**I.
ISSUES**

The Taxpayer has asserted that actual value of the subject property as of January 1, 2006, is greater than actual value as determined by the County Board. The issues on appeal related to that assertion are:

2. The parcel of real property to which this appeal pertains is described as See attached Exhibit "A", Red Willow County, Nebraska, ("the subject property").
3. Actual value of the subject property placed on the assessment roll as of January 1, 2006, ("the assessment date") by the Red Willow County Assessor, value as proposed in a timely protest, and actual value as determined by the County Board is shown in the following table:

**III.
APPLICABLE LAW**

1. Subject matter jurisdiction of the Commission in this appeal is over issues raised during the county board of equalization proceedings. *Arcadian Fertilizer, L.P. v. Sarpy County Bd. of Equalization*, 7 Neb.App. 655, 584 N.W.2d 353, (1998).
2. “Actual value is the most probable price expressed in terms of money that a property will bring if exposed for sale in the open market, or in an arm’s length transaction, between a willing buyer and a willing seller, both of whom are knowledgeable concerning all the uses to which the real property is adapted and for which the real property is capable of being used. In analyzing the uses and restrictions applicable to real property the analysis shall include a full description of the physical characteristics of the real property and an identification of the property rights valued.” Neb. Rev. Stat. §77-112 (Reissue 2003).
3. Actual value may be determined using professionally accepted mass appraisal methods, including, but not limited to, the (1) sales comparison approach using the guidelines in section 77-1371, (2) income approach, and (3) cost approach. Neb. Rev. Stat. §77-112 (Reissue 2003).

4. Use of all of the statutory factors for determination of actual value is not required. All that is required is use of the applicable factors. *First National Bank & Trust of Syracuse v. Otoe Cty.*, 233 Neb. 412, 445 N.W.2d 880 (1989).
5. “Actual value, market value, and fair market value mean exactly the same thing.” *Omaha Country Club v. Douglas County Board of Equalization, et al.*, 11 Neb.App. 171, 180, 645 N.W.2d 821, 829 (2002).
6. Taxable value is the percentage of actual value subject to taxation as directed by section 77-201 of Nebraska Statutes and has the same meaning as assessed value. Neb. Rev. Stat. §77-131 (Reissue 2003).
7. All taxable real property, with the exception of qualified agricultural land and horticultural land, shall be valued at actual value for purposes of taxation. Neb. Rev. Stat. §77-201(1) (Cum. Supp. 2006).
8. A presumption exists that the County Board has faithfully performed its duties and has acted on competent evidence. *Omaha Country Club v. Douglas County Bd. of Equalization*, 11 Neb.App. 171, 645 N.W.2d 821 (2002).
9. The presumption that a county board of equalization has faithfully performed its official duties in making an assessment and has acted upon sufficient competent evidence to justify its action remains until there is competent evidence to the contrary presented, and the presumption disappears when there is competent evidence adduced on appeal to the contrary. *Omaha Country Club v. Douglas County Bd. of Equalization*, 11 Neb.App. 171, 645 N.W.2d 821 (2002).

10. The presumption in favor of the county board may be classified as a principle of procedure involving the burden of proof, namely, a taxpayer has the burden to prove that action by a board of equalization fixing or determining valuation of real estate for tax purposes is unauthorized by or contrary to constitutional or statutory provisions governing taxation. *Gordman Properties Company v. Board of Equalization of Hall County*, 225 Neb. 169, 403 N.W.2d 366 (1987) (citations omitted)
11. The Commission can grant relief only if there is clear and convincing evidence that the action of the County Board was unreasonable or arbitrary. See, Neb. Rev. Stat. §77-5016 (8) (Cum. Supp. 2006), and e.g. *Omaha Country Club v. Douglas Cty. Bd. of Equal.*, 11 Neb.App. 171, 645 N.W.2d 821 (2002).
12. "Clear and convincing evidence means and is that amount of evidence which produces in the trier of fact a firm belief or conviction about the existence of a fact to be proved." *Castellano v. Bitkower*, 216 Neb. 806, 812, 346 N.W.2d 249, 253 (1984).
13. A decision is "arbitrary" when it is made in disregard of the facts and circumstances and without some basis which could lead a reasonable person to the same conclusion. *Phelps Cty. Bd. of Equal. v. Graf*, 258 Neb 810, 606 N.W.2d 736, (2000).
14. A decision is unreasonable only if the evidence presented leaves no room for differences of opinion among reasonable minds. *Pittman v. Sarpy Cty. Bd. of Equal.*, 258 Neb 390, 603 N.W.2d 447, (1999).
15. "An owner who is familiar with his property and knows its worth is permitted to testify as to its value." *U. S. Ecology v. Boyd County Bd. Of Equalization*, 256 Neb. 7, 16, 588 N.W.2d 575, 581, (1999).

16. The County Board need not put on any evidence to support its valuation of the property at issue unless the taxpayer establishes the Board's valuation was unreasonable or arbitrary. *Bottorf v. Clay County Bd. of Equalization*, 7 Neb.App. 162, 168, 580 N.W.2d 561, 566 (1998).
17. A Taxpayer, who only produced evidence that was aimed at discrediting valuation methods utilized by county assessor, failed to meet burden of proving that value of property was not fairly and proportionately equalized or that valuation placed upon property for tax purposes was unreasonable or arbitrary. *Beynon v. Board of Equalization of Lancaster County*, 213 Neb. 488, 329 N.W.2d 857 (1983).
18. Taxpayer must introduce competent evidence of actual value of the subject property in order to successfully claim that the subject property is overvalued. *Lincoln Tel. and Tel. Co. v. County Bd. Of Equalization of York County*, 209 Neb. 465, 308 N.W.2d 515 (1981).

IV. ANALYSIS

The subject property is an improved commercial parcel. The parcel is improved with a 2 story, 14,290 square foot brick building built in 1925. (E4:2). The prior use of the parcel was as a school. The parcel has been unused for several years. The parcel sold twice after school use ceased. (E4:1). The first sale was for an amount less than actual value as determined by the County Board and the second for an amount greater than actual value as determined by the County Board.

Actual value of the subject property was determined by the County Board based on the cost approach. (E4:3). The Cost Approach includes six steps: “(1) Estimate the land (site) value as if vacant and available for development to its highest and best use; (2) Estimate the total cost new of the improvements as of the appraisal date, including direct costs, indirect costs, and entrepreneurial profit from market analysis; (3) Estimate the total amount of accrued depreciation attributable to physical deterioration, functional obsolescence, and external (economic) obsolescence; (4) Subtract the total amount of accrued depreciation from the total cost new of the primary improvements to arrive at the depreciated cost of improvements; (5) Estimate the total cost new of any accessory improvements and site improvements, then estimate and deduct all accrued depreciation from the total cost new of these improvements; (6) Add site value to the depreciated cost of the primary improvements, accessory improvements, and site improvements, to arrive at a value indication by the cost approach.” *Property Assessment Valuation*, 2nd Ed., International Association of Assessing Officers, 1996, pp. 128 - 129.

The Taxpayer contends that the County Boards use of the cost approach was flawed in two respects; First that replacement cost new as determined was incorrect, and Second that depreciation taken was too high. The Taxpayer contended that replacement cost new should be calculated based on \$100/square foot. Replacement cost new would be \$1,429,000 at that rate ($\$100/\text{square foot} \times 14,290 = \$1,429,000$). The Taxpayer testified that the improvement was in sound condition with a new roof, a good heating system, good windows, that asbestos remediation was not needed and that depreciation as determined by the County Board was excessive. Options to purchase one-half of the unimproved land in the parcel suggest

assignment of a greater amount to the contribution to value of the land component and assignment of even greater depreciation to the improvements than determined by the County Board.

The taxpayer further testified that actual value of the subject property based on the cost approach was \$450,000. The Taxpayer did not describe all of the calculations using the cost approach, necessary to reach his conclusion that the parcel's actual value as of January 1, 2006 was \$450,000. The Commission cannot speculate and cannot grant relief
