

# 2022 REPORTS AND OPINIONS OF THE PROPERTY TAX ADMINISTRATOR

### **HAYES COUNTY**

THE STATE OF THE S

April 7, 2022

Pete Ricketts. Governor

#### Commissioner Keetle:

The Property Tax Administrator has compiled the 2022 Reports and Opinions of the Property Tax Administrator for Hayes County pursuant to Neb. Rev. Stat. § 77-5027. This Report and Opinion will inform the Tax Equalization and Review Commission of the level of value and quality of assessment for real property in Hayes County.

The information contained within the County Reports of the Appendices was provided by the county assessor pursuant to Neb. Rev. Stat. § 77-1514.

For the Tax Commissioner

Sincerely,

Ruth A. Sorensen

Property Tax Administrator

Kuth a. Sorensen

402-471-5962

cc: Susan Messersmith, Hayes County Assessor

#### Introduction

Pursuant to Neb. Rev. Stat. § 77-5027, annually, the Property Tax Administrator (PTA) shall prepare and deliver to each county assessor and to the Tax Equalization and Review Commission (Commission) the Reports and Opinions (R&O). The R&O contains statistical and narrative reports informing the Commission of the certified opinion of the PTA regarding the level of value and the quality of assessment of the classes and subclasses of real property in each county. In addition, the PTA may make nonbinding recommendations for class or subclass adjustments for consideration by the Commission.

The statistical and narrative reports in the R&O provide an analysis of the assessment process implemented by each county to reach the levels of value and quality of assessment required by Nebraska law. The PTA's opinion of the level of value and quality of assessment in each county, is a conclusion based upon all the data provided by the county assessor and information gathered by the Nebraska Department of Revenue, Property Assessment Division (Division) regarding the assessment activities in the county during the preceding year.

The statistical reports are developed using the statewide sales file that contains all transactions as required by Neb. Rev. Stat. § 77-1327. From this state sales file, a statistical analysis comparing assessments to sale prices for arm's-length sales (assessment sales ratio) is prepared. After analyzing all available information to determine that the sales represent the class or subclass of real property being measured, inferences are drawn regarding the level of assessment and quality of assessment of that class or subclass of real property. The statistical reports contained in the R&O are developed based on standards developed by the International Association of Assessing Officers (IAAO).

The analysis of assessment practices in each county is necessary to give proper context to the statistical inferences from the assessment sales ratio studies and the overall quality of assessment in the county. The assessment practices are evaluated in the county to ensure generally accepted mass appraisal techniques are used and that those methods will generally produce uniform and proportionate valuations.

The PTA considers the statistical reports and the analysis of assessment practices when forming conclusions for both the level of value and quality of assessment. The consideration of both the statistical indicators and assessment processes used to develop valuations is necessary to accurately determine the level of value and quality of assessment. Assessment practices that produce a biased sales file will generally produce a biased statistical indicator, which, on its face, would otherwise appear to be valid. Likewise, statistics produced on small, unrepresentative, or otherwise unreliable samples, may indicate issues with assessment uniformity and assessment level – however, a detailed review of the practices and valuation models may suggest otherwise. For these reasons, the detail of the PTA's analysis is presented and contained within the Residential, Commercial, and Agricultural land correlations of the R&O.

#### **Statistical Analysis:**

Before relying upon any calculated statistical measures to evaluate the assessment performance of the county assessor, the Division staff must evaluate whether the statistical sample is both representative of the population and statistically reliable.

A statistically sufficient reliable sample of sales is one in which the features of the sample contain information necessary to compute an estimate of the population. To determine whether the sample of sales is sufficient in size to evaluate the class of real property, measures of reliability are considered, such as the coefficient of dispersion (COD) or the width of the confidence interval. Generally, the broader the qualitative measures, the more sales will be needed to have reliability in the ratio study.

A representative sample is a group of sales from a larger population of parcels, such that statistical indicators calculated from the sample can be expected to reflect the characteristics of the sold and unsold population being studied. The accuracy of statistics as estimators of the population depends on the degree to which the sample represents the population.

Since multiple factors affect whether a sample is statistically sufficient, reliable, and representative, single test thresholds cannot be used to make determinations regarding sample reliability or representativeness.

For the analysis in determining a point estimate of the level of value, the PTA considers three measures as indicators of the central tendency of assessment: the median ratio, weighted mean ratio, and mean ratio. The use and reliability of each measure is based on inherent strengths and weaknesses which are the quantity and quality of the information from which it was calculated and the defined scope of the analysis.

The median ratio is considered the most appropriate statistical measure to determine a level of value for direct equalization, which is the process of adjusting the values of classes or subclasses of property in response to an unacceptable required level of value. Since the median ratio is considered neutral in relationship to either assessed value or selling price, adjusting the class or subclass of properties based upon the median measure will not change the relationships between assessed value and level of value already present in the class of property. Additionally, the median ratio is less influenced by the presence of extreme ratios, commonly called outliers, which can skew the outcome in the other measures.

The weighted mean ratio best reflects a comparison of the fully assessable valuation of a jurisdiction, by measuring the total assessed values against the total of selling prices. The weighted mean ratio can be heavily influenced by sales of large-dollar property with extreme ratios.

The mean ratio is used as a basis for other statistical calculations, such as the Price Related Differential (PRD) and Coefficient of Variation (COV). As a simple average of the ratios, the mean ratio has limited application in the analysis of the level of value because it assumes a normal

distribution of the data set around the mean ratio with each ratio having the same impact on the calculation regardless of the assessed value or the selling price.

The quality of assessment relies in part on statistical indicators as well. If the weighted mean ratio, because of its dollar-weighting feature, is significantly different from the mean ratio, it may be an indication of disproportionate assessments. Assessments are disproportionate when properties within a class are assessed at noticeably different levels of market value. The coefficient produced by this calculation is referred to as the PRD and measures the assessment level of lower-priced properties relative to the assessment level of higher-priced properties.

The Coefficient of Dispersion (COD) is a measure also used in the evaluation of assessment quality. The COD measures the average absolute deviation calculated about the median and is expressed as a percentage of the median. A COD of 15% indicates that half of the assessment ratios are expected to fall within 15% of the median. The closer the ratios are grouped around the median the more equitable the property assessments tend to be.

The confidence interval is another measure used to evaluate the reliability of the statistical indicators. The PTA primarily relies upon the median confidence interval, although the mean and weighted mean confidence intervals are calculated as well. While there are no formal standards regarding the acceptable width of such measure, the range established is often useful in determining the range in which the true level of value is expected to exist. Pursuant to Neb. Rev. Stat. §77-5023, the acceptable range is 69% to 75% of actual value for agricultural land and 92% to 100% for all other classes of real property.

Nebraska law does not provide for a range of acceptability for the COD or PRD; however, the IAAO Standard on Ratio Studies establishes the following range of acceptability for the COD:

| General Property Class   | Jurisdiction Size/Profile/Market Activity                                     | COD Range   |
|--|---|-------------|
| Residential improved (single family                                  | Very large jurisdictions/densely populated/newer properties/active markets    | 5.0 to 10.0 |
| dwellings, condominiums, manuf.                                      | Large to mid-sized jurisdictions/older & newer properties/less active markets | 5.0 to 15.0 |
| housing, 2-4 family units)   | Rural or small jurisdictions/older properties/depressed market areas          | 5.0 to 20.0 |
| b  | Very large jurisdictions/densely populated/newer properties/active markets    | 5.0 to 15.0 |
| Income-producing properties (commercial,<br>industrial, apartments,) | Large to mid-sized jurisdictions/older & newer properties/less active markets | 5.0 to 20.0 |
| illoustrial, apartificitis,)   | Rural or small jurisdictions/older properties/depressed market areas          | 5.0 to 25.0 |
| 10 Harris Hawa 12 Co.  | Very large jurisdictions/rapid development/active markets                     | 5.0 to 15.0 |
| Residential vacant land  | Large to mid-sized jurisdictions/slower development/less active markets       | 5.0 to 20.0 |
| 111111111111111111111111111111111111111                              | Rural or small jurisdictions/little development/depressed markets             | 5.0 to 25.0 |
|  | Very large jurisdictions/rapid development/active markets                     | 5.0 to 20.0 |
| Other (non-agricultural) vacant land                                 | Large to mid-sized jurisdictions/slower development/less active markets       | 5.0 to 25.0 |
|  | Rural or small jurisdictions/little development/depressed markets             | 5.0 to 30.0 |

A COD under 5% indicates that the properties in the sample are either unusually homogenous, or possibly indicative of a non-representative sample due to the selective reappraisal of sold parcels. The IAAO utilizes varying upper bounds for the COD range to recognize that sample size, property type, variation of property ages and market conditions directly impact the COD. This chart and the analyses of factors impacting the COD are considered to determine whether the calculated COD is within an acceptable range. The reliability of the COD can also be directly affected by extreme ratios.

The PRD range stated in IAAO standards is 98% to 103%. A perfect match in assessment level between the low-dollar properties and high-dollar properties indicates a PRD of 100%. The reason for the extended range on the high end is IAAO's recognition of the inherent bias in assessment. The IAAO Standard on Ratio Studies notes that the PRD is sensitive to sales with higher prices even if the ratio on higher priced sales do not appear unusual relative to other sales, and that small samples, samples with high dispersion, or extreme ratios may not provide an accurate indication of assessment regressivity or progressivity, appraisal biases that occur when high-value properties are appraised higher or lower than low-value properties in relation to market values.

### **Analysis of Assessment Practices:**

A review of the assessment practices that ultimately affect the valuation of real property in each county is completed. This review is done to ensure the reliability of the statistical analysis and to ensure generally accepted mass appraisal techniques are used to establish uniform and proportionate valuations. The review of assessment practices is based on information provided by the county assessors in Assessment Surveys and Assessed Value Updates (AVU), along with observed assessment practices in the county.

To ensure county assessors are submitting all Real Estate Transfer Statements, required for the development of the state sales file pursuant to Neb. Rev. Stat. §77-1327, a random sample from the county registers of deeds' records is audited to confirm that the required sales have been submitted and reflect accurate information. The timeliness of the submission is also reviewed to ensure the sales file allows analysis of up-to-date information. The sales verification and qualification procedures used by the county assessors are reviewed to ensure that sales are properly considered arm's-length transactions unless determined to be otherwise through the verification process. Proper sales verification practices ensure the statistical analysis is based on an unbiased sample of sales.

Comparison of valuation changes on sold and unsold properties is conducted to ensure that there is no bias in the assessment of sold parcels and that the sales file adequately represents the population of parcels in the county.

Valuation groups and market areas are also examined to identify whether the groups and areas being measured truly represent economic areas within the county. The measurement of economic areas is the method by which the PTA ensures intra-county equalization exists. The progress of the county assessor's six-year inspection and review cycle is documented to ensure compliance with <a href="Neb. Rev. Stat.">Neb. Rev. Stat.</a> § 77-1311.03 and also to confirm that all property is being uniformly listed and described for valuation purposes.

Valuation methodologies developed by the county assessor are reviewed for both appraisal logic and to ensure compliance with generally accepted mass appraisal techniques. Methods and sales used to develop lot values, agricultural outbuildings, and agricultural site values are also reviewed to ensure the land component of the valuation process is based on the local market and economic area.

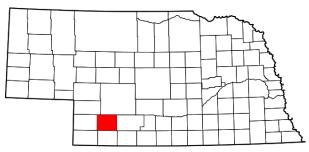

Compliance with statutory reporting requirements is also a component of the assessment practices review. Late, incomplete, or excessive errors in statutory reports can be problematic for property owners, county officials, the review done by Division staff, the Commission, and others. The late, incomplete, or excessive errors in statutory reporting highlights potential issues in other areas of the assessment process. Public trust in the assessment process demands transparency, and assessment practices are reviewed to ensure taxpayers are served with such transparency.

Comprehensive review of assessment practices in each county is conducted throughout the year. When practical, if potential issues are identified, they are presented to the county assessor for clarification and correction, if necessary. The county assessor can then work to implement corrective measures prior to establishing assessed values. The PTA's conclusion that assessment quality either meets or does not meet generally accepted mass appraisal techniques is based on the totality of the assessment practices in the county.

\*Further information may be found in Exhibit 94

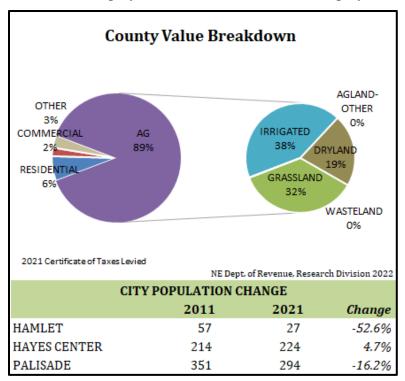

### **County Overview**

With a total area of 713 square miles, Hayes County has 856 residents, per the Census Bureau Quick Facts for 2020, a 12% population decline from the 2010 U.S. Census. Reports indicate that 75% of county residents are homeowners and 96% of residents occupy the same residence as in the prior year (Census Quick Facts). The average

home value is \$56,678 (2021 Average Residential Value, Neb. Rev. Stat. § 77-3506.02).

There are few commercial parcels in Hayes County and the majority are located in and around the county seat of Hayes Center. According to information available from the U.S. Census Bureau, there are 19 employer establishments with total employment of 45, a 17% decrease from 2019.

Agricultural land is the single largest contributor to the county's valuation base. Irrigated land makes up a majority of the land in the county. Hayes County is included in the Middle Republican Natural Resources District (NRD).

### 2022 Residential Correlation for Hayes County

#### Assessment Actions

For the 2022 assessment year, Township 5 in southern Hayes county was physically reviewed. The rural residential first acre was raised to \$15,000 to account for installation of water, electric and sewer. Lot values in the villages were also increased.

#### Assessment Practice Review

As explained in the Introduction of this Report and Opinion, the assessment practices were reviewed to determine compliance with all assessment requirements and to ensure that all data submitted to the State sales file was timely and accurate.

The Hayes County Assessor maintains acceptable sales qualification and verification practices. Review of qualified and non-qualified sales supported that qualification determinations appear to have been made without bias. Costing is dated 2013 for all residential properties and depreciation tables are dated 2016 for all residential parcels; conversations with the county assessor indicate costing tables will be updated for the next assessment year. The county is up to date with the six-year inspection cycle requirements. The assessor has a valuation methodology in place.

### Description of Analysis

Residential property in Hayes County is divided into three valuation groups based on economic differences. Hayes County is quite rural with very little residential market activity.

| Valuation Group | Description      |
|-----------------|------------------|
| 1               | Hayes Center     |
| 2               | Hamlet, Palisade |
| 4               | Rural            |

The overall residential class is high for all three measures of central tendency. However, when the sales are stratified by study year, the median does show decreasing medians, and therefore an increasing market. A reduction based on the midpoint will likely result in an increase next year. There were minimal actions to the residential class for this year; therefore, a decrease would create erratic changes for multiple assessment years.

| Study Yrs              | COUNT | MEDIAN | MEAN   | WGT.MEAN | COD   | PRD    |
|------------------------|-------|--------|--------|----------|-------|--------|
| 01-OCT-19 To 30-SEP-20 | 7     | 109.02 | 130.42 | 114.12   | 25.39 | 114.28 |
| 01-OCT-20 To 30-SEP-21 | 7     | 93.65  | 112.65 | 90.01    | 41.75 | 125.15 |
|                        |       |        |        |          |       |        |

Both the COD and PRD are high in the sample. The high COD reflects a large amount of dispersion in the sample. Additionally, half of the sales in the sample are in the village of Hamlet, which,

### 2022 Residential Correlation for Hayes County

with only 33 total improved parcels, only accounts for 15% of the residential population. Thus, the sales file does not accurately represent the residential population.

The 2022 County Abstract of Assessment for Real Property, Form 45 to the 2021 Certificate of Taxes Levied Report (CTL) which shows the general residential population and the sample changed at a similar rate, reflecting the stated actions of increased land values for all residential properties in the county. Additional analysis shows that the valuation changes to sales in Hayes County are similar to those in the region.

### Equalization and Quality of Assessment

The sample of the residential class in Hayes County is does not represent the population. However, when other information is analyzed, the assessments appear to be uniform and proportionate across the residential class. Changes made to land values are comparable to those of neighboring counties. The quality of assessment of the residential class of property in Hayes County complies with generally accepted mass appraisal techniques.

### Level of Value

Based on analysis of all available information, the level of value for the residential property in Hayes County is determined to be at the statutory level of 100% of market value.

### 2022 Commercial Correlation for Hayes County

#### Assessment Actions

Commercial properties in Township 5, the southern part of the county, were physically reviewed this year. Additionally, routine maintenance and pick-up work were completed for Hayes County for this assessment year. Lot values were increased.

#### Assessment Practice Review

As explained in the Introduction of this Report and Opinion, the assessment practices were reviewed to determine compliance with all assessment requirements and to ensure that all data submitted to the State sales file was timely and accurate.

Review of both qualified and non-qualified sales in Hayes County revealed that the county assessor qualifies a similar percentage of commercial sales for measurement purposes when compared to the state average and no apparent bias has been detected in the qualification process. All commercial properties are included in the same valuation group, which is representative of the limited commercial market in the county.

The office staff in the Hayes County Assessor's office conducts physical review on a rotational basis by town or precinct, with all properties in the specified township reviewed on a particular year. The county assessor's staff conducts the review and is in compliance with the six-year inspection and review requirement. Commercial costing is dated 2011 and depreciation tables were reviewed and updated in 2012; conversations with the county assessor have indicated that both will be updated for the next assessment year.

#### Description of Analysis

There are 60 commercial parcels in Hayes County; there are too few sales for statistical measurement. Analysis of the 2022 County Abstract of Assessment for Real Property Form 45 Compared to the 2021 Certificate of Taxes Levied Report (CTL) reflects the land increase, which has a small impact on overall value with a less than 1% value increase excluding growth.

#### Equalization and Quality of Assessment

A review of assessment practices and a comparison of the value change of the sample to the population indicates that the assessment of commercial property in Hayes County is uniform and proportionate. The quality of assessment of commercial property in Hayes County complies with generally accepted mass appraisal techniques.

### Level of Value

Based on analysis of all available information, the level of value for the commercial property in Hayes County is determined to be at the statutory level of values of 100% of market value.

### 2022 Agricultural Correlation for Hayes County

#### Assessment Actions

The Hayes County assessor conducted market analysis and reviewed the agricultural land values in neighboring counties. The county assessor increased irrigated land values 11% to 19% to equalize with neighboring counties. The county assessor physically reviewed agricultural homes in Township 5 in the southern portion of the county and aerial imagery was used to review land use for Township 5. Farm home site values were raised to \$15,000 to account for installation of water, electric, and sewer.

#### Assessment Practice Review

As explained in the Introduction of this Report and Opinion, the assessment practices were reviewed to determine compliance with all assessment requirements and to ensure that all data submitted to the State sales file was timely and accurate.

Agricultural land sales in Hayes County are qualified at a typical rate. Examination of the sales qualification process revealed no apparent bias in the qualification determination. All arm's-length sales have been included in the state sales file for measurement of agricultural land property in the county. All agricultural land sales in the county are grouped into the same market area.

Agricultural homes are valued using a 2016 depreciation table, 2013 costing. Conversations with the county assessor indicate that both costing and depreciation will be updated in the next assessment year. Farm home site values were updated in 2022.

#### Description of Analysis

Agricultural land statistics for Hayes County show the median and weighted mean are within range, with the mean slightly high. The COD meets IAAO standards. When sales are analyzed by 80% Majority Land Use (MLU), all three land classes are within range. Additionally, agricultural land values are determined to be comparable to neighboring counties' values.

### Equalization and Quality of Assessment

Agricultural homes and outbuildings have been valued using the same valuation process as rural residential improvements. Agricultural improvements are equalized and assessed at the statutory level. Agricultural land values are equalized and meet generally accepted mass appraisal techniques.

### **2022** Agricultural Correlation for Hayes County

| 80%MLU By Market Area |       |        |       |          |       |        |
|-----------------------|-------|--------|-------|----------|-------|--------|
| RANGE                 | COUNT | MEDIAN | MEAN  | WGT.MEAN | COD   | PRD    |
| Irrigated             |       |        |       |          |       |        |
| County                | 11    | 69.47  | 74.06 | 68.88    | 18.44 | 107.52 |
| 1                     | 11    | 69.47  | 74.06 | 68.88    | 18.44 | 107.52 |
| Dry                   |       |        |       |          |       |        |
| County                | 16    | 71.31  | 73.51 | 68.18    | 21.88 | 107.82 |
| 1                     | 16    | 71.31  | 73.51 | 68.18    | 21.88 | 107.82 |
| Grass                 |       |        |       |          |       |        |
| County                | 19    | 69.38  | 73.87 | 69.98    | 12.47 | 105.56 |
| 1                     | 19    | 69.38  | 73.87 | 69.98    | 12.47 | 105.56 |
| ALL                   | 56    | 71.89  | 76.05 | 72.83    | 18.32 | 104.42 |

### Level of Value

Based on analysis of all available information, the level of value of agricultural land in Hayes County is 72%.

# 2022 Opinions of the Property Tax Administrator for Hayes County

My opinions and recommendations are stated as a conclusion based on all of the factors known to me regarding the assessment practices and statistical analysis for this county. See, Neb. Rev. Stat. § 77-5027 (R.R.S. 2011). While the median assessment sales ratio from the Qualified Statistical Reports for each class of real property is considered, my opinion of the level of value for a class of real property may be determined from other evidence contained within these Reports and Opinions of the Property Tax Administrator. My opinion of quality of assessment for a class of real property may be influenced by the assessment practices of the county assessor.

| Class                        | Level of Value | Quality of Assessment                               | Non-binding recommendation |  |
|------------------------------|----------------|---|----------------------------|--|
| Residential Real<br>Property | 100            | Meets generally accepted mass appraisal techniques. | No recommendation.         |  |
|                              |                |   |                            |  |
| Commercial Real<br>Property  | 100            | Meets generally accepted mass appraisal techniques. | No recommendation.         |  |
|                              |                |   |                            |  |
| Agricultural Land            | 72             | Meets generally accepted mass appraisal techniques. | No recommendation.         |  |
|                              |                |   |                            |  |

HAYES

Value; 2011 - 2021 CTL

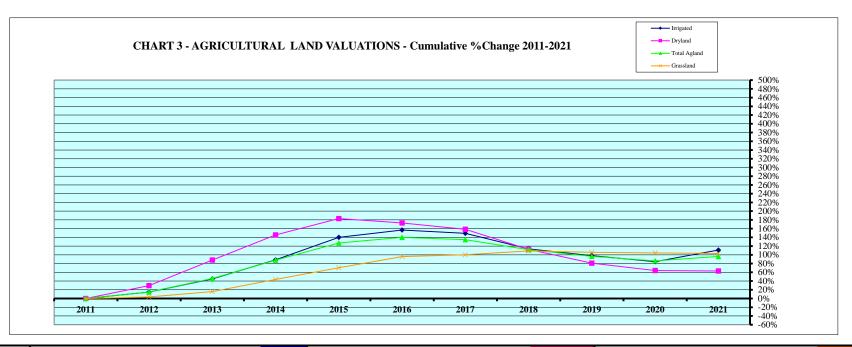

Sources:

NE Dept. of Revenue, Property Assessment Division

Growth Value; 2011-2021 Abstract of Asmnt Rpt.

(1) Residential & Recreational excludes AgDwelling & farm home site land; Comm. & Indust. excludes minerals; Agric. land includes irrigated, dry, grass, waste & other agland, excludes farm site land. Real property growth is value attributable to new construction, additions to existing buildings, and any improvements to real property which increase the value of such property.

| 0   |
| Other full-time employees:  |
| 0   |
| Other part-time employees:  |
| 1   |
| Number of shared employees:   |
| None  |
| Assessor's requested budget for current fiscal year:                            |
| \$112,970   |
| Adopted budget, or granted budget if different from above:                      |
| same  |
| Amount of the total assessor's budget set aside for appraisal work:             |
| \$4,200   |
| If appraisal/reappraisal budget is a separate levied fund, what is that amount: |
| n/a   |
| Part of the assessor's budget that is dedicated to the computer system:         |
| \$14,500  |
| Amount of the assessor's budget set aside for education/workshops:              |
| \$1,570   |
| Amount of last year's assessor's budget not used:                               |
| \$7,520   |
|   |

## **B.** Computer, Automation Information and GIS

| 1.  | Administrative software:  |
|-----|---|
|     | MIPS  |
| 2.  | CAMA software:  |
|     | MIPS  |
| 3.  | Personal Property software:   |
|     | MIPS  |
| 4.  | Are cadastral maps currently being used?                                  |
|     | They are rarely used; no longer maintained.                               |
| 5.  | If so, who maintains the Cadastral Maps?                                  |
|     | N/A   |
| 6.  | Does the county have GIS software?  |
|     | Yes   |
| 7.  | Is GIS available to the public? If so, what is the web address?           |
|     | Yes, www.hayes.gworks.com   |
| 8.  | Who maintains the GIS software and maps?                                  |
|     | The assessor and staff  |
| 9.  | What type of aerial imagery is used in the cyclical review of properties? |
|     | GIS   |
| 10. | When was the aerial imagery last updated?                                 |
|     | 2020  |
|     |   |

# C. Zoning Information

| 1. | Does the county have zoning?     |
|----|----------------------------------|
|    | Yes                              |
| 2. | If so, is the zoning countywide? |
|    |                                  |
|    | Yes                              |

| 3. | What municipalities in the county are zoned? |
|----|--|
|    | Hayes Center and Palisade are zoned.         |
| 4. | When was zoning implemented?                 |
|    | 1998   |

## **D. Contracted Services**

| 1. | Appraisal Services:   |
|----|---|
|    | Pritchard & Abbott for the appraisal of oil and gas mineral interests |
| 2. | GIS Services:   |
|    | gWorks, Inc   |
| 3. | Other services:   |
|    | NA  |

## E. Appraisal /Listing Services

| 1. | List any outside appraisal or listing services employed by the county for the current assessment year |
|----|---|
|    | Yes, Pritchard & Abbott   |
| 2. | If so, is the appraisal or listing service performed under contract?                                  |
|    | Yes   |
| 3. | What appraisal certifications or qualifications does the County require?                              |
|    | The county does not specify qualifications.   |
| 4. | Have the existing contracts been approved by the PTA?   |
|    | Yes   |
| 5. | Does the appraisal or listing service providers establish assessed values for the county?             |
|    | The oil and gas mineral values are established by Pritchard and Abbott.                               |

# **2022** Residential Assessment Survey for Hayes County

|                                 | Valuation da  | ata collection done by:  |  |  |  |  |  |
|---------------------------------|---|--|--|--|--|--|--|
|                                 | The assessor and deputy assessor  |  |  |  |  |  |  |
| 2.                              | List the valuation group recognized by the County and describe the unique characteristics of each:  |  |  |  |  |  |  |
|                                 | Valuation<br>Group  | Description of unique characteristics  |  |  |  |  |  |
|                                 | 1   | Hayes Center - county seat, contains the only school system in the county and the only services/amenities located in the county.   |  |  |  |  |  |
|                                 | 2   | Hamlet/Palisade - very small communities with no organized market  |  |  |  |  |  |
|                                 | 4   | Rural - rural residential housing is in demand in Hayes County, making these properties incomparable to those found in the villages.   |  |  |  |  |  |
|                                 | AG OB   | Agricultural outbuildings  |  |  |  |  |  |
|                                 | AG DW   | Agricultural dwellings   |  |  |  |  |  |
| 3.                              | List and desc   | cribe the approach(es) used to estimate the market value of residential properties.  |  |  |  |  |  |
|                                 | Only the cost   | approach is used by the county when developing residential property values.  |  |  |  |  |  |
| 4.                              |   | et approach does the County develop the deprecation study(ies) based on the local rmation or does the county use the tables provided by the CAMA vendor?   |  |  |  |  |  |
|                                 | Yes, depreciation tables are developed using local market information.  |  |  |  |  |  |  |

|     | N/A   |                         |  |  |  |  |
| 7a. | Are any other agricultural subclasses used? If yes, please explain.   |                         |  |  |  |  |
|     | CREP, CRP   |                         |  |  |  |  |
|     | If your county has special value applications, please answer the following  |                         |  |  |  |  |
|     | How many parcels have a special valuation application on file?  |                         |  |  |  |  |
| 8a. |   |                         |  |  |  |  |
| 8a. | N/A   |                         |  |  |  |  |

|     | The assessor sends sales questionnaires. If they are not returned, the assessor may attempt to contact the buyer or seller by phone for more information about the sale. |  |  |  |  |  |
|-----|--|--|--|--|--|--|
|     | If your county recognizes a special value, please answer the following   |  |  |  |  |  |
| 8c. | Describe the non-agricultural influences recognized within the county.   |  |  |  |  |  |
|     | N/A  |  |  |  |  |  |
| 8d. | Where is the influenced area located within the county?  |  |  |  |  |  |
|     | N/A  |  |  |  |  |  |
| 8e. | Describe in detail how the special values were arrived at in the influenced area(s).   |  |  |  |  |  |
|     | N/A  |  |  |  |  |  |

### 2021 Plan of Assessment for Hayes County Assessment Years 2022, 2023 and 2024 July 31, 2021

### **Plan of Assessment Requirements:**

Pursuant to NE State Statue, 77-1311.02, on or before June 15 each year, the assessor shall prepare a plan of assessment, which describes the assessment actions planned for the next assessment year and two years thereafter. This plan is to be presented to the county board of equalization on or before July 31 each year and to the Department of Revenue on or before October 31 each year.

### **Assessment requirements for Real Property**

All real property in the State of Nebraska is subject to taxation unless expressly exempt by Nebraska Statues or the Nebraska Constitution. All real property other than agricultural land and horticultural land shall be valued at 92-100% of its actual value. Agricultural and horticultural land shall be valued at 69-75% of the actual value. Personal Property shall be valued at its net book value.

### General description of Real Property in Hayes County

Per the March 2021 County Abstract, prior to protests, Hayes County consists of the following real property types:

|                 | Parcels | Land/Min Value   | Impr Value       | Total Value      | %<br>Value |
|-----------------|---------|------------------|------------------|------------------|------------|
| Residential/Rec | 322     | \$751,660.00     | \$10,835,790.00  | \$11,587,450.00  | 2.52       |
| Commercial/Ind  | 60      | \$148,965.00     | \$9,581,795.00   | \$9,730,760.00   | 2.11       |
| Agricultural    | 2104    | \$407,276,455.00 | \$30,444,245.00  | \$437,720,700.00 | 95.31      |
| Mineral         | 14      | \$ 197,960.00    | \$               | \$197,960.00     | 0.43       |
| Total           | 2460    | \$408,375,040.00 | \$50,861,8300.00 | \$459,236,870.00 | 100        |

#### **Current Resources:**

#### Staff & Training

Due to the population of Hayes County, the County Clerk is required to be an ex-officio County official who must perform the duties of the Assessor, Register of Deeds, Clerk of District Court and Election Commissioner. A valid Nebraska Assessor's Certificate is required in order to file for or assume the position of County Clerk. Current staff consists of the Clerk/Assessor, one full time Deputy and one part time office helper. The Clerk and Deputy Clerk hold valid Nebraska Assessor Certificates.

The 60 hours of education required during the current re-certification period ending December 31, 2022 will be met by all office personnel currently holding an assessor certificate.

#### **Budget**

The Assessor's budget is sufficient to cover the upcoming expenses of office operation.

### 2021-2022 Budget

| Salaries                         | \$91,020.00 |
|----------------------------------|-------------|
| Office Operation & Misc          | \$14,500.00 |
| Office Equip & Supply & Training | \$2,250.00  |
| Pickup appraisal work            | \$5,200.00  |

#### **Hardware and Software:**

Hayes County uses MIPs CAMA and Administrative software for parcel record keeping. GIS Workshop is used to map parcels, land use and soil type. This system replaces the need to update the current cadastral maps. Three new computers, with required hardware specifications to run GIS workshop and maps, were purchased in 2020. Also purchased in 2020 is a Microsoft Surface Pro Tablet that will be used for pickup work.

GIS Workshop has built a web-based appraisal /assessment page for Hayes County. The web page allows anyone with internet access to search for real estate records and information via the internet. We have made efforts to notify the public of this web page through publication in the newspaper, mailings, and informing people in person and by phone.

### **Property Record Cards**

All property record cards are updated annually, or as needed, with hard copies of the current information. Each Property Record Card includes the following information:

Current owner and address (if applicable, a situs address if different from owners mailing address) Legal description of parcel

A property record break down report detailing:

History of property
Codes relating to taxing districts,
Property classification codes,
Soil types and use by acre and total acres
Current and previous valuation
Book and pages of last deed record

#### **Assessment Procedures**

### Discover, List and Inventory all property:

All real and personal property subject to taxation shall be assessed as of January 1, current year. The appropriate paperwork for ownership changes, splits and combinations are completed according to statutory requirements. All sales are considered to be arm's length, unless through the verification process, it is proven to be otherwise. Sales questionnaires are sent to both seller and buyer to assist in completing the sales review process.

**Data Collection:** Hayes County will implement procedures to complete a physical inspection of all properties on a six-year cycle.

**Real Property Improvements**: Hayes County uses various methods of discovering changes in real property. County and village zoning permits, personal property depreciation schedules, reports of taxpayers, realtors and appraisers, information on sales questionnaires and ongoing physical inspections by staff and other sources are all used as means of discovery.

**Homestead Exemptions:** Homestead exemption applications are normally accepted in the office from February 1<sup>st</sup> through June 30 of each year. Letters containing pre-printed applications are sent to previous applicants. When returned, they are verified that the applicant is owner/occupant. Applications are entered in the Centurion Program and are then forwarded to the Nebraska Department of Revenue for income verification.

**Personal Property:** Personal property data is gathered primarily using the taxpayer's federal income tax depreciation schedules. All Real Estate Transfer Form 521's with non-real property value excluded from the purchase price are required to provide an itemized listing of such personal property. This information is used the following year for personal property schedule updates. Personal property filing forms are sent to each property owner the beginning of March and deadline reminders are published in the local paper twice prior to the filing deadline. Non-responders are contacted by phone prior to the deadline.

**Ag Land:** Currently, ag land details are gathered from several sources. Irrigated land acres are cross referenced with a listing of owner certified acres at the NRD. CREP and CRP contracts are also used as information sources. Visual inspection along with surveys verifies land usage and size. We use GIS to identify and keep current on ag land use.

**Improvements on Leased Land**: IOLL data is gathered in the same manner as real property improvements. Current ownership of IOLL's on school land is updated after each Board of Educational Lands and Funds auction.

### Level of Value, Quality and Uniformity for assessment year 2021

Sales rosters provided by the state along with the "what if" spread sheet are used when reviewing the level of value. Information for the following chart was taken from the summary sheets of 2020 Reports and Opinions of the Property Tax Administrator.

| <b>Property Class</b> | Median |
|-----------------------|--------|
| Residential           | 100    |
| Commercial            | 100    |
| Agriculture           | 73     |

The office will continue to work with our Liaison to maintain appraisal ratios which comply with Department of Revenue, Property Assessment Division requirements.

|             | Median  | COD  | PRD     |
|-------------|---------|------|---------|
| Residential | 92-100% | < 15 | 98-103% |
| Commercial  | 92-100% | < 20 | 98-103% |
| Agland      | 69-75%  | < 20 | 98-103% |

### Other Functions Performed by the Assessor's Office

- 1. Record Maintenance, mapping updates, ownership changes and pickup work
- 2. Annually prepare and file Assessor Administrative Reports required by law/regulation:
  - \* Abstracts (Real & Personal Property)
  - \* Assessor survey
  - \* Sales information to PA&T rosters and annual Assessed Value Update w/Abstract
  - \* Certification of Value to Political Subdivisions
  - \* School District Taxable Value Report
  - \* Homestead Exemption and Tax Loss Report
  - \* Certificate of Taxes Levied Report
  - \* Report of current values for properties owned by Board of Education Lands & Funds
  - \* Report of all Exempt Property and Taxable Government Owned Property
  - \* Report of average assessed value in Hayes County of single-family residential property
  - \* Annual Plan of Assessment Report

- 3. Send Personal Property schedules; administer annual filing of personal property schedules, prepare subsequent notices for incomplete filings or failure to file and penalties applied, as required.
- 4. Permissive Exemptions: administer annual filings of applications for new or continued exempt use, review and make recommendations to county board.

- 15. Education; Assessor education- attend meetings, workshops and educational classes to obtain 60 hours of continuing education to maintain assessor certification.

#### **Assessment Actions Planned for Assessment Year 2022**

Ag Land: A market analysis of ag sales by land classification groups will be conducted to determine any possible adjustments needed to comply with statistical range requirements. All qualified sales with sale information (ie, date of sale, type of land, selling price) are plotted on a county map to aid in the public education process. Reviews will be done based on GIS aerial maps.

Residential and Commercial: Residential and commercial parcels will be reviewed based on sales information and statistical data. Pickup work of new construction, remodeling and removals will be completed annually as well as a review of all sales. Depreciation tables for dwellings will be reviewed and updated according to current sales information. The miscellaneous building component value pricing sheet pricing will be reviewed

Pick-up work for all classes of property will be conducted. County & Village building and zoning permits will be monitored and inspected along with new lad sales locations. A pickup list for future site visits is continuously being updated. We will continue the current process of sending sales questionnaires to all sellers and buyers to assist in the maintenance of the sales file. Hayes County will comply with the systematic inspection and review requirements of §77-1311.03. A physical inspection and a GIS Review of Township 6-N will be completed this year.
