the statistical inferences from the assessment sales ratio studies and the overall quality of assessment in the county. The assessment practices are evaluated in the county to ensure professionally accepted mass appraisal methods are used and that those methods will generally produce uniform and proportionate valuations.

The PTA considers the statistical reports and the analysis of assessment practices when forming conclusions on both the level of value and quality of assessment. The consideration of both the statistical indicators and assessment processes used to develop valuations is necessary to accurately determine the level of value and quality of assessment. Assessment practices that produce a biased sales file will generally produce a biased statistical indicator, which, on its face, would otherwise appear to be valid. Likewise, statistics produced on small, unrepresentative, or otherwise unreliable samples, may indicate issues with assessment uniformity and assessment level—however, a detailed review of the practices and valuation models may suggest otherwise. For these reasons, the detail of the PTA's analysis is presented and contained within the Residential, Commercial, and Agricultural land correlations.

#### **Statistical Analysis:**

In determining a point estimate of the level of value, the PTA considers three measures as indicators of the central tendency of assessment: the median ratio, weighted mean ratio, and mean ratio. The use and reliability of each measure is based on inherent strengths and weaknesses which are the quantity and quality of the information from which it was calculated and the defined scope of the analysis.

The median ratio is considered the most appropriate statistical measure to determine a level of value for direct equalization, which is the process of adjusting the values of classes or subclasses of property in response to an unacceptable level. Since the median ratio is considered neutral in relationship to either assessed value or selling price, adjusting the class or subclass of properties based on the median measure will not change the relationships between assessed value and level of value already present in the class of property. Additionally, the median ratio is less influenced by the presence of extreme ratios, commonly called outliers, which can skew the outcome in the other measures.

The weighted mean ratio best reflects a comparison of the fully assessable valuation of a jurisdiction, by measuring the total assessed value against the total of selling prices. The weighted mean ratio can be heavily influenced by sales of large-dollar property with extreme ratios.

The mean ratio is used as a basis for other statistical calculations, such as the Price Related Differential (PRD) and Coefficient of Variation (COV). As a simple average of the ratios the mean ratio has limited application in the analysis of the level of value because it assumes a normal distribution of the data set around the mean ratio with each ratio having the same impact on the calculation regardless of the assessed value or the selling price.

The quality of assessment relies in part on statistical indicators as well. If the weighted mean ratio, because of its dollar-weighting feature, is significantly different from the mean ratio, it may be an indication of disproportionate assessments. The coefficient produced by this calculation is referred to as the PRD and measures the assessment level of lower-priced properties relative to the assessment level of higher-priced properties.

The Coefficient of Dispersion (COD) is a measure also used in the evaluation of assessment quality. The COD measures the average deviation from the median and is expressed as a percentage of the median. A COD of 15% indicates that half of the assessment ratios are expected to fall within 15% of the median. The closer the ratios are grouped around the median the more equitable the property assessments tend to be.

The confidence interval is another measure used to evaluate the reliability of the statistical indicators. The Division primarily relies upon the median confidence interval, although the mean and weighted mean confidence intervals are calculated as well. While there are no formal standards regarding the acceptable width of such measure, the range established is often useful in determining the range in which the true level of value is expected to exist.

Pursuant to <u>Section 77-5023</u>, the acceptable range is 69% to 75% of actual value for agricultural land and 92% to 100% for all other classes of real property.

Nebraska law does not provide for a range of acceptability for the COD or PRD; however, the IAAO Standard on Ratio Studies establishes the following range of acceptability for the COD:

| General Property Class   | rty Class Jurisdiction Size/Profile/Market Activity                           |             |
|--|---|-------------|
| Residential improved (single family                                  | Very large jurisdictions/densely populated/newer properties/active markets    | 5.0 to 10.0 |
| dwellings, condominiums, manuf.                                      | Large to mid-sized jurisdictions/older & newer properties/less active markets | 5.0 to 15.0 |
| housing, 2-4 family units)   | Rural or small jurisdictions/older properties/depressed market areas          | 5.0 to 20.0 |
|  | Very large jurisdictions/densely populated/newer properties/active markets    | 5.0 to 15.0 |
| Income-producing properties (commercial,<br>industrial, apartments,) | Large to mid-sized jurisdictions/older & newer properties/less active markets | 5.0 to 20.0 |
|  | Rural or small jurisdictions/older properties/depressed market areas          | 5.0 to 25.0 |
| 1  | Very large jurisdictions/rapid development/active markets                     | 5.0 to 15.0 |
| Residential vacant land  | Large to mid-sized jurisdictions/slower development/less active markets       | 5.0 to 20.0 |
|  | Rural or small jurisdictions/little development/depressed markets             | 5.0 to 25.0 |
| 2  | Very large jurisdictions/rapid development/active markets                     | 5.0 to 20.0 |
| Other (non-agricultural) vacant land                                 | Large to mid-sized jurisdictions/slower development/less active markets       | 5.0 to 25.0 |
|  | Rural or small jurisdictions/little development/depressed markets             | 5.0 to 30.0 |

A COD under 5% indicates that the properties in the sample are either unusually homogenous, or possibly indicative of a non-representative sample due to the selective reappraisal of sold parcels. The reliability of the COD can be directly affected by extreme ratios.

The PRD range stated in IAAO standards is 98% to 103%. A perfect match in assessment level between the low-dollar properties and high-dollar properties indicates a PRD of 100%. The reason for the extended range on the high end is IAAO's recognition of the inherent bias in assessment. The IAAO Standard on Ratio Studies notes that the PRD is sensitive to sales with higher prices even if the ratio on higher priced sales do not appear unusual relative to other sales, and that small samples, samples with high dispersion, or extreme ratios may not provide an accurate indication of assessment regressivity or progressivity.

#### Analysis of Assessment Practices:

The Division reviews assessment practices that ultimately affect the valuation of real property in each county. This review is done to ensure the reliability of the statistical analysis and to ensure professionally accepted mass appraisal methods are used in the county assessor's effort to establish uniform and proportionate valuations. The review of assessment practices is based on information filed from county assessors in the form of the Assessment Practices Survey, and in observed assessment practices in the county.

To ensure county assessors are submitting all Real Estate Transfer Statements, required for the development of the state sales file pursuant to Section 77-1327, a random sample from the county registers of deeds' records is audited to confirm that the required sales have been submitted and reflect accurate information. The timeliness of the submission is also reviewed to ensure the sales

file allows analysis of up-to-date information. The county's sales verification and qualification procedures are reviewed to ensure that sales are properly considered arm's-length transactions unless determined to be otherwise through the verification process. Proper sales verification practices ensure the statistical analysis is based on an unbiased sample of sales.

Valuation groups and market areas are also examined to identify whether the groups and areas being measured truly represent economic areas within the county. The measurement of economic areas is the method by which the PTA ensures intra-county equalization exists. The progress of the county's six-year inspection and review cycle is documented to ensure compliance with <u>Neb. Rev.</u> <u>Stat. § 77-1311.03</u> and also to confirm that all property is being uniformly listed and described for valuation purposes.

Valuation methodologies developed by the county assessor are reviewed for both appraisal logic and to ensure compliance with professionally accepted mass appraisal methods. Methods and sales used to develop lot values are also reviewed to ensure the land component of the valuation process is based on the local market, and agricultural outbuildings and sites are reviewed as well.

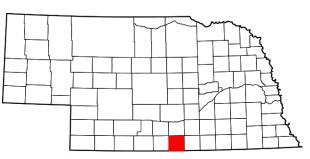

Compliance with statutory reporting requirements is also a component of the assessment practices review. Late, incomplete, or excessive errors in statutory reports can be problematic for the end users, and highlight potential issues in other areas of the assessment process. Public trust in the assessment process demands transparency, and practices are reviewed to ensure taxpayers are served with such transparency.

The comprehensive review of assessment practices is conducted throughout the year. When practical, potential issues identified are presented to the county assessor for clarification. The county assessor can then work to implement corrective measures prior to establishing assessed values. The PTA's conclusion that assessment quality is either compliant or not compliant with professionally accepted mass appraisal methods is based on the totality of the assessment practices in the county.

#### \*Further information may be found in Exhibit 94

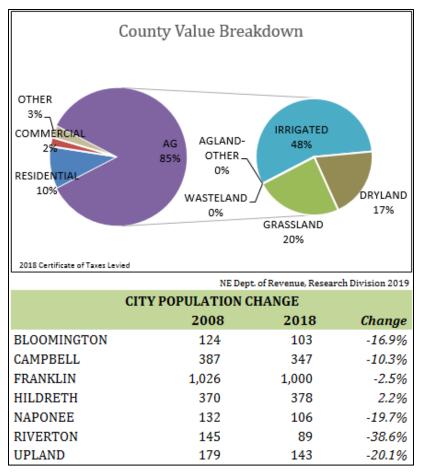

## **County Overview**

With a total area of 576 square miles, Franklin County had 2,990 residents, per the Census Bureau Quick Facts for 2017, reflecting an overall population decline from the 2010 U.S. Census of 7%. Reports indicated that 84% of county residents were homeowners and 90% of residents occupied the same residence as in the

prior year (Census Quick Facts). The average home value is \$54,288 (2018 Average Residential Value, Neb. Rev. Stat. § 77-3506.02).

The majority of the commercial properties in Franklin County are located in and around the county seat of Franklin. According to the latest information available from the U.S. Census Bureau, there were 75 employer establishments with total employment of 411.

Agricultural land is the single greatest contributor to the county's valuation base by an overwhelming majority. A mix of grass and irrigated land makes up a majority of the land in the county. Franklin is included in the Lower Republican Natural Resources District (NRD).

#### **Assessment Actions**

The county assessor and staff inspected and reviewed all rural residential and rural improvements and implemented a 2017 costing schedule and depreciation schedule. The county also reviewed and updated a lot value study for rural properties. The lot value study increased all excess acres to \$1000 per acre; previously they were valued between \$500 and \$1000. All pick-up work was also completed and placed on the assessment roll.

#### Assessment Practice Review

An annual comprehensive review of the assessment practices is conducted for the county. Within the residential class, the Property Assessment Division's (Division) assessment practice review focuses on the submission and qualification of sales information, the accuracy, and timely submission of sales, and the accuracy of values on the Assessed Value Update (AVU), and the stratification of properties into valuation groups. The Division also reviews the association of sold and unsold valuation changes, the county's six-year inspection and review cycle, that the county is meeting all the statutory reporting schedules, lot value studies, valuation methodology and the dates used on their depreciation and costing tables in their Computer-Assisted Mass Appraisal (CAMA) system.

Part of the review is to ensure that sales information sent to the state is accurate and received on a timely matter; the county submitted the sales timely. Random audits of the Real Estate Transfer Statements (Form 521) revealed the statements were submitted within the required timeframe with minimal error for the county. The field liaison offered training and the county assessor made some changes. AVU values were reported with no errors.

The sales verification process in the county includes sending a verification questionnaire to both the buyer and seller. The county has a very high return rate from both the buyer and seller. Sales verification usability is a bit lower than the state average. The county assessor and field liaison worked together to make sure sales where properly verified. Review of sold and unsold properties indicated that there is no apparent sales bias.

The county's inspection and review cycle for all real property was discussed with the county assessor. The county is up-to-date with the six-year review cycle. Valuation groups were reviewed and they appear to reflect general economic conditions. The county assessor is in the process of inspecting and reviewing lot values as the county assessor continues the six-year inspection and review cycle. Lot values are based on square feet.

The county assessor meets all but one the statutory reporting schedules by the statutory date. The county assessor was one day late in submitting the School District Report.

#### Description of Analysis

Franklin County uses four valuation groups within the residential class. Franklin is the county seat and the primary town. Valuation Groups 2 and 3 represent the small villages. Valuation Group 4 is the rural residential properties within the county.

| Valuation Group | Description                     |
|-----------------|---------------------------------|
| 1               | Franklin                        |
|                 | Bloomington, Naponee, Riverton, |
| 2               | Upland                          |
| 3               | Campbell, Hildreth              |
| 4               | Rural                           |

The reported assessment actions affected both the sales file and the 2019 County Abstract of Assessment for Real Property, Form 45 with the 2018 Certificated Taxes Levied Report (CTL) similarly. There was a large fluctuation in Assessor Location Campbell from last year's abstract and this increase was due to a reclassification of several properties from commercial property class to the residential property class. In reviewing the measures of central tendency has only the median in the acceptable range while the weighted mean and mean are below the acceptable range. The COD supports the use of the median as a point estimate of the level of value.

Valuation Groups 2 and 4 are extremely small samples with medians below the acceptable range. Valuation Group 2 represents the smallest villages within the county and has only four sales within the study period while Valuation Group 4 having only one sale in rural residential over the study period, thus, making the statistics very unreliable for both Valuation Groups 2 and 4.

Valuation Group 3 encompasses the towns of Campbell and Hildreth. When you look at the towns individually, each town has very different statistics. Campbell has six sales over the study period with a median of 108 while Hildreth has 12 sales with a median 86. Each town is out of the acceptable range. The disparity of the sales does not constitute an adjustment. A substat showing this group is included in the appendices of this report. Two extreme low ratios at both ends of the sales price array are having a significant impact on the median, which moves to 94% when the sales are removed. Further, review of assessed value changes over time indicates that the villages of Franklin, Campbell, and Hildreth have all increased at a rate of 3% per year since 2008. This supports that all three towns would be assessed at a similar level of value.

## Equalization and Quality of Assessment

The qualitative statistics generally supports that the assessment are uniform with the class; although only Valuation Group 1 has a reliable sample of sales. Based on the assessment practice review Franklin County meets generally accepted mass appraisal techniques.

| VALUATION GROUP |       |        |       |          |       |        |
|-----------------|-------|--------|-------|----------|-------|--------|
| RANGE           | COUNT | MEDIAN | MEAN  | WGT.MEAN | COD   | PRD    |
| 1               | 34    | 92.84  | 90.88 | 94.63    | 15.56 | 96.04  |
| 2               | 4     | 81.42  | 77.71 | 80.21    | 06.12 | 96.88  |
| 3               | 18    | 89.87  | 91.95 | 86.21    | 17.51 | 106.66 |
| 4               | 1     | 36.19  | 36.19 | 36.19    | 00.00 | 100.00 |
| ALL             | 57    | 91.54  | 89.33 | 88.18    | 17.02 | 101.30 |

#### Level of Value

Based on analysis of all available information, the level of value of the residential property in Franklin County is 92%.

#### **Assessment Actions**

The physical inspection and review of the commercial class complies with the six-year inspection and review requirements. The county assessor felt the need to review all the commercial properties within the county even though the next scheduled date for review would have been next year. The county assessor enlisted the help of the on-staff appraiser to list and value commercial parcels. New pictures were taken of each parcel and the pricing was updated. The depreciation schedule was also updated. The county assessor and staff have inspected, reviewed, and updated the lot values for the commercial properties within the county.

#### Assessment Practice Review

An annual comprehensive review of the assessment practices is conducted for the county. Within the commercial class, the Property Assessment Division's (Division) assessment practice review focuses on the submission and qualification of sales information, the accuracy, and timely submission of sales, and the accuracy of values on the Assessed Value Update (AVU), as well as the stratification of properties into valuation groups. The Division also reviews the association of sold and unsold valuation changes, the county's six-year inspection and review cycle, to see that the county is meeting all the statutory reporting schedules, lot value studies, valuation methodology and the dates used on their depreciation and costing index tables in their Computer Assisted Mass Appraisal (CAMA) system.

As in the residential class, Franklin County continues to show no apparent indication of sales bias within their commercial sales. Both the sold and unsold parcels had minimal changes and this reflects the reported actions. No errors were found in the AVU. Sales verification was very comparable to the state average. The county assessor submits the sales timely with minimal errors.

The county has two valuation groups based on the economic characteristics within the county. These define distinct areas in the county. The county assessor is using costing index tables from 2018 while the depreciation tables were updated in 2018 as well. The county assessor inspection and review of its commercial lots were also in 2018.

The sales verification process in the county includes sending a verification questionnaire to both the buyer and seller. The county assessor is successful by getting a high return rate. When sales questionnaires are incomplete, the county assessor makes phone calls to follow up. It appears the county assessor has qualified sales without apparent bias. The county's inspection and review cycle for all real property was discussed with the county assessor. The county is up-to-date with the six-year inspection and review cycle. The county assessor and staff, which include a part-time appraiser, review the properties and enters all the information into the CAMA system.

#### Description of Analysis

Franklin County has two valuation groups; Valuation Group 1 contains the county seat of Franklin while Valuation Group 2 consists of the rest of the commercial properties.

| Valuation<br>Group | Description  |
|--------------------|--|
| 1                  | Franklin   |
| 2                  | Bloomington, Campbell, Hildreth,<br>Naponee, Riverton, Upland, and Rural |

For the commercial property class, a review of Franklin County's statistical profile displays 14 commercial sales, representing the two valuation groups for the county. The sample size seems to be an inadequate number of sales for statistical analysis; thus, this low number of sales seems not to be representative for the properties in the entire commercial class. There is a variety of commercial sales as 10 different occupancy codes are represented for the 14 sales. Along with types of sales, there is a huge variance in sales prices.

A review of the statistic profile shows that of the three levels of central tendency only the mean and the weighted mean are in the acceptable range. The higher PRD represents that the high priced properties are undervalued while the low price properties are undervalued. During the analysis, when the removal of the high ratio, the median stays the same but lowers the PRD by 10 points while the COD is decrease by 11 points. No single analysis carries all the weight, but the annual assessment actions, the combined assessment actions for multiple years, and the assessment practices review are considered in the level of value decision. While the county assessor does a relatively good job of inspecting and reviewing the properties, these statistical records shows the unpredictability of sales of commercial properties in a more rural county.

Analysis of the 2019 County Abstract of Assessment for Real Property, Form 45 Compared with the 2018 Certificate of Taxes Levied Report (CTL) show that the commercial population increased while the sample experienced a similar increase as well; this verifies that the sold properties compared to the unsold properties had similar movement.

#### Equalization and Quality of Assessment

The sample size of the commercial class is insufficient for measurement purposes. However, the assessment practices and additional analysis indicate that the commercial property is valued uniformly and the quality of assessment for the commercial class of property complies with generally accepted mass appraisal techniques.

| VALUATION GROUP |       |        |        |          |       |        |
|-----------------|-------|--------|--------|----------|-------|--------|
| RANGE           | COUNT | MEDIAN | MEAN   | WGT.MEAN | COD   | PRD    |
| 1               | 9     | 95.71  | 118.46 | 100.91   | 29.11 | 117.39 |
| 2               | 5     | 97.39  | 106.22 | 91.57    | 32.04 | 116.00 |
| ALL             | 14    | 96.40  | 114.09 | 98.02    | 30.27 | 116.39 |

#### Level of Value

Based on the available information, the level of value of the commercial class of real property in Franklin County is determined to be at the statutory level of 100% of market value.

#### Assessment Actions

Franklin County continually verifies sales along with the updating of land use from information received from their NRD in the agricultural class of property. A sales analysis was completed and as a result, the county decided that all dryland, irrigated land, and grassland values would stay the same as last year's values.

All agricultural improvements were physically inspected and revalued with updated costing and depreciation. All pick-up work was completed in a timely manner.

#### Assessment Practice Review

An annual comprehensive review of the assessment practices is conducted for the county. Within the agricultural class, the Property Assessment Division's (Division) assessment practice review focuses on the submission and qualification of sales information and its accuracy, the timely submission of sales, and the accuracy of values on the Assessed Value Update (AVU), and the stratification of properties into market areas and review if any Special Value was within the county. The Division also reviews the county's six-year inspection and review cycle on agricultural improvements, land use analysis, valuation methodology for agricultural outbuildings, a review of agricultural homes, outbuildings and site values and the dates used on their depreciation and costing tables in their Computer-Assisted Mass Appraisal (CAMA) system.

Franklin County continues to review acceptable sales qualification and verification practices. No apparent bias exists in the qualification determination and it seems all arm's-length sales were available for the measurement of real property. The review also looked at the filing of Real Estate Transfer Statement (Form 521) as well as checking the values reported on the Assessed Value Update (AVU). No accuracy issues were found in either the 521s or the AVU and monthly transfers were done most every month.

Land use is conducted using aerial imagery, certification from Farm Services Agency (FSA) maps, and questionnaires. The county assessor and staff completed all physical inspections inhouse. Primary use is determined based on observed uses, any cropping is usually classified agricultural, but on parcels less than 20 acres if there is only grassland use a more thorough review on 20 acres or less for non-agricultural use. The county assessor also evaluates the adjoining parcel if it is under common ownership.

The home site acres are at \$10,000 for first acre and any excess land is valued at \$500 or \$1000 based on rural residential. Agricultural improvements are priced according to the Marshall & Swift manual and CAMA depreciation. Some poor condition outbuildings have a flat value and if the building is not usable then no value are assigned.

Agricultural outbuildings were revalued with updated costing and depreciation this year, site values were last changed in 2013.

Franklin County has determined that there are two agricultural market areas due to the Republican River and its irrigation use. The county also uses irrigated grassland as a subclass.

#### Description of Analysis

Franklin County utilizes two agricultural market areas, designated based on irrigation potential. Review of the statistical profile indicates that all measures of central tendency were within the acceptable range and the COD is low enough to support the use of the statistics as an indicator of the level of value.

Review of the market area profile indicates that only Market Area 2 has a sufficient sample of sales. Additionally, none of the Majority Land Use (MLU) subclasses have sufficient samples of sales. The county assessor's action to make no adjustment to agricultural land was consistent with the general economics of the agricultural class, which has been stable to slightly decreasing this year. All agricultural land values are reasonably equalized with adjoining counties. For these reasons, all agricultural subclasses are believed to be assessed within the acceptable range.

#### Equalization and Quality of Assessment

Although none of the MLU subclasses have sufficient samples of sales, the ratios generally fall within the acceptable range where there are more than a few sales. The COD by subclass are also very low supporting that ratios are tightly clustered. Further review of agricultural land values in Franklin and surrounding counties supports that they are equalized.

Agricultural outbuildings were reappraised this year using consistent methods and are uniformly assessed. The quality of assessment of the agricultural class of property adheres to generally accepted mass appraisal techniques.

| 80%MLU By Market Area |       |        |        |          |       |        |
|-----------------------|-------|--------|--------|----------|-------|--------|
| RANGE                 | COUNT | MEDIAN | MEAN   | WGT.MEAN | COD   | PRD    |
| Irrigated             |       |        |        |          |       |        |
| County                | 7     | 70.30  | 71.77  | 69.45    | 12.96 | 103.34 |
| 2                     | 7     | 70.30  | 71.77  | 69.45    | 12.96 | 103.34 |
| Dry                   |       |        |        |          |       |        |
| County                | 4     | 74.81  | 75.91  | 75.35    | 04.40 | 100.74 |
| 2                     | 4     | 74.81  | 75.91  | 75.35    | 04.40 | 100.74 |

## Level of Value

Based on analysis of all available information, the level of value of agricultural land in Franklin County is 71%.

# 2019 Opinions of the Property Tax Administrator for Franklin County

My opinions and recommendations are stated as a conclusion based on all of the factors known to me regarding the assessment practices and statistical analysis for this county. See, Neb. Rev. Stat. § 77-5027 (Reissue 2018). While the median assessment sales ratio from the Qualified Statistical Reports for each class of real property is considered, my opinion of the level of value for a class of real property may be determined from other evidence contained within these Reports and Opinions of the Property Tax Administrator. My opinion of quality of assessment for a class of real property may be influenced by the assessment practices of the county assessor.

| Class                        | Level of Value | Quality of Assessment                               | Non-binding recommendation |
|------------------------------|----------------|---|----------------------------|
| Residential Real<br>Property | 92             | Meets generally accepted mass appraisal techniques. | No recommendation.         |
|                              |                |   |                            |
| Commercial Real<br>Property  | 100            | Meets generally accepted mass appraisal techniques. | No recommendation.         |
|                              |                |   |                            |
| Agricultural Land            | 71             | Meets generally accepted mass appraisal techniques. | No recommendation.         |
|                              |                |   | 1                          |

\*\*A level of value displayed as NEI (not enough information) represents a class of property with insufficient information to determine a level of value.

Dated this 5th day of April, 2019.

#### Legend

County Lines

Market Areas

Geo Codes

Moderately well drained silty soils on uplands and in depressions formed in loess

Moderately well drained silty soils with clayey subsoils on uplands

Well drained silty soils formed in loess on uplands

Well drained silty soils formed in loess and alluvium on stream terraces

Well to somewhat excessively drained loamy soils formed in weathered sandstone and eolian material on uplands

Excessively drained sandy soils formed in alluvium in valleys and eolian sand on uplands in sandhills

Excessively drained sandy soils formed in eolian sands on uplands in sandhills

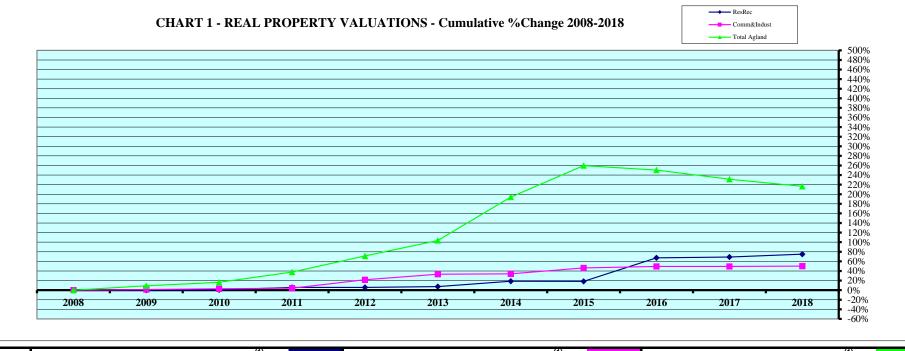

Somewhat poorly drained soils formed in alluvium on bottom lands

# 2019 Assessment Survey for Franklin County

## A. Staffing and Funding Information

| 1.  | Deputy(ies) on staff:   |
|-----|---|
|     | 1   |
| 2.  | Appraiser(s) on staff:  |
|     | 1 Part-time Appraiser.  |
| 3.  | Other full-time employees:  |
|     | 1   |
| 4.  | Other part-time employees:  |
|     | None.   |
| 5.  | Number of shared employees:   |
|     | None.   |
| 6.  | Assessor's requested budget for current fiscal year:                            |
|     | \$123,433   |
| 7.  | Adopted budget, or granted budget if different from above:                      |
|     | n/a   |
| 8.  | Amount of the total assessor's budget set aside for appraisal work:             |
|     | n/a   |
| 9.  | If appraisal/reappraisal budget is a separate levied fund, what is that amount: |
|     | \$75,740  |
| 10. | Part of the assessor's budget that is dedicated to the computer system:         |
|     | The computer system is budgeted through the county general fund.                |
| 11. | Amount of the assessor's budget set aside for education/workshops:              |
|     | \$1,600   |
| 12. | Other miscellaneous funds:  |
|     | None.   |
| 13. | Amount of last year's assessor's budget not used:                               |
|     | \$7,016   |

# B. Computer, Automation Information and GIS

| 1. | Administrative software:  |
|----|---|
|    | MIPS PC v3  |
| 2. | CAMA software:  |
|    | MIPS PC v3  |
| 3. | Are cadastral maps currently being used?                        |
|    | Yes.  |
| 4. | If so, who maintains the Cadastral Maps?                        |
|    | Assessor and staff.   |
| 5. | Does the county have GIS software?                              |
|    | Yes   |
| 6. | Is GIS available to the public? If so, what is the web address? |
|    | Yes.<br>https://franklin.gworks.com                             |
| 7. | Who maintains the GIS software and maps?                        |
|    | Assessor and staff.   |
| 8. | Personal Property software:                                     |
|    | MIPS PC v3  |

## C. Zoning Information

| 1. | Does the county have zoning?                 |
|----|--|
|    | Yes.   |
| 2. | If so, is the zoning countywide?             |
|    | Yes.   |
| 3. | What municipalities in the county are zoned? |
|    | Franklin and Hildreth.                       |
| 4. | When was zoning implemented?                 |
|    | 2000   |

## **D. Contracted Services**

| 1. | Appraisal Services:   |
|----|-----------------------|
|    | Pritchard and Abbott. |
| 2. | GIS Services:         |
|    | gWorks                |
| 3. | Other services:       |
|    | None.                 |

# E. Appraisal /Listing Services

| 1. | Does the county employ outside help for appraisal or listing services?  |
|----|---|
|    | Yes, Pritchard and Abbott for the oil and gas minerals.   |
| 2. | If so, is the appraisal or listing service performed under contract?  |
|    | Yes.  |
| 3. | What appraisal certifications or qualifications does the County require?  |
|    | Franklin County contracts with Pritchard and Abbott. They are used by all the other oil and gas counties in the state as they are experts in their field. |
| 4. | Have the existing contracts been approved by the PTA?   |
|    | The initial contract between Franklin County and Pritchard and Abbott was approved by the PTA.  |
| 5. | Does the appraisal or listing service providers establish assessed values for the county?   |
|    | Yes.  |

# 2019 Residential Assessment Survey for Franklin County

|                            | Valuation data collection done by:  |  |  |  |  |  |  |
|----------------------------|---|--|--|--|--|--|--|
|                            | Assessor and staff.   |  |  |  |  |  |  |
| 2.                         | List the valuation group recognized by the County and describe the unique characteristics of each:  |  |  |  |  |  |  |
|                            | Valuation<br>Group  | Description of unique characteristics  |  |  |  |  |  |
|                            | Image: 1         Franklin (population approximately 950)         County seat and largest community county. The amenities and job opportunities provide good demand for re housing. Franklin has a K-12 school district. |  |  |  |  |  |  |
|                            | 2   | Bloomington, Naponee, Riverton, and Upland. These are very small communities with populations under 150 residents. The communities are served by the Franklin school district.   |  |  |  |  |  |
|                            | 3   | Campbell and Hildreth; both communities have populations of 300-400 people. These small communities are influenced by their proximity to Hastings and Kearney. Hildreth is consolidated as part of the Wilcox-Hildreth school district and Campbell is consolidated as part of the Silver Lake public school district.   |  |  |  |  |  |
|                            | 4   | Rural Residential. All residential parcels not located within the boundaries of a village.   |  |  |  |  |  |

# 2018 Plan of Assessment for Franklin County

Plan of Assessment Requirements:

Pursuant to Nebraska laws 2005, LB 263, Section 9, on or before June 15<sup>th</sup> of each year, the assessor shall prepare a plan of assessment, (herein after referred to as the "plan"), which describes the assessment actions planned for the next assessment year and two years thereafter. The plan shall indicate the classes and subclasses of real property that the county assessor plans to examine during the years contained in the plan of assessment. The plan shall describe all the assessment actions necessary to achieve the levels of value and quality of assessment practices required by law, and the resources necessary to complete those actions. On or before July 31 each year, the assessor shall present the plan to the County Board of Equalization and the assessor may amend the plan, if necessary, after the budget is approved by the county board. A copy of the plan and any amendments thereto shall be mailed to the Department of Property Assessment and Taxation on or before October 31 each year.

Real Property Assessment Requirements:

All property in the State of Nebraska is subject to property tax unless expressly exempt by Nebraska Constitution, Article VIII, or is permitted by the constitution and enabling legislation adopted by the legislature. The uniform standard for the assessed value of real property for tax purposes is actual value, which is defined by laws as "the market value of real property in the ordinary course of trade."

Assessment levels required for real property are as follows:

- 1. 100% of actual value for all classes of real property excluding agricultural and horticultural land;
- 2. 75% of actual value for agricultural and horticulture land.

General Description of Real Property in Franklin County:

Per the 2018 County Abstract, Franklin County consists of the following real property types:

|              | Parcels | % of Total Parcels | % of Taxable Value |
|--------------|---------|--------------------|--------------------|
| Residential  | 1913    | 38%                | 5%                 |
| Commercial   | 350     | 7%                 | 2%                 |
| Industrial   | 6       | .5%                | .5%                |
| Recreational | 1       | .2%                | .2%                |
| Agricultural | 2,669   | 54%                | 92%                |
| Mineral      | 10      | .3%                | .3%                |

Franklin County has 350,628.24 agricultural acres.

New Property: For the assessment year 2018, an estimated 47 building permits were filed.

For more information, see 2018 Reports and Opinions, Abstract, and Assessor Survey.

Current Resources:

The Franklin County Assessor's Office has two full-time employees on staff as well as an Assessor. A part-time appraiser is also on staff. The Assessor, the Deputy Assessor, and the Clerk are currently certified by the Property Tax Administrator. The Assessor, Deputy, and Clerk will take the necessary training and education to keep current certificates. The Assessor and/or Deputy and Clerk will attend district meetings and workshops that will be provided by the Property Tax Division. Some IAAO courses will also be attended.

The total budget for July 1, 2017, - June 30, 2018, is \$119,557.00. The appraisal budget is \$77,750.00.

Assessment actions planned for Assessment Year 2019:

**Residential:** 

Sales in the 7 towns will be reviewed. A market study will be completed to insure all residential property in the county is in compliance with state statutes. All residential pick-up work and building permits will be reviewed and completed by March 19, 2019.

### Commercial:

Sales in the county will be reviewed. A market study will be completed to insure all commercial property is in compliance with state statutes for the year 2019. Pick-up work and building permits will be reviewed and completed by March 19, 2019.

### Agricultural:

We will continue to review land use and acres with the updated GIS information received. Land use and water transfers will be updated in GIS as reported. Land use and market areas will be reviewed and updated as information becomes available. A market study will be conducted to insure the level of value and quality of assessment is in compliance with state statutes. Pick-up work and building permits will be done by March 19, 2019. Aerial pictures will be compared to the information on the appraisal cards for the year 2018. All the rural improvements will be reviewed for the 6-year review process in 2018 for the assessment year 2019. Sales will be reviewed in the two market areas.

Assessment actions planned for Assessment Year 2020:

Residential:

Sales in the 7 towns will be reviewed. A market study will be completed to insure all residential property in the county is in compliance with state statutes. All pick-up work and building permits will be reviewed and completed by March 19, 2020.

### Commercial:

Sales will be reviewed in the county. All commercial property will be reviewed for the 6-year review process. Pick-up work and building permits will be reviewed and completed by March 19, 2020.

### Agricultural:

A market analysis will be conducted to insure the level of value and quality of assessment is in compliance with state statutes. We will continue to review the land use and acres with the updated GIS information. Land use and market areas will be reviewed and updated as information becomes available. Land use and water transfers will be updated in GIS as reported. Aerial pictures will be compared to the information on the appraisal cards for the year 2020. The other half of the county rural residential and other improvements will be reviewed. All pick-up work and building permits will be completed by March 19, 2020. Sales will be reviewed in the two market areas.

Assessment actions planned for Assessment Year 2021:

### Residential:

Sales will be reviewed in the 7 towns. We will conduct a market analysis to insure the level of value and quality of assessment is in compliance with state statute. Franklin, Hildreth, and Campbell will be reviewed to comply with the 6-year review process. Pick-up work and building permits will be done by March 19, 2021.

### Commercial:

Sales will be reviewed in the county. We will conduct a market analysis to insure the level of value and quality of assessment is in compliance with state statutes. All of the commercial property will be reviewed. Pick-up work and building permits will be done by March 19, 2021.

### Agricultural:

A market analysis will be conducted to insure the level of value and quality of assessment is in compliance with state statutes. We will continue to review the land use and acres with the updated GIS information. Land use and market areas will be reviewed and updated as information becomes available. Land use and water transfers will be updated in GIS as reported. Aerial pictures will be compared to the information on the appraisal cards for the year 2021. All pick-up work and building permits will be completed by March 19, 2021.

Other functions performed by the Assessor's Office, but not limited to:

Ownership changes are made as the transfers are given to the Assessor's Office from the Register of Deeds. All transfers are electronically sent to the Property Assessment Division

monthly. Splits are made as they become available to the Assessor's Office. These are updated in the GIS system at the same time they are changed on the appraisal cards and in the computer administrative program. Property cards are updated yearly. The GIS is used for updating the rural land use and acres.

Prepare reports required by law/regulations:

- a. Real Estate Abstract
- b. Assessor Survey
- c. Sales information to PAT roster, Assessed Value update with the Abstract and Assessment Actions
- d. Certification of Value to Political Subdivisions
- e. School District Taxable Report
- f. Homestead Exemption Tax Loss Report
- g. Certificate of Taxes Levied Report
- h. Report of all exempt property and taxable government owned property
- i. Annual Plan of Assessment Report for the next three years

Administer annual filing of approximately 599 schedules, prepare subsequent notices for incomplete filings or failure to file and penalties applied, as required.

Permissive Exemption applications are filed each year and new applications taken. They are reviewed and recommendations are made to the county board.

We review taxable government owned property annually that is not used for public purpose and send notices of intent to tax.

Homestead Exemptions are administered annually. Applications are taken in the office for approval or denial. Applications are sent to the Property Assessment Division and notifications are sent. Exemption amounts are figured and recorded in the tax list.

A review of centrally assessed property as certified by the Property Assessment and Taxation Division is completed annually. Assessment records and tax list records are established.

Maintain the tax rate boundaries in the county to make sure tax money goes to the right entity. Tax rates are entered into the computer for all tax entities to create a tax list for the Treasurer annually. All tax lists are certified to the Treasurer for all real property, personal property, and centrally assessed property.

Tax List corrections are made when errors are found or accelerating taxes for each year.

Attend County Board of Equalization meetings with the board and the taxpayer. Material for the Board's decision is provided for the hearings.

Prepare information and attend taxpayer appeal hearings before the Tax Equalization Review Commission to defend the value.

Attend hearing for statewide equalization if applicable to the county to defend the county value.

Attend meetings, workshops, and education classes to obtain hours to maintain the assessor certification.

A budget increase of three percent will be submitted to the County Board for the 2018-2019 budget year. Money will be budgeted in the Appraisal Fund for the maintenance of the vehicle for the Assessor's Office to review property in the Appraisal Fund.

Strive to maintain an efficient and professional office.

Respectfully submitted,

Dated\_\_\_\_\_

Linda A. Dallman Franklin County Assessor
