

**BEFORE THE NEBRASKA TAX EQUALIZATION
AND REVIEW COMMISSION**

JEAN V. FAULCONBRIDGE,)	
)	
Appellant,)	Case No. 07R-538
)	
v.)	DECISION AND ORDER
)	AFFIRMING THE DECISION OF
DOUGLAS COUNTY BOARD OF)	THE DOUGLAS COUNTY BOARD OF
EQUALIZATION,)	EQUALIZATION
)	
Appellee.)	

The above-captioned case was called for a hearing on the merits of an appeal by Jean V. Faulconbridge ("the Taxpayer") to the Tax Equalization and Review Commission ("the Commission"). The hearing was held in the Commission's Hearing Room on the sixth floor of the Nebraska State Office Building in the City of Lincoln, Lancaster County, Nebraska, on February 2, 2009, pursuant to an Order for Hearing and Notice of Hearing issued November 24, 2008. Commissioners Wickersham and Salmon were present. Commissioner Wickersham was the presiding hearing officer. Commissioner Warnes was excused from participation by the presiding hearing officer. A panel of three commissioners was created pursuant to 442 Neb. Admin. Code, ch. 4, §011 (10/07). Commissioner Hotz was absent. The appeal was heard by a quorum of a panel of the Commission.

Jean V. Faulconbridge was present at the hearing. No one appeared as legal counsel for the Taxpayer.

Thomas S. Barrett, a Deputy County Attorney for Douglas County, Nebraska, was present as legal counsel for the Douglas County Board of Equalization ("the County Board").

The Commission took statutory notice, received exhibits, and heard testimony.

The Commission is required to state its final decision and order concerning an appeal, with findings of fact and conclusions of law, on the record or in writing. Neb. Rev. Stat. §77-5018 (Cum. Supp. 2006). The final decision and order of the Commission in this case is as follows.

**I.
ISSUES**

The Taxpayer has asserted that actual value of the subject property as of January 1, 2007, is less than actual value as determined by the County Board. The issues on appeal related to that assertion are:

Whether the decision of the County Board determining actual value of the subject property is unreasonable or arbitrary; and

The actual value of the subject property on January 1, 2007.

The Taxpayer has asserted that taxable value of the subject property as of January 1, 2007, is not equalized with the taxable value of other real property. The issues on appeal related to that assertion are:

Whether the decision of the County Board determining the equalized taxable value of the subject property is unreasonable or arbitrary;

Whether the equalized taxable value of the subject property was determined by the County Board in a manner and an amount that is uniform and proportionate as required by Nebraska's Constitution in Article VIII §1; and

The equalized taxable value of the subject property on January 1, 2007.

**II.
FINDINGS OF FACT**

The Commission finds and determines that:

1. The Taxpayer has a sufficient interest in the outcome of the above captioned appeal to maintain the appeal.
2. The parcel of real property to which this appeal pertains ("the Subject Property") is described in the table below.
3. Actual value of the subject property placed on the assessment roll as of January 1, 2007, ("the assessment date") by the Douglas County Assessor, value as proposed in a timely protest, and actual value as determined by the County Board is shown in the following table:

Case No. 07R-538

Description: Lot 6 Block 14, Carthage Add, Omaha, Douglas County, Nebraska.

	Assessor Notice Value	Taxpayer Protest Value	Board Determined Value
Land	\$12,600.00	\$In Total	\$12,600.00
Improvement	\$153,800.00	\$In Total	\$143,800.00
Total	\$166,400.00	\$106,920.00	\$156,400.00

4. An appeal of the County Board's decision was filed with the Commission.
5. The County Board was served with a Notice in Lieu of Summons and duly answered that Notice.
6. An Order for Hearing and Notice of Hearing issued on November 24, 2008, set a hearing of the appeal for February 2, 2009, at 1:00 p.m. CST.

7. An Affidavit of Service which appears in the records of the Commission establishes that a copy of the Order for Hearing and Notice of Hearing was served on all parties.
8. Actual value of the subject property as of the assessment date for the tax year 2007 is:

Case No. 07R-538

Land value	\$ 12,600.00
Improvement value	<u>\$143,800.00</u>
Total value	<u>\$156,400.00.</u>

III. APPLICABLE LAW

1. Subject matter jurisdiction of the Commission in this appeal is over all questions necessary to determine taxable value. Neb. Rev. Stat. §77-5016(7) (Supp. 2007).
2. “Actual value is the most probable price expressed in terms of money that a property will bring if exposed for sale in the open market, or in an arm’s length transaction, between a willing buyer and a willing seller, both of whom are knowledgeable concerning all the uses to which the real property is adapted and for which the real property is capable of being used. In analyzing the uses and restrictions applicable to real property the analysis shall include a full description of the physical characteristics of the real property and an identification of the property rights valued.” Neb. Rev. Stat. §77-112 (Reissue 2003).
3. Actual value may be determined using professionally accepted mass appraisal methods, including, but not limited to, the (1) sales comparison approach using the guidelines in section 77-1371, (2) income approach, and (3) cost approach. Neb. Rev. Stat. §77-112 (Reissue 2003).

4. “Actual value, market value, and fair market value mean exactly the same thing.”
Omaha Country Club v. Douglas County Board of Equalization, et al., 11 Neb.App. 171, 180, 645 N.W.2d 821, 829 (2002).
5. Taxable value is the percentage of actual value subject to taxation as directed by section 77-201 of Nebraska Statutes and has the same meaning as assessed value. Neb. Rev. Stat. §77-131 (Reissue 2003).
6. All taxable real property, with the exception of agricultural land and horticultural land, shall be valued at actual value for purposes of taxation. Neb. Rev. Stat. §77-201(1) (Cum. Supp. 2006).
7. “Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises as defined by the Legislature except as otherwise provided in or permitted by this Constitution.” *Neb. Const.*, Art. VIII, §1.
8. Equalization to obtain proportionate valuation requires a comparison of the ratio of assessed to actual value for the subject property and comparable property. *Cabela's Inc. v. Cheyenne County Bd. of Equalization*, 8 Neb.App. 582, 597 N.W.2d 623 (1999).
9. Uniformity requires that whatever methods are used to determine actual or taxable value for various classifications of real property that the results be correlated to show uniformity. *Banner County v. State Board of Equalization*, 226 Neb. 236, 411 N.W.2d 35 (1987).
10. Taxpayers are entitled to have their property assessed uniformly and proportionately, even though the result may be that it is assessed at less than the actual value. *Equitable Life v.*

Lincoln County Bd. of Equal., 229 Neb. 60, 425 N.W.2d 320 (1988); *Fremont Plaza v. Dodge County Bd. of Equal.*, 225 Neb. 303, 405 N.W.2d 555 (1987).

11. The constitutional requirement of uniformity in taxation extends to both rate and valuation. *First Nat. Bank & Trust Co. v. County of Lancaster*, 177 Neb. 390, 128 N.W.2d 820 (1964).
12. In the evaluation of real property for tax purposes, where buildings and improvements are taxable as a part of the real estate, the critical issue is the actual value of the entire property, not the proportion of that value which is allocated to the land or to the buildings and improvements by the appraiser. *Bumgarner v. Valley County*, 208 Neb. 361, 303 N.W.2d 307 (1981).
13. If taxable values are to be equalized it is necessary for a Taxpayer to establish by clear and convincing evidence that valuation placed on his or her property when compared with valuations placed on similar property is grossly excessive and is the result of systematic will or failure of a plain legal duty, and not mere error of judgement. There must be something more, something which in effect amounts to an intentional violation of the essential principle of practical uniformity. *Newman v. County of Dawson*, 167 Neb. 666, 94 N.W.2d 47 (1959).
14. A presumption exists that the County Board has faithfully performed its duties and has acted on competent evidence. *City of York v. York County Bd. Of Equalization*, 266 Neb. 297, 64 N.W.2d 445 (2003).
15. The presumption in favor of the county board may be classified as a principle of procedure involving the burden of proof, namely, a taxpayer has the burden to prove that

action by a board of equalization fixing or determining valuation of real estate for tax purposes is unauthorized by or contrary to constitutional or statutory provisions governing taxation. *Gordman Properties Company v. Board of Equalization of Hall County*, 225 Neb. 169, 403 N.W.2d 366 (1987).

16. The presumption disappears if there is competent evidence to the contrary. *Id.*
17. The order, decision, determination, or action appealed from shall be affirmed unless evidence is adduced establishing that the order, decision, determination, or action was unreasonable or arbitrary. Neb. Rev. Stat. §77-5016 (8) (Cum. Supp. 2006).
18. Proof that the order, decision, determination, or action was unreasonable or arbitrary must be made by clear and convincing evidence. See, e.g. *Omaha Country Club v. Douglas Cty. Bd. of Equal.*, 11 Neb.App. 171, 645 N.W.2d 821 (2002).
19. "Clear and convincing evidence means and is that amount of evidence which produces in the trier of fact a firm belief or conviction about the existence of a fact to be proved." *Castellano v. Bitkower*, 216 Neb. 806, 812, 346 N.W.2d 249, 253 (1984).
20. A decision is "arbitrary" when it is made in disregard of the facts and circumstances and without some basis which could lead a reasonable person to the same conclusion. *Phelps Cty. Bd. of Equal. v. Graf*, 258 Neb 810, 606 N.W.2d 736 (2000).
21. A decision is unreasonable only if the evidence presented leaves no room for differences of opinion among reasonable minds. *Pittman v. Sarpy Cty. Bd. of Equal.*, 258 Neb 390, 603 N.W.2d 447 (1999).

22. “An owner who is familiar with his property and knows its worth is permitted to testify as to its value.” *U. S. Ecology v. Boyd County Bd. Of Equalization*, 256 Neb. 7, 16, 588 N.W.2d 575, 581 (1999).
23. The County Board need not put on any evidence to support its valuation of the property at issue unless the taxpayer establishes the Board's valuation was unreasonable or arbitrary. *Bottorf v. Clay County Bd. of Equalization*, 7 Neb.App. 162, 580 N.W.2d 561, (1998).
24. A Taxpayer, who only produced evidence that was aimed at discrediting valuation methods utilized by the county assessor, failed to meet burden of proving that value of property was not fairly and proportionately equalized or that valuation placed upon property for tax purposes was unreasonable or arbitrary. *Beynon v. Board of Equalization of Lancaster County*, 213 Neb. 488, 329 N.W.2d 857 (1983).
25. A Taxpayer must introduce competent evidence of actual value of the subject property in order to successfully claim that the subject property is overvalued. Cf. *Lincoln Tel. and Tel. Co. v. County Bd. Of Equalization of York County*, 209 Neb. 465, 308 N.W.2d 515 (1981); *Arenson v. Cedar County*, 212 Neb. 62, 321 N.W.2d 427 (1982) (determination of equalized taxable value) *Josten-Wilbert Vault Co. v. Board of Equalization for Buffalo County*, 179 Neb. 415, 138 N.W.2d 641 (1965) (determination of actual value).

IV. ANALYSIS

The subject property is an improved multifamily residential parcel. The land is improved with a 2,430 square foot two story duplex built in 1954. (E3:1). The duplex has a 1,200 square

foot basement. (E3:1). The basement is used for storage and for laundry facilities. The land is also improved with a 560 square foot detached garage. (E3:1).

The Taxpayer testified that actual value of the subject property was affected by the decline in the neighborhood.

The Taxpayer asserted that actual value of the subject property using the income approach should be reduced because average rent for the two units in the subject property was below the average rents for two bedroom apartments in Omaha.

The Income Approach can be defined as “a set of procedures through which an appraiser derives a value indication for an income-producing property by converting its anticipated benefits (cash flows and reversion) into property value. This conversion can be accomplished in two ways. One year’s income expectancy can be capitalized at a market-derived rate or at a capitalization rate that reflects a specified income pattern, return on investment, and change in the value of the investment. Alternatively, the annual cash flows for the holding period and the reversion can be discounted at a specified yield rate.” *The Dictionary of Real Estate Appraisal*, Fourth Edition, Appraisal Institute, p.143, (2002). The steps required for use of the income approach with direct capitalization may be summarized as (1) estimate potential gross income; (2) deduct estimated vacancy and collection loss to determine effective gross income; (3) deduct estimated expenses to determine net operating income; (4) divide net operating income by an estimated capitalization rate to yield indicated value. *The Appraisal of Real Estate 12th Edition*, The Appraisal Institute, 2001, pp. 493 - 494. A variety of techniques may be used to quantify various components of any application of the approach. *Supra*, at chs 20-24, (2001).

Three major methods are used to develop an indication of value using the income approach: direct capitalization; yield capitalization; and a discounted cash flow analysis. *Id.* The direct capitalization method produces an indication of value based on a single year's estimated income. *Supra*, at 529. A yield capitalization method requires an analysis of income and expected returns over multiple years. *Supra*, at 549. Discounted cash flow analysis is a refinement of the yield capitalization method in which a reversionary value is added to the indicated value of the income stream. *Supra*, at 569. A reversionary value is added on the assumption that the asset producing an income stream still exists and has value at the end of the period. *Id.* That value is discounted to present value as of the valuation date and added to the value of the income stream. *Supra*, at ch 24.

An estimate of value using the income approach may also be obtained based on gross income and a gross income multiplier. *Supra* at 546-547. A gross income multiplier can be obtained by dividing the sale price of each comparable parcel by its potential gross income and analyzing the results. *Supra* at 547. The gross income of the property for which value is to be estimated is then multiplied by the gross income multiplier derived from the sales of comparable parcels. *Supra* at 546-547.

At best the evidence of the Taxpayer showing rents received could be used as one component of the income approach. No estimate of value based on the income approach could be made based on the Taxpayer's evidence.

The Taxpayer testified that actual value of the subject property could be determined using the cost approach. the Cost Approach includes six steps: "(1) Estimate the land (site) value as if vacant and available for development to its highest and best use; (2) Estimate the total cost new

of the improvements as of the appraisal date, including direct costs, indirect costs, and entrepreneurial profit from market analysis; (3) Estimate the total amount of accrued depreciation attributable to physical deterioration, functional obsolescence, and external (economic) obsolescence; (5) Subtract the total amount of accrued depreciation from the total cost new of the primary improvements to arrive at the depreciated cost of improvements; (5) Estimate the total cost new of any accessory improvements and site improvements, then estimate and deduct all accrued depreciation from the total cost new of these improvements; (6) Add site value to the depreciated cost of the primary improvements, accessory improvements, and site improvements, to arrive at a value indication by the cost approach.” *Property Assessment Valuation*, 2nd Ed., International Association of Assessing Officers, 1996, pp. 128 - 129.

In this case the only evidence of replacement cost new is derived from an the amount stated in an insurance policy. The policy declamations page shows a replacement cost for the duplex and the garage of 158,400.00 (\$144,000 + \$14,400 = \$158,400). The only evidence of the value of the land is the Taxpayers assertion that one would be lucky to receive \$8,500 for the land. The Taxpayer’s only evidence of the depreciation factor that might be applicable are assertions that 40% depreciation should be granted based on age and more unspecified depreciation granted due to various obsolescence factors. The evidence is insufficient for the derivation of an estimate of value based on the cost approach.

The Taxpayer asserted that actual value of the subject property could be determined based on the market value approach. The Commission assumes that the market value approach is equivalent to the sales comparison approach. In the sales comparison approach an opinion of value is developed by analyzing similar properties and comparing those properties with the

subject property. *The Appraisal of Real Estate*, 12th Edition, Appraisal Institute, 2001, pg. 418.

An opinion of value based on use of the sales comparison approach requires use of a systematic procedure:

“1. Research the competitive market for information on sales transactions, listings, and offers to purchase or sell involving properties that are similar to the subject property in terms of characteristics such as property type, date of sale, size, physical condition, location, and land use restraints. ...

2. Verify the information by confirming that the data obtained is factually accurate and that the transactions reflect arm’s-length market considerations. ...

3. Select relevant units of comparison (e.g., price per acre, price per square foot, price per front foot) and develop a comparative analysis for each unit. ...

4. Look for differences between the comparable sale properties and the subject property using the elements of comparison. Then adjust the price of each sale to reflect how it differs from the subject property or eliminate that property as a comparable. This step typically involves using the most comparable sale properties and then adjusting for any remaining differences.

5. Reconcile the various value indications produced from the analysis of comparables into a single value indication or a range of values.” *The Appraisal of Real Estate* 12th Edition, The Appraisal Institute, 2001, p 422.

In this case the Taxpayer has produced Exhibits 7, 8 and 9 as parcels for comparison to the subject property. Information concerning the physical characteristics of those parcels and the subject property are shown in the following table.

Descriptor	Subject	Parcel 1	Parcel 2	Parcel 3
Exhibit	E10	E7	E8	E9
Location	1002 N 49 Ave	4123 Izard	4813 Cuming St	819 N 50 Ave
Lot Size	6,300	7,500	4,650	5,922

Style	2 Story Duplex	2 Story Duplex	2 Story Duplex	2 Story Duplex
Area Above Ground	2,430	1,596	2,312	2,657
Roof Type	Gable	Gable	Hip	Gable
Roof Cover	Comp Shingle	Comp Shingle	Comp Shingle	Comp Shingle
HVAC	Central Air	Central Air	Forced Air	Forced Air
Basement	1,200		1,156	1,260
Bedrooms	6*	4	6	4
Bathrooms	2.5*	2	2.5	2
Garage Type	Detached			
Garage Area	560			
Misc Imp	Brick Trim			
Lot Value	12,600	15,000	9,300	11,800
Imp Value	143,800	50,500	107,100	109,200
Taxable Value	156,400	65,500	116,400	121,000
Sale Date			1/19/2007 9/12/2006	4/2/2007 1/31/2006
Sale Price			\$84,950 \$70,000	\$132,000 \$110,000

* The Taxpayer testified that the duplex had only 4 bedrooms and 2 bathrooms. A request for an interior inspection requested by an appraiser for the County Assessor was denied.

Comparable properties” share similar quality, architectural attractiveness (style), age, size, amenities, functional utility, and physical condition. *Property Assessment Valuation*, 2nd Ed., International Association of Assessing Officers, 1996, p. 98. The improvements on parcels 2 & 3 were constructed many years prior to the improvements on the subject property, condition of the improvements is fair rather than average as stated for the subject property, the subject property is heated and cooled with a central air system while parcels 2 & 3 are served by a forced air system, the duplex on the subject property is smaller than the duplex on parcel 3 and larger than the duplex on parcel 3, and the subject property has an additional improvement a detached garage. When using “comparables” to determine value, similarities and differences between the subject property and the comparables must be recognized. *Property Assessment Valuation*, 2nd Ed., 1996, p.103. Most adjustments are for physical characteristics. *Property Assessment Valuation*, 2nd Ed., 1996, p.105. No adjustments to the sales prices of parcels 2 or 3 for the purpose of making them comparable to the subject property are in evidence. The unadjusted sales of parcels 2 & 3 do not indicate actual value for the subject property as of January 1 2007.

The Taxpayer asserted that taxable value of the subject property should be equalized with the taxable values of parcels at 819 N 50th Ave, 4123 Izard St and 4813 Cuming St. Information concerning the physical characteristics and taxable value of the parcels was received as evidence and with information concerning the physical characteristics and taxable value of the subject property is shown in the following table.

Descriptor	Subject	Parcel 4	Parcel 5	Parcel 6
Exhibit	E10	E6:15 & 16	E8	E7
Location	1002 N 49 Ave	819 N 50 Ave	4813 Cuming St	4123 Iazard St
Lot Size	6,300	5,922	4,650	
Condition	Av	Fair	Fair	Av
Quality	Av	Av	Av	Av
Yr Built	1954	1889	1925	1986
Exterior Walls	Frame Siding	Frame Stucco	Masonry Common	Frame Siding
Style	2 Story Duplex	2 Story Duplex	2 Story Duplex	2 Story Duplex
Area Above Ground	2,430	2,657	2,312	1,596
Roof Type	Gable	Gable	Hip	Gable
Roof Cover	Comp Shingle	Comp Shingle	Comp Shingle	Comp Shingle
HVAC	Central Air	Forced Air	Forced Air	Central Air
Basement	1,200	1,260	1,156	
Bedrooms	6	4	6	4
Bathrooms	2.5	2	2.5	2
Garage Type	Detached			
Garage Area	560			
Misc Imp	Brick Trim			
Lot Value	12,600	11,800	9,300	15,000
Imp Value	143,800	109,200	107,100	50,500
Taxable Value	156,400	121,000	116,400	65,500

Parcel 4 is the most similar to the subject property, however, the duplex on the parcel is older than the duplex on the subject property and the subject property has a detached garage as an added improvement. There is no reason to expect that actual value of the two parcels would be

similar. The Taxpayer argues that actual value of the subject property is \$106,920. (E6:2). Equalization to obtain proportionate valuation requires a comparison of the ratio of assessed to actual value for the subject property and comparable property. *Cabela's Inc. v. Cheyenne County Bd. of Equalization*, 8 Neb.App. 582, 597 N.W.2d 623 (1999). Actual value of the subject property equals its taxable value. The ratio of assessment to actual value of the subject property is therefore 1. There is no evidence of actual value for parcels 4, and 5 except their sales in 2006 and 2007. Assuming that the sales of the parcels 4 & 5 nearest to January 1, 2007, represented their actual value as of that date, parcel 4 would therefore have an actual value to assessment ratio of 1.09 ($\$132,000 \div \$121,000 = 1.09$) and parcel 5 would have an actual value to assessment ratio of .73 ($\$84,950 \div \$116,400 = .73$). As noted parcel 4 is the most similar to the subject property although there are significant differences. The analysis indicated that parcel 4 is under assessed. There is no basis for the Taxpayer's requested equalization relief.

**V.
CONCLUSIONS OF LAW**

1. The Commission has subject matter jurisdiction in this appeal.
2. The Commission has jurisdiction over the parties to this appeal.
3. The Taxpayer has not produced competent evidence that the County Board failed to faithfully perform its official duties and to act on sufficient competent evidence to justify its actions.

4. The Taxpayer has not adduced sufficient, clear and convincing evidence that the decision of the County Board is unreasonable or arbitrary and the decision of the County Board should be affirmed.

**VI.
ORDER**

IT IS ORDERED THAT:

1. The decision of the County Board determining actual value of the subject property as of the assessment date, January 1, 2007, is affirmed.
2. Actual value, for the tax year 2007, of the subject property is:

Case No. 07R-538

Land value \$ 12,600.00

Improvement value \$143,800.00

Total value \$156,400.00.

3. This decision, if no appeal is timely filed, shall be certified to the Douglas County Treasurer, and the Douglas County Assessor, pursuant to Neb. Rev. Stat. §77-5018 (Cum. Supp. 2006).
4. Any request for relief, by any party, which is not specifically provided for by this order is denied.
5. Each party is to bear its own costs in this proceeding.
6. This decision shall only be applicable to tax year 2007.

7. This order is effective for purposes of appeal on February 4, 2009.

Signed and Sealed. February 4, 2009.

Nancy J. Salmon, Commissioner

SEAL

APPEALS FROM DECISIONS OF THE COMMISSION MUST SATISFY THE REQUIREMENTS OF NEB. REV. STAT. §77-5019 (CUM. SUPP. 2006), OTHER PROVISIONS OF NEBRASKA STATUTES, AND COURT RULES.

I concur in the result.

The Commission is an administrative agency of state government. See, *Creighton St. Joseph Regional Hospital v. Nebraska Tax Equalization and Review Commission*, 260 Neb. 905, 620 N.W.2d 90 (2000). As an administrative agency of state government the Commission has only the powers and authority granted to it by statute. Id. The Commission is authorized by statute to review appeals from decisions of a county board of equalization, the Tax Commissioner, and the Department of Motor Vehicles. Neb. Rev. Stat. §77-5007 (Supp. 2007). In general the Commission may only grant relief on appeal if it is shown that the order, decision, determination, or action appealed from was unreasonable or arbitrary. Neb. Rev. Stat. §77-5016(8) (Supp. 2007).

Nebraska courts have held that the provisions of section 77-5016(8) of the Nebraska Statutes create a presumption that the County Board has faithfully performed its official duties and has acted upon sufficient competent evidence to justify its actions. *City of York v. York*

County Board of Equalization, 266 Neb. 297, 664 N.W.2d 445 (2003). The presumption cited in *York* has roots in the early jurisprudence of Nebraska. See, *State v. Savage*, 65 Neb. 714, 91 N.W. 716 (1902) (citing *Dixon Co. v. Halstead*, 23 Neb. 697, 37 N.W. 621 (1888) and *State v. County Board of Dodge Co.* 20 Neb. 595, 31 N.W. 117 (1887)). As early as 1903 Nebraska Statutes provided for review of County Board assessment decisions by the district courts. Laws 1903, c. 73 §124. The statute providing for review did not state a standard for that review. *Id.*

In 1959 the legislature provided a statutory standard for review by the district courts of county board of equalization, assessment decisions. 1959 Neb Laws, LB 55, §3. The statutory standard of review required the district Court to affirm the decision of the county board of equalization unless the decision was arbitrary or unreasonable or the value as established was too low. *Id.* The statutory standard of review was codified in section 77-1511 of the Nebraska Statutes. Neb. Rev. Stat. §77-1511 (Cum. Supp. 1959). Review of district court decisions made pursuant to section 77-1511 was de novo. *Future Motels, Inc. v. Custer County Board of Equalization*, 252 Neb. 565, 563 N.W.2d 785 (1997). The presumption functioned as a standard of review. See, e.g. *Gamboni v. County of Otoe*, 159 Neb. 417, 67 N.W.2d 492 (1954).

The Tax Equalization and Review Commission was created in 1995. 1995 Neb. Laws, LB 490 §153. Section 77-1511 of the Nebraska Statutes was made applicable to review of county board of equalization assessment decisions by the Commission. *Id.* In 2001 section 77-1511 of Nebraska Statutes was repealed. 2001 Neb. Laws, LB 465, §12. After repeal of section 77-1511 the standard for review to be applied by the Commission in most appeals was stated in section 77-5016 of the Nebraska Statutes. Section 77-5016 requires a finding that the decision being reviewed was unreasonable or arbitrary. The basis for that determination is the evidence

presented to the Commission in a new record. See, Neb. Rev. Stat. §77-5016 (Cum. Supp. 2006). Commission decisions are reviewed for error on the record. See, Neb. Rev. Stat. 77-5019(5) (Cum. Supp. 2006). The statutory basis for Commission review and the review of its decisions is analogous to district courts review of decisions made by administrative agencies. The basis for district court review of decisions made by administrative agencies is de novo on the record. *Tyson Fresh Meats v. State*, 270 Neb. 535, 704 N.W.2d 788 (2005). The decisions of the district court examining the administrative decision are reviewed for error on the record. *Thorson v. Nebraska Dept. of Health & Human Servs.*, 274 Neb. 322, 740 N.W.2d 27 (2007). The similarities are enough to suggest that the framework for review applied to district court decisions could be made applicable to decisions of the Commission.

Many appeals of decisions made pursuant to section 77-1511 were decided without reference to the statutory standard of review applicable to the district courts. See, e.g. *Grainger Brothers Company v. County Board of Equalization of the County of Lancaster*, 180 Neb. 571, 144 N.W.2d 161 (1966). As noted however review was de novo and the reviewing court was not bound by the standard of review imposed on district court. *Loskill v. Board of Equalization of Adams County*, 186 Neb. 707, 185 N.W.2d 852 (1971). In *Hastings Building Co., v. Board of Equalization of Adams County*, 190 Neb. 63, 206 N.W.2d 338 (1973), the Nebraska Supreme Court acknowledged that two standards of review existed for the district courts; one statutory, and the other judicial stated as a presumption that the county board of equalization faithfully performed its official duties and acted upon sufficient competent evidence. No attempt was made by the *Hastings* Court to reconcile the two standards of review that were applicable to the district courts.

The possible results from application of the presumption and the statutory standard of review by the Commission are: (1) the presumption is not overcome and the statutory standard is not overcome; (2) the presumption is overcome and the statutory standard is not overcome; (3) the presumption is not overcome and the statutory standard is overcome; (4) and finally the presumption is overcome and the statutory standard is overcome. The first possibility does not allow a grant of relief, neither standard of review has been met. If the presumption is overcome the statutory standard remains. See, *City of York v. York County Bd of Equal.*, 266 Neb. 297, 664 N.W.2d 445 (2003). The second possibility does not therefore allow a grant of relief even though the presumption is overcome. The third possibility requires analysis. The presumption and the statutory standard of review are different legal standards, one remaining after the other has been met. See. *City of York v. York County Bd of Equal.*, 266 Neb. 297, 664 N.W.2d 445 (2003). The burden of proof to overcome the presumption is competent evidence. *City of York*, Supra. Clear and convincing evidence is required to show that a county board of equalization's decision was unreasonable or arbitrary. See, e.g. *Omaha Country Club v. Douglas Cty. Bd. of Equal.*, 11 Neb.App. 171, 645 N.W.2d 821 (2002). Competent evidence that the county board of equalization failed to perform its duties or act upon sufficient competent evidence is not always evidence that the county board of equalization acted unreasonably or arbitrarily because the statutory standard of review remains even if the presumption is overcome. *City of York*, Supra. Clear and convincing evidence that a county board of equalization's determination, action, order, or decision was unreasonable or arbitrary, as those terms have been defined, may however overcome the presumption that the county board of equalization faithfully discharged its duties and acted on sufficient competent evidence. In any event the statutory standard has been met and

relief may be granted. Both standards of review are met in the fourth possibility and relief may be granted. Each analyses of the standards of review allowing a grant of relief requires a finding that the statutory standard has been met.

Use of the presumption as a standard of review has been criticized. See, G. Michael Fenner, *About Presumptions in Civil Cases*, 17 *Creighton L. Rev.* 307 (1984). In the view of that author the presumption should be returned to its roots as a burden of proof. *Id.* Nebraska's Supreme Court acknowledged the difficulty of using two standards of review and classified the presumption in favor of the county board of equalization as a principle of procedure involving the burden of proof, namely, a taxpayer has the burden to prove that action by a board of equalization fixing or determining valuation of real estate for tax purposes is unauthorized by or contrary to constitutional or statutory provisions governing taxation. See, *Gordman Properties Company v. Board of Equalization of Hall County*, 225 Neb. 169, 403 N.W.2d 366 (1987). Use of the *Gordman* analysis allows consideration of both the presumption and the statutory standard of review without the possible conflict or difficulties inherent in the application of two standards of review. The *Gordman* analysis requires the Commission to consider all of the evidence produced in order to determine whether there is clear and convincing evidence that the decision, action, order, or determination being reviewed was unreasonable or arbitrary. It is within that framework that I have analyzed the evidence.

Wm R. Wickersham, Commissioner
