IN THE MATTER OF EQUALIZATION
OF VALUE OF REAL PROPERTY
WITHIN SCOTTS BLUFF COUNTY,
NEBRASKA,
FOR TAX YEAR 2017

COUNTY NUMBER 79

FINDINGS AND ORDERS
(No Show Cause Hearing)

SUMMARY

The Tax Equalization and Review Commission finds that the levels of value for real property in Scotts Bluff County for tax year 2017 meet the requirements of law¹. The following findings of fact, conclusions of law, and this order are issued pursuant to a motion adopted by the Commission on the record.

**I.
APPLICABLE LAW**

1. The Commission has the power to review and equalize assessments of property for taxation within the state.²
2. The Commission is required to meet annually to equalize the assessed values and special values of all real property based on the abstracts submitted by the county assessors.³ The Commission must also equalize the values of real property valued by the State.⁴
3. An assessment/sales ratio is a tool used under professionally accepted mass appraisal methods to measure and evaluate the level and uniformity of assessed values. The ratio is determined by dividing the assessed value of a parcel of real property by its sales price.

The assessment/sales ratio is expressed as a percentage.⁵

² Neb. Const. Art. IV, §28.

³ Neb. Rev. Stat. §77-5022 (2016 Cum. Supp.).

⁴ Neb. Rev. Stat. §77-5022 (2016 Cum. Supp.).

⁵ 442 Neb. Admin. Code, ch. 9, §002.02 (06/11).

4. The Commission is required to raise or lower the valuation of a class or subclass of real property when it is necessary to achieve equalization.⁶
5. To achieve equalization, the Commission is authorized to increase or decrease the value of a class or subclass of real property in any county or taxing authority or of real property valued by the state so that all classes or subclasses of real property in all counties fall within an acceptable range.⁷
6. Nebraska law defines an acceptable range as "... the percentage of variation from a standard for valuation as measured by an established indicator or central tendency of assessment."⁸
7. The median has been adopted by the Commission as the preferred established indicator of central tendency.⁹
8. The acceptable ratio range for the median of the assessment/sales ratio for each class of property is as follows: 69% to 75% for the class and subclasses of agricultural land and horticultural land not receiving special valuation, 69% to 75% for the class and subclasses of agricultural land and horticultural land receiving special valuation, and 92% to 100% of actual value or fair market value for all other classes and subclasses of real property.¹⁰ Special valuation is defined in Neb. Rev. Stat. §77-1344.
9. Any increase or decrease shall cause the level of value determined by the Commission to be at the midpoint of the acceptable range.¹¹

10. Any increase or decrease to a subclass of property shall also cause the level of value determined by the Commission for the class from which the subclass is drawn to be within the applicable acceptable range.¹²
11. Whether the level of value determined by the Commission falls within the acceptable range may be determined to a reasonable degree of certainty using generally accepted mass appraisal techniques.¹³
12. The Property Tax Administrator shall make annual comprehensive assessment ratio studies of the average level and degree of uniformity of the assessments as well as compliance with assessment requirements for each major class of real property subject to the property tax in each county. Such studies shall be developed in compliance with professionally accepted mass appraisal techniques and shall employ such statistical analysis as deemed appropriate by the Property Tax Administrator, including measures of central tendency and dispersion. These studies shall be used by the Property Tax Administrator for the analysis of the level of value and quality of assessment for purposes of section 77-5027, by the Property Tax Administrator in establishing the adjusted valuations required by section 79-101 and also by assessing officials in establishing assessed valuations.¹⁴
13. The Property Tax Administrator shall deliver to the Commission and to each county assessor annual reports and opinions on or before nineteen days following the final filing due date for the abstract of assessment for real property pursuant to section 77-1514. For a county with a population of at least one hundred fifty thousand inhabitants according to

14. The annual reports and opinions of the Property Tax Administrator shall contain statistical and narrative reports informing the Commission of the level and quality of assessment of the classes and subclasses of real property within the county. A certification of the opinion of the Property Tax Administrator regarding the level of value and quality of assessment of the classes and subclasses of real property in the county shall also be included.¹⁶

15. In addition to an opinion of the level of value and quality of assessments, the Property Tax Administrator may make nonbinding recommendations for consideration by the Commission.¹⁷
